

## LOGAN PLEADS ATTRACTION FOR MARITIME UNION

Deplores Fact That Three Governments Used to Carry on Work

SEES MUCH BENEFIT IN WEST INDIES PACT

Recounts Preferences Canadian Goods will Get in Islands.

MONCTON, July 15.—Terms of the agreement recently negotiated between representatives of the British West Indies and Canada were read here at the Board of Trade conference today by Hance J. Logan, K. C., M. P. of Amherst, and the prime movers for the development of trade with the islands. They showed marked preference to be given to the produce and manufacture in the Maritime Provinces.

The agreement is to be submitted to the various Legislatures of the islands concerned and will come into operation as soon as possible after the transportation service between the two countries has been inaugurated under the new agreement. It will remain in force for 12 years.

MARITIME UNION.

Mr. Logan's address was followed with keenest interest by the Maritime men present and he was heartily thanked.

Prior to launching into his subject Mr. Logan said he was extremely glad to see such a large gathering present. It was a welcome sign, he said, to note that the business men of the Maritime Provinces were at last meeting around a common board in a determined attempt to better conditions down east. Through union much good could be accomplished, he said. He made a strong plea for Maritime Union and deplored the fact that the British and Canadian governments, three sets of officials and three sets of separate humanitarian institutions for the Atlantic basin. His remarks were loudly applauded.

TRADE AGREEMENT.

Turning to the West Indies agreement, Mr. Logan said that the customs duties on all goods other than tobacco, cigars and cigarettes, being the produce of Canada when imported into any of the following colonies of the British West Indies, namely: Barbados, 50 per cent; British Guiana, 50 per cent; British Honduras, 33 1/3 per cent; Jamaica, 25 per cent; Leeward Islands, 33 1/3 per cent; Trinidad or Tobago, 50 per cent; Windward Islands, 33 1/3 per cent.

BUSINESS POSSIBILITIES.

Concerning the possibilities for trade in these countries, Mr. Logan said the trade with the West Indies last year amounted to a billion dollars. The trade between Cuba and Porto Rico with the United States alone amounted to \$400,000,000. He said there was not any trade there. As one of the points mentioned that 2,840,000 stems of bananas were imported into Canada last year from these islands and practically all of them came via New York. A banana cost about a quarter cent in Cuba, he said. He need not tell them what they pay for them here.

The spread, he declared, went to the United Fruit Company.

WOULD MAKE FREIGHT.

Two million four hundred thousand stems of bananas came into Canada last year, practically all through the United States with the American duty added, and those bananas alone would have provided more freight than the Canadian West Indies service of the time could have handled, the speaker said. But, said Mr. Logan, Royal Mail Steam Packet steamers and Canadian Government Merchant Marine steamers were then plying with largely empty holds and the Government of Canada was paying the former a subsidy amounting to \$200,000 on the latter.

The West Indies treaty, just signed, gave to the Maritimes the opportunity, giving in the case of bananas alone, a preferential duty of 50 cents per stem.

MAY TENDER.

With the treaty signed the next thing to be done was the provision of the steamship service entailed, said the speaker. He did not quite know how it would be provided. In any case tenders would be called. He presumed that the Government Merchant Marine would tender. But whether the Merchant Marine, Furness-Withy, the Royal Mail Packet or the Canadian Pacific Railway supplied it, and the last was a possibility, there was going to be a proper service. While there was no provision in the treaty the matter had come in discussion and was favored by resolution that the steamers in the West Indies—St. Lawrence trade would call at Chattertown, P.E.I. and Miramichi, N.S. Mr. Logan said that he saw no reason why Maritime freight and passengers should be carried to Montreal to be subjected to the expense of rail shipment back.

STEAMSHIP SERVICES.

Mr. Logan then read from the agreement: "The steamship service will be as follows to the eastern group: (1) A fortnightly freight, passenger and mail service from Canada to ten ports, all the year round, the vessels providing accommodation for 100 first, 30 second and 100 steerage passengers, and could storage accommodation that may be required, not less than 10,000 cubic feet. (2) In addition, Canada will provide a fortnightly freight service to the eastern group from Canadian river ports in summer and ocean ports in winter. (3) For this service the islands of eastern group will contribute annually a total of \$28,000."

WESTERN GROUP.

"Regarding the western group steamer service, the Government of Canada undertakes to provide a fort-

## Free to Asthma and Hay Fever Sufferers

Free Trial of Method That Anyone Can Use Without Discomfort or Loss of Time.

We have a new method of control of Asthma, and we want you to try it at our expense. No matter whether your case is of long standing or recent development, whether it presents as Chronic Asthma or Hay Fever, you should send for a Free Trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with Asthma or Hay Fever, our method should relieve you promptly.

We especially want to send it to those who are unable to work, whose all forms of inhalers, douches, opium preparations, fumigations, "cures," etc., have failed. We want to show everyone at our expense, that our method is designed to end all difficult breathing, all wheezing, and all those terrific attacks.

This free offer is too important to neglect a single day. Write now and begin the method at once. Send no money. Simply mail coupon below. Do it today—you even do not pay postage.

**FREE TRIAL COUPON.**

## Europeans Buy Huge Farm At Houghton, Sask

WINNIPEG, July 15.—Hungarian and Swiss settlers have purchased a ten thousand acre farm at Houghton, Sask., from the Scottish Co-operative Wholesale Society of Glasgow, Scotland, according to an announcement made here today. The sale includes complete equipment, including a 30,000 bushel grain elevator, and this year's crop consisting of 3,660 acres of wheat, and 1,480 acres of oats. No purchase price was announced, but it is understood to be on a crop-payment basis. The purchasers will take immediate possession.

## Y. M. C. A. BOYS GO INTO CAMP TODAY

Thirty-two Lads to be Under Canvas at Oak Point

Reports of Good Outings Come From Girl Guides and Tuxis Boys.

Point and the Tuxis Boys and Trail Rangers of St. David's church, in camp at Holder's, on the Saint John River, interchanged visits on Sunday when divine services were held. A. R. Crookshank, who returned from the Tuxis camp yesterday, told of the activities of the boys and the great interest shown in the work undertaken there.

Venerable Archdeacon A. H. Crawford presided at the service on Sunday at Beasley's Point, when the boys from Holder's Beach camp were in attendance.

Mr. Crookshank was in charge of the boys' camp over the week-end while Rev. Hugh Miller, the camp commandant, was in the city.

MacDonnell and Henry Hollies are engaged for the week-end while Miss Irene Barber, in charge of the activities of the Girl Guides, with three troops in attendance.

The Tuxis Boys and Trail Rangers are to return to the city on Saturday. Last Saturday the boys went to Williams' Wharf for a baseball game in which they were defeated. They attended the strawberry festival at the Cedars.

**GUIDES RETURN**

Having spent a fortnight under canvas at Beasley's Point on the Saint John River and having enjoyed every minute of their outdoor life there, some 25 Girl Guides composed of members of the Fifth Saint John (St. Paul's) Company, in charge of Miss Irene Barber, who was also camp commandant; the First Rothery Company, under Miss Ruth Starr; the Third Saint John (Stone Church) Company and the First Saint John Company in charge of Mrs. G. VanDusen, assisted by Patrol Leader Helen Currie, arrived in the city yesterday afternoon on the steamer Hamilton. Miss Barber reported last evening that although they experienced some unfavorable weather, nothing had happened to mar the pleasure of camp life. No accidents were reported but one Guide contracted a severe cold while at the camp and returned home before the outing had ended.

Several badges were won by the Guides while on the outing. The following passed the tests: Camp examiner and cook, Miss Starr; athletics, Miss Anderson; swimming, Miss Anderson; pioneer's badge, Miss Barber, and nurse's badge, Mrs. VanDusen.

**NOTICE.**

On Saturday, July 18th, 1925, the Ferry Service will be discontinued from 11 p. m. to Sunday, July 19th, 1925, 11 a. m. to all traffic—By order T. H. Bullock, Commissioner of Harbor, Fisheries and Public Lands. Comptroller. 989-7-20

## Woodpeckers Split Poles

ORANGE, N. J., July 15.—Emergency crews of the telephone and telegraph companies are kept busy repairing telephone poles damaged by red-headed woodpeckers in the vicinity of this city. Hundreds of poles have been split. The birds bore holes in the pole and put assurance in the hole. In wet weather the acorn swell, causing the poles to split.

**GUIDES RETURN**
