LACROSSE TEAM IS

Arrangements Made for Next Year-Other Sporting News From Various Quarters.

The recent great success of the Westminster lacrosse team, especially the enemy in their own territory. Many of the Victoria old stick handlers who watched the match say that the Tecumsels were not in the same class with the British Columbia team, and that their play was almost beyond criticism. Others have been saying the same things and saying them in the hearing of the Westminster boys, with the result that something tangible has already been accomplished in making arrangements for an eastern trip.

Thomas Gifford, M. P. P., an enthusiast in the game, is in Victoria to-day, and definite arrangements for the Westminster team to tour the cities of Eastern Canada, where they will meet all the celebrated teams of the cour try, where the game originated. Among these will be the Capitals, the famous team who won everything in England except one match, which they drew; the Shamrocks, who are going to visit the Old Country next season, and they will also play a return game with the Tecumsehs, who expect to have a stronger team when playing at home.

When they have tried the mettle of the eastern teams, and, as they hope, have lowered the color of not a few of ing teams of that country.

The English people are taking a great interest in the Canadian game, and last year gave the Capitals some difficult so with his whole soul, and the result is the players of that country have acquired considerable skill in lacrosse both in the universities and in the country clubs. British Columbians will watch their tour with the greatest in-

Kills a Boy and is Knocked Down and Beaten by Exasperated Crowd.

Paris, Oct. 11.—Chas. P. Baird of Philadelphia, the son of Mr. Baird of the Baldwin Lecomotive Works, last-night ran down and killed a boy named Daipred. Mr. Baird, who was driving a 75 horse power, six cylinder machine at a rapid pace, maintains that the accident was unavoidable. He had turned out of the road to avoid a heavy dray when the boy suddenly stepped from behind a wagon and was hit, before the brakes could be applied.

After the accident Mr. Baird nar-

rowly escaped death at the hands of an angry crowd which had collected. Mr. Baird was beaten and knocked down by the crowd before he was rescued by

A BOARD WALK

C. P. R. PRESSING FOR LAYING OF CEMENT

Difficulty Arises in Connection With Street Work in Front of **Empress Hotel.**

(From Saturday's Daily.)

There is trouble in prospect in con

ection with the contract between the

tive Agent Marpole at one end and the building inspector in charge of construction work at the other. How is it —such was the effect of the enquiry so struction work at the other. How is it emphatically started from the official end of the Canadian Pacific railway in Vancouver-that the city of Victoria is putting down a wooden sidewalk in front of the Empress on Governmen Hamilton, Oct. 12.—Jacob Sunfield street, whilst a cement footway is prowas last night found guilty of the murder of Andrew Radzyk on July 12th mayor and corporation and find out what is the matter." This was sub-stantially the interrogation that came According to Sunfield's own story of the murder told by him at the trial yesterday afternoon, he was on intimate terms with Mrs. Radzyak from the first week he boarded in the house, and Radzyak was jealous of him and they had many fights. Sunfield had heard Mrs. Radzyak threaten to kill her husband, but never when Radzyak is supposed to be expressed in the work was within earshot.
Sunfield and other members of the ters appertaining thereto.

This meeting of the streets commit one of the streets named—and it is the part of the undertaking being the most conspicuous, that those responsible for the hotel work are kicking about-before the completion of the hotel. "And," says the building inspector, "I was instructed that the meeting last night

had decided not to put down a permanent sidewalk until spring." The building inspector argues that there is no sound reason adducible for the stand taken by the city—even if the breach of contract involved in it could. be excused. He positively asserts as a can be laid on the Government street section of the hotel property, at least, in a couple of weeks, and that ther can be no sound excuse found for an evasion of the undertaking on the ground of unfavorable weather, or that the season is too far advanced to do the

The suggestion has been made that this question will be a matter for in-cidental consideration on the part of tle, a Hoboken trolley car suddenly ed here in a few days, and whose visit, burst into flames shortly before midit is said, is being made chiefly for the

At least there seems to be some sug-gestion of reason for live consideration of the point. According to present plans the hotel is to be opened for

business in January. THE FUTURE OF COMOX.

EUROPEAN RULER GROWING WEAK

SERIOUS CONDITION OF AUSTRAI'S EMPEROR

In Event of Death no Shock to Dual Monarchy Is An-

Vienna, Oct. 12.-The condition of Emperor Francis Joseph took a turn for the worse at noon and is now con-

sidered serious. The following bulletin has been is sued by the official news agency: "The coughing continues, though the Emperor spent a good night."

Better Reports. Vienna, Oct. 12.-The physician in attendance on Emperor Francis Joseph were somewhat encouraged by the fact that the patient was able to rise at his usual hour this morning after having passed an unexpectedly good night. He coughed less and slept more quietly. The catarrh inflammation, however has not diminished and his appetite continues bad, although he takes sufficient nourishment to maintain strength. The temperature of His Majesty this morning was only slightly above normal, and at 8 o'clock, an hou after his temperature had been take the Emperor received his aide de camp, General Baron Bolfras Von Ahnents-

burg and others, listening to the report which they read. An unsatisfactory symptom of the Emperor's condition is his recurring indifference to what is going on around him, and to his own state of health, which his physicians declare is only

slightly improved to-day. Heir to the Throne. Berlin, Oct. 12.-The prevailing offi cial opinion here is that should Emperor Francis Joseph, of Austria, die in the near future the transfer of the crown to the Archduke Francis Fer and would take place without a shock to the dual monarchy, or without an controversy of moment arising between Hungary and the new sovereign.

Archduke Francis Ferdinand has shown himself in a favorable light during the last two or three years. Dur-ing recent months he has demon-strated that he is capable of dealing with public business. The policy of the Emperor in preparation for the cession has been to push the Arch-duke forward, and take no decision of importance without the latter knowing all about the subject. This is especially true of Hungarian questions and the Hungarian leaders have thus been hrought into personal contract with the helr apparent. They found him to be a man with whom it was possible to work, and they have accustomed themselves to the idea that they will

have to get on with an Emperor King.

ANOTHER AMERICA CUE Brooklyn Yacht Club May Offer International Trophy Along Lines Lipton

Suggests.

New York, Oct. 12.-Sir Thos. Lipto: may get a race for his yacht after all. He wishes to race, according to his own declaration, with boats of a normal type. The Brooklyn Yacht Club may give him the opportunity.

The proposal was made to the board of governors of the club by Commodore William C. Towen last night to offer a valuable trophy for international con-
