VOL. XX, No. 291

ST. JOHN, N. B., THURSDAY, SEPTEMBER 11, 1924

TWELVE PAGES—ONE CENT

If you have a flat or rooms to rent, now is the time to advertise. Suburbanites are moving back to the city and are looking for suitable places to locate.

When you advertise a flat to rent, give a full description—location, number of rooms, rent and other important details—and results will follow quickly.

Canadian Clubs Get To Resolution Stage This Morning

PRESIDENCY GOES TO FORT WILLIAM MAN

Officers Elected Today by Association of Canadian Clubs.

SESSION OF INTEREST

Important Addresses on Canadianism are Delivered by Men of Prominence.

C. H. Philpott, of Fort William, was unanimously elected national president of the Associated Canadian Clubs at the morning session of the twelfth annual convention here in the Pythian Castle, and Mrs. Hugh Raney, Port Arthur, was elected national vice-president. Other members of the national executive include John B. Thompson, Fort William, secretary, and I. L. Matthew, Port Arthur, treasurer.

Provincial vice-presidents were elected as follows: British Columbia, Mrs. H. P. Hodges; Saskatchewan, C. R. McIntosh; North Battleford; Manitoba, C. C. Ferguson, Winnipeg; Ontario, A. R. Lancelotti, Hamilton; Quebec, Zephir Hebert, Montreal; New Brunswick, Ivan C. Rand, Moncton; Nova Scotia, A. B. Wiswell, Halifax. Alberta's vice-president will be named later.

Matter of Secretary.

Appointment of a secretary, either permanent or part time, occupied considerable attention of the delegates at the morning session, and it was finally decided to have a resolution brought in this afternoon on the matter. Several resolutions also were adopted. A feature of the morning session was the warm words of commendation for the "Maple Leaf," the official publicity medium of the association.

Dr. MacMechan reported for the lecturership committee that the 10 per cent contribution for the lecturership scheme be returned to the various clubs if so desired, and that the individual clubs communicate with the National Council of Education with regard to speakers for the lecture course.

Considerable discussion occurred on this matter, those taking part including Mrs. E. A. Smith, W. J. S. Myles, S. J. Tate, and Major F. Ney. The latter covered ground traversed yesterday afternoon in explanation of the scheme.

E. V. Ilsey, president of the Hamilton Club, said the association should endorse the efforts of the national Council in this direction. He advocated a permanent honorary secretary being appointed to handle details of work securing speakers and other matters of national concern.

The report finally was referred back for re-drafting.

Resolutions.

The discussion was followed by consideration of resolutions. The first (Continued on page 2, seventh column)

Church Relics Are Returned By Reds

Etschmadsin, Armenia, Sept. 11.—All the property stolen from the Armenian Church during the famine of 1920-21, including many thousands of dollars' worth of gold and silver chalices, communion cups, and other articles, has been returned by the Moscow authorities to the Armenian Catholics and the Armenian Church.

The property, which has been deposited in the Cathedral of the Virgin here, fills four huge packing cases. It will be redistributed to the local churches from which it was confiscated.

This is the first time in the history of the Soviet that such property has been restored to the churches.

WERE OUT 3 DAYS IN AN OPEN DORY

Newfoundland Fishermen To Leave Boston Today For Their Homes.

Boston, Sept. 11.—Two Newfoundland fishermen who were rescued at sea last Sunday, the fishermen kept their message of food in reserve and took nothing but a little water for sustenance. They refrained from rowing in order to husband their strength. On the night of the third day the fog lifted and they sighted the Portuguese fishing schooner Sancha du Gal. The schooner was becalmed and the men overtook it by rowing. They spent 12 hours in the dory before being rescued.

NEW OFFENSIVE IN CHINA IS PLANNED

Attack Likely To Start Tomorrow—Feng Sending 10,000 Troops.

(United Press Staff Correspondent.) Shanghai, Sept. 12.—An attempt by General Chi Hsiang Yuan to break the Chinese army's front at Hwang Tu constituted the only military activity today, both sides being content for the most part to wait for the other to make the first move of the week. The Chi Li forces were expected to launch a new and general offensive tomorrow and Saturday, weather permitting.

General Chi Hsiang Yuan, anxious to come to blows with Lu's army and crush it, if possible, in order to be able to spare men to reinforce Wu Pei Fu in the defence of Peking against Chang Tso Lin, kept up an attack at Hwang Tu all day Wednesday, without much gain.

The Kiang Su troops were cheered by reports that the Christian general, Feng Yuh Siang, was sending 10,000 troops from Peking to join the battle against Lu Yung Hsiang. Feng's men are the best fighters in China.

Ottawa Girl Weds Man Who Shot Her

Detroit, Mich., Sept. 11.—Dorothy A. Hunter, a former Ottawa girl who was shot four times by her fiancé, Kenneth Gawlett, married him yesterday in the county jail. The shooting occurred on August 31. Gawlett is locked up awaiting trial on a charge of assault with intent to kill.

The former Miss Hunter declared at the time of the shooting that she still loved Gawlett but would never marry him. She was recently released from the hospital where she recovered from the bullet wounds. Gawlett and his wife gave their ages as 18. The shooting followed a trivial quarrel.

Wire Briefs

Paris, Sept. 11.—The Bank of France has raised its rate for advances on securities to eight per cent from the previous rate of seven per cent. It maintains its discount rate at six per cent.

Manila, Sept. 11.—A reign of terror is gripping the inhabitants of Mindanao Island on account of a recent outbreak of revolution. Many residents are planning to move to other islands.

Peking, Sept. 11.—An unconfirmed report from Urga, Mongolia, says that all foreigners have been prevented from leaving that city. The action is said to be the outgrowth of a case of illegal traffic in arms.

Fredericton, Sept. 11.—Alderman W. E. Farrell's auto, which was in collision on the road near Brooksville, suffered considerable damage but was able to continue home from St. Stephen under its own power.

YOUTHS JOKE WHILE WAITING FOR GATES OF PRISON TO OPEN

Facing Start of Life Sentences, Loeb and Leopold are Unconcerned.

FATHERS GRIEVED

Senior Leopold, However, Would Have His Son Serve Full Term.

(By Canadian Press.) Chicago, Sept. 11.—Nathan Leopold, Jr., and Richard Loeb, their future to be spent in drab cells at the Illinois State Penitentiary, passed their last day in the Cook county jail here in a mood akin to joy.

Awaiting final preparation of papers which would formally establish them as "prisoners" and under a decision which holds no hope for pardon or parole, the two youths were able to joke and laugh.

"I don't see how we can serve 30 years and live at the same time," Leopold remarked to his guard.

"We are in for now on so, so it does not make any difference when you take us down," Loeb told an attaché of the sheriff's office who visited his cell to confirm details of personal history for commitment papers.

Judge Caverly, freed from the burden which has been his since July 21, when the boys suddenly altered their pleas, sat pensively over the papers carried to his hotel suite last night for signature.

"These remain only the papers of the formal history of the case by State's Attorney Crooze before the automobile journey to Joliet, some 40 miles south, in the afternoon."

Nathan Leopold, Sr., aged and grieved parent of his namesake and heir, would have his boy serve out his time.

"Surely, surely he replied in broken voice when asked if he would be satisfied to have the boy remain in the penitentiary for life."

"There is but little to say," said Jacob Loeb, uncle of the extreme. "We have been spared the extreme penalty, but what have these two families to look forward to?"

WORK ON EMPIRE AIR ROUTE PLAN

British Air Ministry Official Speaks of Lack of Airship Bases in Canada.

(British United Press.) London, Sept. 11.—Lack of airship bases in Canada makes the chance of any test flights across the Atlantic improbable when the empire scheme of linking up the outlying parts of the Dominion by the air route is put into operation.

Women's Honesty Is Due To Fear

Ashbury Park, N. J., Sept. 11.—Women, as a rule, have more regard for honesty than men, Fred W. Withey of the National Surety Company today told the delegates attending the annual session of the New Jersey Hotelmen's Association, but he ascribed this regard for the truth principally to a element of fear.

The comparisons were brought out by Mr. Withey during an address, the subject of which was "Groceries of the Great Lakes Hotelmen." He declared that in no other business enterprise were those responsible obliged to assume such great chances.

NAME NEW ROUTE FOR WORLD FLIERS

Condition of Planes Will Not Permit Flight Over Rockies.

Washington, Sept. 11.—A new route for the flight of the army world flier from Washington to Seattle has been announced by the War Department.

The itinerary takes in Dayton, Ohio; Chicago, Omaha; St. Joseph, Missouri; Dallas, El Paso, Tuckson, Ariz.; San Diego, Los Angeles and San Francisco; Eugene, Oregon and Seattle.

The announcement of the revised itinerary said: "Before the flight had reached the U. S. plans to have it take the most direct route to Seattle, Washington, in terminal were drawn up and approved. This contemplated the crossing of the Rocky and Cascade mountains over the air route, which is now being flown by the airplanes of the Post Office Department."

"The condition of the airplanes of the route-the-world flight could not be foreseen at that time, but upon its arrival in Boston and at the original destination, it was determined that the route must now be changed."

"The airplanes have been subjected to 500 hours of the most strenuous flying to which any machine was ever exposed, the strains of which have considerably reduced their efficiency, and it will be impossible for them to reach an altitude of over 6500 feet without danger."

SCHOOL CHILD BADLY TRAMPED BY BULL

Oshawa, Ont., Sept. 11.—While playing with hundreds of other children on the grounds of the Mary street school, Betty Marks, youngest daughter of Mr. and Mrs. Ernie Marks, was badly trampled by a bull which was being taken to the Oshawa fair yesterday.

The animal, which was one of a number which were being driven along the road, became frightened and charged into the crowd of children playing on the grounds at recess time. The child was very seriously injured.

HELP THE BABIES!

Here is New Opportunity Afforded by Special Lecture at Imperial on Sunday Afternoon.

As a means of augmenting the Free Milk Fund, Edward Lee Hawk, character analyst and business psychologist, who is conducting a series of lectures in the city, has generously offered to vary his programme for next Sunday and will appear in the Imperial Theatre and deliver a special lecture, during which a silver collection will be taken up for the fund.

Mr. Hawk was scheduled to speak on Sunday evening in the Pythian Castle on "How to Know What Your Child Should Be." Under arrangements with the Women's Council and The Times-Star Milk Fund committee, this lecture will be given in the Imperial on Sunday afternoon, and Mr. Hawk will deliver a substitute lecture at the Pythian Castle in the evening. W. H. Golding, with his usual good cheer, gladly gave the use of the theatre and Attorney-General Byrne, who was asked over the long distance telephone, said he was pleased to permit the taking of a silver collection. Those in charge of the fund are keenly appreciative of the kindness of all.

BEING TODAY ABOUT EVEN ON FIRPO AND WILLS

Jack McAuliffe Picks the South American to Win.

HE ESCAPES ARREST

Tex Rickard's Luck Prevails Again With Good Weather Break.

(United Press.) Jersey City, N. J., Sept. 11.—"Rickard Luck" has scored again. The day of the big fight of Luis Angel Firpo and Harry Wills at Boyle's Thirty Acres, dawned clear and cool, with bright sunshine and no sign of rain for tonight. The skies and the weather man promised a chilly but fair evening for the bout.

Thus Tex Rickard, most famous of fight promoters, who is famed also for his amazing luck in predicting dates for his out-of-door entertainments, has proven himself once more a favorite of the elements. Where heavy rains washed out the international polo matches, a fair, dry day came along when Rickard's big heavyweight fight was due. This has happened time and time again. Betting today was practically at even money.

New York, Sept. 11.—(Canadian Press)—The prize lure of combat will centre the attention of sports enthusiasts tonight upon the arena at Boyle's Thirty Acres in Jersey City, where Harry Wills and Luis Angel Firpo meet in a 12-round heavyweight battle with a match against Champion Jack Dempsey as a prize to the winner.

The application was made by Herbert Clarke Gilson, counsel for a Jersey City religious and civic society, who charged Firpo with transporting a woman from Jersey City to New York City a little before his championship battle with Jack Dempsey a year ago.

The principals went to Jersey City this morning to remain until time for the battle. Wills was accompanied by his wife and manager, Paddy Mullins, and Tex Rickard, who will act as his advisors during the bout. Firpo's chief second will be his trainer, a veteran negro, Dan Washington.

The crowd. The most colorful crowd which has attended a fight since Jack Dempsey knocked out Georges Carpentier in the same ring three years ago, is expected to witness the fight. Call Main 2417 or 2148. Also the bulletins received from the typical fight crowd. Dempsey will head the battalion of champions, lights of present and past in pugilism who gather for the major struggles.

The circus-day scenes which attended the Carpentier-Dempsey affair will be repeated outside the pine saucer. Cordons of police will be thrown for blocks around, tickets will be sold from 10 o'clock on.

Others who will scatter curious crowds, concessions men will bark their invitations. A temporary jail and hospital have been erected within the enclosed radius. In all, 1,200 police and firemen will be on hand.

He Picks Firpo. By JACK MAULIFFE. (Retired undefeated lightweight champion, written for the United Press.) New York, N. Y., Sept. 11.—Firpo ought to win tonight's fight in Jersey City in one round if Wills darts in to come to him. Others who will scatter curious crowds, concessions men will bark their invitations. A temporary jail and hospital have been erected within the enclosed radius. In all, 1,200 police and firemen will be on hand.

Wills is a thorough boxer. He knows what to do and how to do everything almost perfectly. He is a more finished mechanic than Jack Dempsey. He fights beautifully, leaping and cutting as well as any fighter I ever saw, but he can't hit fast. Wills has no fighting head. He is much like Charley White, who failed to become the lightweight champion a half dozen times because he could not think quickly enough to do the right thing at the right time.

Wills knows what to do, but an experienced fighter watching him can see him start the motions but hesitate just long enough for Firpo to catch him, and that should not be very long. Wills is a thorough boxer. He knows what to do and how to do everything almost perfectly. He is a more finished mechanic than Jack Dempsey. He fights beautifully, leaping and cutting as well as any fighter I ever saw, but he can't hit fast. Wills has no fighting head. Irish Honor Michael Collins

Many prominent persons attended the unveiling of the memorial to Michael Collins, the late Irish leader, erected at Ballynedeath on the spot where he was ambushed and killed. President Cosgrave eulogized the martyred patriot.

Jersey City, N. J., Sept. 11.—"Rickard Luck" has scored again. The day of the big fight of Luis Angel Firpo and Harry Wills at Boyle's Thirty Acres, dawned clear and cool, with bright sunshine and no sign of rain for tonight. LOSS OF \$200,000 IS CAUSED BY MIDNIGHT FIRE

Town Plunged Into Darkness, Then Flames Light Up Place.

ALL IS SOON OVER

Rain Prevents Loss of Other Than Maritime Electric Co. Property.

(Special to Times-Star.)

St. Stephen, N. B., Sept. 11.—At last midnight this town was suddenly plunged into darkness, followed immediately by the clanging of the fire alarm and then the sky for miles around was illuminated, a fire having started at the electric light station, property of the Maritime Electric Co., which supplies St. Stephen, Calais and the two Milltowns with light and also several of the manufacturing plants with power.

The fire, said to be caused by a short circuit, started in the cupola of the building, but soon spread and in a very few minutes all was a mass of flames, throwing such an intense heat that it was impossible to get anywhere near. Not over a half hour elapsed from the time it started until the plant was flat on the ground, with a loss estimated at \$200,000.

Rain Saves Others.

During all of this the rain which started early in the evening was coming down in torrents which was a lucky thing for the buildings next to the electric railway plant which carried the sparks for more than two miles. Many buildings are handy to this plant and only the rain saved them. Some of the manufacturing plants are closed this morning but relief will come from the Cotton Co. which will supply the residents while the electric railway plant will also be able to carry some of the load as it already supplies several places with power. Everything is expected to be normal by four o'clock this afternoon with the exception of probably the street lighting, which will be out of commission for some time.

Heavy Downpour.

About eight o'clock last night it not only started to rain but poured and kept it up until an early hour this morning, but then the sun broke through and a light wind prevailed. The fair grounds dried up and the track will be in excellent condition for the racing. This will be a bumper day at the exhibition as it is the first morning that the weather has really cleared. Cars filled with visitors are coming from every direction. The classes today: 216 stake mixed, 219 stake mixed and 224 trot with good fields in each class.

PRINCE TO ATTEND BIG BOUT TONIGHT

Also Expected To Do Some Hunting on Long Island Today.

Syosset, N. Y., Sept. 11.—The Prince of Wales expected today to do some for hunting, his first taste of that old English sport as transplanted to the estates of Long Island. Here he is known as gun hunting at this season, the game being young foxes born in the spring. His Royal Highness' eye, which was slightly injured in a polo game on Monday, had so much improved today that he discarded the dark glasses he had put on to protect it.

Much interest attached today to an announcement made by Tex Rickard that the help to the British throne would attend the Firpo-Wills fight tonight. According to Rickard, the Prince has asked for and obtained five tickets.

No more was heard of the rumor this morning that the royal visitor had cancelled his trip to Canada. Captain Lascelles of the Prince's suite said emphatically that the Prince will visit the Dominion, as previously announced.

French Chiropodist Says He Can Read People's Character From Feet

Paris, Sept. 11.—A French Chiropodist, who claims that he can read people's characters from their feet, has evolved a new science which he calls podology.

He believes that the size of the big toe is a clue to one's temperament. Curved toes indicate a passionate nature, and toes that are too much separated a criminal inclination. Large heels imply laziness.

A large foot generally accompanies a generous nature. Small feet mean fastidiousness and a fondness for luxury. A well covered foot belongs to a self-indulgent person; small nails indicate good temper and a gentle disposition.

"I disagree with the idea that character can be delineated from the foot," said another chiropodist but one can certainly tell race and upbringing. Dutch and German women have the largest feet in the world, English women have feet which are narrow, though rather long, and Spanish women have high insteps. I should say the American women have the prettiest feet, because they look after them so carefully. The Frenchwoman is next on the list.

U. S. LOAN RENEWED

Morgan Credit of \$100,000,000 to France to Halt Fall of Franc.

Paris, Sept. 12.—(United Press)—A six months loan of \$100,000,000 made by J. P. Morgan to the Bank of France on March 10 to halt the fall of the franc, has been renewed for another half year on the same conditions and with the same guarantees in order to combat possible future attacks on the exchange, the United Press learned from an authoritative source today.

Weather Report

Toronto, Sept. 11.—Pressure is now north of the St. Lawrence Valley and from Manitoba to the southwest states and high near the south Atlantic and middle Pacific states. Rain has been general in Quebec and the Maritime Provinces and showers have occurred in many parts of Ontario and the western provinces.

Table with 3 columns: Location, Highest temperature, Lowest temperature. Locations include Victoria, Kamloops, Calgary, Edmonton, Winnipeg, Montreal, St. John, Halifax, and New York.
