

The Christian Workers Association.

This Association has *no special work of its own*. It is in fact *the aggregate* of all the workers in the several departments described in the foregoing pages. The intention is, that a common love should hold all the workers of any sort together, and that they should all meet together occasionally for mutual conference and encouragement.

Temperance Work.

A Temperance Mission in connexion with "The Church of England Temperance Society, was held in the city of Toronto in December last. The meetings were opened in the afternoon of the first Sunday in Advent, with a meeting in St. James' School-house, at which the Lord Bishop presided, and addresses were delivered by His Lordship and by Mr. Robert Graham the Society's agent in the United States. The Bishop preached a special sermon on Temperance in the Cathedral on the same evening. Meetings were held in several Parochial centres during the week, and the movement in this parish closed with a sermon on the evening of the second Sunday in Advent in the Cathedral by Canon DuMoulin. The two pledges of the Society were largely circulated on all occasions, and many were returned to the Cathedral clergy duly signed. It is proposed to call a special meeting of all those who have thus enrolled themselves, and so form the *nucleus* of what in this parish should be a Temperance body of great strength and influence.

The formation of a Band of Hope is also under consideration.
