Her many friends in the city will regret to hear of the death of Mrs. Edward Walsh, which occurred at her home, 182 Rockland road, last evening. Although not unexpected her death came as a great shock to her family and friends. Besides her husband she is survived by one son, William R. of the Daily Telegraph staff; one daughter, Mrs. D. J. Barrett; one sister, Mrs. Susan Dutton and one step-son, Thomas, all of this city. A large circle of friends will extend sympathy to the bereaved family.

The death occurred in San Jose (Cal.), on April 4, of Frank Everett, a former resident of St. John. He was born in this city, but went to St. Stephen at the age of thirty-one years. While there he married Miss Flora Eaton, and after living there for about two years he moved to Quincy (Ill.), where he carried on business for several years, later moving to San Jose. He was seventy-seven years of age, and besides his wife one daughter, Mrs. Louis Bowerman of Kansas City, and one brother, Harry L. Everett, president of C. & E. Everett, Limited, of this city.

Kerr, Vancouver (B.C.) and Mrs. R. C. Cruikshank of this city.

The death occurred in the city last evening of Mrs. Margaret Rafferty, wife of the late Richard Rafferty, in the fifty-ninth year of her age. The late Mrs. Rafferty had been a life-long resident of Kings county and her many friends in the city and in Kings county will learn of her death with deep regret. She leaves one daughter, Mrs. Charles Haley, of 6 City Road; one sister, Miss Catherine Montgomery, of Model Farm; and one brother, John Montgomery, of Boston. The funeral will take place from Fitzpatrick's undertaking parlors at 7.45 Friday morning to the Cathedral for requiem high mass. Interment will be made at Rosedale.

## FOUND DIAMONDS IN AN OLD SKIRT

N. Fingerman Sure Wife's Gems Had Been Stolen.

(Boston Globe)

Reporters who wandered into Station 7 about 10.30 this morning had visions of a big diamond robbery, when Nathan Fingerman, proprietor of a ladies' tailoring shop, 111 Meridian street, rushed breathlessly into the station and gasped out that glittering stones valued at \$2,000 the property of his wife, had been stolen.

Special officer Bert Winn was assigned to the job, and with Fingerman gestulating, hands swinging, etc., on his heels he hustled up to the Fingerman apartment, looked the place over, questioned Mrs. Fingerman, etc.

"I always leave the diamonds in the safe," mourned the distracted Fingerman, as he chased the officer round the apartment. On further questioning the officer learned that the Fingermans had some company last night. She gave the names and the investigation temporarily was diverted from the Fingerman household.

Nothing developed, however, and officer Winn went back to where he started. He told the couple that in his opinion the diamonds were still in the house. They looked dumbfoundedly at one another, and chorused in this fashion: "It can't be!"

Suddenly Mrs. Fingerman smiled a broad grin, and rushing out into the kitchen dropped her hand into the pocket of an old skirt and drew forth the "missing gems."

"By golly, that's great," yelled her husband, clapping officer Winn on the back.

## IN PARLIAMENT

Ottawa, April 7.—(Canadian Press)—Yesterday in the Commons Premier Meighen tabled the correspondence between the government and the Grand Trunk Railway Company, relative to an extension of the time for arbitration proceedings.

Speaker Rhodes informed the House that he had received the resignation of Sir Thomas White.

On motion to go into committee of supply, Ernest Lapointe, Quebec East, objected to the exclusion of reports of the National Catholic Union from the industrial conference to be held soon. He protested that this action was unfair and Senator D. D. Robertson was unfitted for the position of minister of labor.

The premier defended the minister of labor.

Dr. J. E. Fontaine (Hull), George Parent (Quebec West), Edmund Prolx (Proscott), Hon. C. J. Doherty and others took part in the debate.

In supply on the estimates of the department of railways and canals, the civil list, namely \$202,025, for salaries and \$28,000 for contingencies carried.

In the senate, a committee was appointed to enquire into the possibilities of developing oil shales, iron ore, coal and fuel deposits in Canada. Diversion of Canadian grain through American ports was discussed and severely criticized. Senator Lorne Webster said discrimination in marine insurance hurt trade through Canadian ports. The Transcontinental Railway as a grain carrier was also debated.

Today in parliament estimates of the department of marine and fisheries are to be taken up, also a motion to appoint a special committee on government railways and shipping.

## KINDERGARTENS AND PRIMARY SCHOOLS

A series of questions were sent from St. John to primary teachers of different cities and here are a few of the answers, all of which were favorable, regarding kindergartens.

"Every year the kindergarten is proving by definite illustrations, its importance to the primary teacher. The kindergarten child comes with senses developed, mind active, hands trained for work. He is bound to take up the grade work more quickly and understandingly."

"The kindergarten children are awake! They grasp much more readily the ideas presented, be it a direction to be followed, a story told, or a new word to be learned. Their power of attention, alertness, and self-reliance are better developed. But greatest of all, in any estimation, is the power of concentration, which the kindergarten child has, and which very few very young children possess."

"Through their habits of observation the kindergarten children have gained such a fund of information concerning the world around them, that the primary teacher has just so many more avenues through which to reach their minds. The kindergarten children are more resourceful and more self-reliant, their hands than home children."

"The kindergarten child has a greater sense of the rights and property of others, show more self control, are more independent, feel the need of working in harmony and show more often the desire to know and choose the right."

"Detroit city is now making preparations for the meeting of the International Kindergarten Union which is to be held there in May. It is hoped that two at least of the St. John kindergarten teachers will be able to attend."

## YOUNG BRIDE IN DANCE OF DEATH

Takes Strychnine and Waltzes Before Guests Till She Falls Dead.

Kalamazoo, Mich., April 7.—While a deadly poison which she had swallowed slowly drove life from her frail body, Mrs. Neve Fraser, eighteen, a bride of a few weeks, performed a veritable dance of death in the midst of a company of invited friends here last night. At length, relaxing from stupor and the pain of the convulsions which racked

her body, the girl swayed and fell dead before her horrified guests.

Excusing herself, she went to her room and took a few grains of strychnine. She returned to her friends a moment later and chatted on for a while. She then walked over to the phonograph and started playing "Till We Meet Again," explaining that was the piece played at a dance at which she had met her husband. Her friends were still oblivious to the tragedy that was taking place when she began dancing to the music, but before the last bars of the waltz had died away the little party saw her fall in a crumpled heap on the floor.

Death sealed her lips before she could give an explanation of her act. To some of her friends she had confided domestic troubles had started because her husband insisted on her living at his mother's home, despite her wish to have a home of her own.

When you work, work. When you play, play. Keep them apart.—Forbes Magazine (N. Y.)
