POULTRY

A MONEY MAKER

FIRST and foremost you must have a properly-ventilated poultry house, and still one that can be kept warm in the winter. Too little attention is given in this particular.

The health of the fowl must also be looked after, and for this purpose a tonic given such as.....

HUME'S POULTRY SPICE.

IT IS A GREAT
EGG PRODUCER.

J. S. TANSLEY, Kilbride P.O., says: I have used **Hume's Poultry Spice** all this winter, and have never before had so many eggs to bring to market. It has kept the hens in good health; no sickness at all amongst them. We have recommended it to a great many.

W. J. WILSON, Clappison's Corners: We used **Hume's Poultry Spice**, and found that it increased the number of eggs obtained. It gave the hens a much healthier and better appearance and a bright red comb. We had sickness amongst them before using **Hume's Poultry Spice**, but none afterwards.

Large Tins 25 Cents,
or Five for \$1.00.

PARKE & PARKE Druggists.
