The Fredericton Boom company have commenced the construction of a new tug for the river service. She is being built at St. Mary's, says the *Herald*, and already the keel has been laid and a portion of the planking put on. The new tug will be sixty feet long and will be ready for launching early in the spring.

R. A. Estey returned Saturday evening from the head of the river, says Monday's *Gleaner*. He reports considerable snow and says the lumbering prospects are excellent. All operators have good crews at work, and it is expected that the total cut on the Upper St. John, the Tobique and the Aroostook will be about the same as last year.

Two weeks from last Saturday the sardine season comes to an end and the season has been one of the best in the past fourteen years for the working people, says the *Frontier News* of Eastport. The packers have had to pay a large figure for their tin, otherwise they would have cleared considerable money.

The death is reported of John Charles Burrell, which occurred this morning at his residence on Prince street, West End. Mr. Burrell was forty-two years of age, and had been for many years band-master of the Carleton Cornet band, which position he has for some time been unable to fill on account of illness. He leaves a wife and two sons.

The canvass for the new Y. M. C. A. building is meeting with good success. It is hoped to commence operations next spring, but before work is begun on building \$50,000 must be secured. In all \$90,000 is needed. Nothing definite has yet been done toward the selection of a site, although several have been spoken of. No action will be taken in this matter until the required amount of money is secured.

A lady who had a ticket for St. John, but wanted to get off at New Brunswick, did not tell the conductor of the Maritime express today that she wanted to get off at the latter place, and, as there were no passengers to get on the train at that station it did not stop. After it had passed the platform the lady jumped off. She fell, of course. The train was stopped and backed up, but she did not appear to be at all seriously hurt. The trainmen were not at all to blame.

A CAT THAT WON'T COME BACK.
 After a fruitless appeal to the mercy of a stony-hearted public, the cat which for two days occupied a position on the pavement at the head of King street, actively giving up its nine lives, became disgusted with the conduct of passers-by and with its last life managed to crawl as far as the old Burying ground. Here in a grassy nook it again lay down, and feeling convinced that even though help was denied it, while living, a decent burial might be granted, it passed away. There are no pussy willows in the burying ground, but the cat does not care. It is still unburied.

ACCEPTS THE OFFER.

The owners of the McLeod wharf, for which property the city has lately been negotiating, today notified the authorities that they would accept the city's offer of \$40,000. The offer is conditional on the reception of the two-thirds vote of the council for the issue of bonds. The matter cannot come up now until the next meeting of the council.

SMALLPOX.

No new cases of smallpox were reported today at the board of health office. All of the patients are said to be doing well. The board will do nothing further in regard to obtaining an emergency hospital until after the meeting of the municipal council today. The matter will come up for discussion there.

Miss Wilson's department in the high school, of which Miss Lord was a pupil, was thoroughly disinfected last night, and will probably re-open in a few days.

There are now fifteen houses under quarantine, and twenty-two outside patients under Dr. Morris's care. Mrs. Alward, at Haymarket square, and Herbert Long, at the lower end of Waterloo street, are the most seriously ill. Young McNamara, on the barge, is also seriously affected.

There are twenty-four cases in the epidemic hospital, some very serious. Dr. Bayard states that no beds are being reserved in the epidemic hospital, which, as a matter of fact, is already over-crowded. Under recognized hygienic rules it should only have ten patients in the space where there are twenty-four.

Mrs. R. J. Wilkins is now quite recovered. It is possible that after patients leave the epidemic hospital they may be detained elsewhere for a short period, as a general measure. Wednesday or Thursday. All the patients have fully recovered.

LETTERS FROM THE PEOPLE.

DRY DOCK AND OTHER MATTERS.

To the Editor of the Star:

Sir,—Can any tax payer see the utility of the suggestion acted upon by our city council, that a committee from that body go on a pleasure trip, hunting for dry docks. What does any member of our city council know about the construction of a dry dock? Could they discern the difference between a dry or wet dock, or a floating dock from a dredge, scow, or coal barge? If the provincial government thinks it necessary to have a report brought before our citizens as to the best practical kind to build, let them pay for it. Then they will appoint practical men such as Engineers Pettit and Cushing with G. R. Mayes and those men will do just what the United States government did when they wished a practical dock to repair their warships a short time ago—they would go further than Halifax and inspect that dock. If the provincial government wishes to do some good they had better suggest that the three doctors now in the council form themselves into a committee and take the present board of health to Fall Island, make a study of the situation in all its bearings. Then in their absence possibly the board of trade and the municipal council would have installed a new board of health, who would go to work to do something practical, by buying the "Red Castle" and establishing an epidemic hospital, thereby quieting the present unrest in our community.

The other day our civic board had to be pushed to wake up our two Ottawa representatives with a live wire to the fact that Canadian horses were actually to be exported to our imperial forces through a foreign port. They then saw the ridiculous situation and had it rectified so that now the horses are to go through via "Canada's winter port" where all exports and imports should go and come for Canada, Alaska, Japan and China. An alarm clock is sufficient to wake some men, but it will take a thunderbolt to arouse our fossil ancient governed city to its actual needs and necessities. Yours, always for progress, D. M. KING.

POLICE COURT.

John O'Leary was arrested for being drunk and fighting on Smythe street last evening. He came out second best in the fight, and in addition was fined eight dollars or thirty days.

Lemuel Rose has a thirst out of proportion to his years, and last night it showed evidence of being highly nurtured. Lem quietly settled down on Main street, but rose with the assistance of Officers Semple and Burchill. He was fined four dollars.

Another drunk who was badly bruised about the head was remanded pending examination by a doctor.

James Docherty, arrested for using profane and threatening language to his wife, was let go, the complainant not appearing.

James Burns, who was remanded some days ago on the charge of assaulting Cassie Cain, was brought in. He described his manner of living, told how he pays rent for one room which he and his wife consider is two rooms, only the partition is not built. It would make a mess of his residence to divide the room in any but a horizontal manner for there is scarcely space enough now for a bed and stove. Jimmy has no further use for Cassie. He "won't have nothing more to do with her now," and as for the tender feeling in his heart, it is all gone. At least he says so. Upon making a promise to avoid Cassie in the future, whether she calls herself Cain or Gallagher, Jimmy was discharged, and with an elaborate bow to the magistrate backed out of court.

Frank Martin, the man who was determined to find a resting place in the jail, and who, in order to do so, stole a coat from Emanuel Robbins, appears to have changed his mind and wanted to be let go. Frank has an impediment to his speech which enabled the court to take up other matters while he was struggling with a word. After some time it was learned that Frank was without money, but was quite willing to walk. He would set out at once.

"Where will you go today?"

"To Ha-ha-ha"—court took recess—"mpton."

Frank managed at length to state that he could walk to Hampton. It took five hours and he having had his breakfast would start at once. The magistrate thought that as walking appears to be a favorite amusement in these days, Frank might write to St. John the time of his arrival in Hampton in order that a record might be established.

EQUITY COURT.

The regular monthly sitting of the Equity Court was held today. In the Bank of Montreal v. Maritime Sulphite and Fibre Company, motion of H. F. Puddington, ordered that the plaintiffs have leave to amend the bill in this suit by adding the maritime liquidators as party defendants, also leave to amend bill of complaint as counsel might advise, and further the liquidators may set up such defence as they may be advised.

Perry v. Hanson, to stand until Friday to fix date. Simpson v. Johnson, set for Tuesday, the 26th. Fairweather v. Lloyd and Robertson, set for next court. A. H. Haslam, K. C., for Robertson; A. O. Earl, K. C., for Lloyd; C. J. Coster, K. C., for Fairweather. Travers v. Sweeney, on motion of A. I. Trueman, K. C., for the attorney-general, stands. Thompson v. Thompson, set for December court.

In the estate of the late John W. Nicholson v. Geo. W. Waterbury, E. J. Rising and Fred W. Gibbon, the bill was taken pro confesso, the amount, \$2,338.42. Ordered that lots be sold separately, costs to be taken out of the amount or all the funds. Each mortgage to be against each piece of property. Trustees leave to bid on behalf of the estate. J. D. Hazen, K. C., for the plaintiff.

We have sold more than double the COATS and CAPES that we did last year up to this time.

There is a reason for this. The styles we have are exclusive, that is to say, you are not likely to find the duplicates of the garments shown in this store in any other place.

Then again the price has something to do with it. Our customers have told us, after looking around that these \$10 and \$10.50 three quarter automobile coats of ours are equal to anything they have seen in any other store at \$12 and \$13.

These coats are made from all wool frieze, well lined, have the new style pockets, new cuff on sleeve, velvet collar and are perfect fitting. We also have the shorter length coats and just at the present moment, we are having a special sale of a number of black coats. Prices range from \$4 to \$5. They were all the way from \$6 to \$8. Some of them are silk lined.

ST. JOHN MAN INJURED.

A man giving his name as Jack Martin from St. John, met with a bad accident Friday afternoon at the International Steamship Co's wharf, Eastport, says the *News*. Martin was a passenger on the State of Maine for Boston, and when the boat made her landing here, went ashore. On returning to the boat he attempted to jump aboard, but missed the rail which he attempted to grasp, and fell some ten feet, striking upon the railing of the lower deck, resulting in a bad scalp wound and other injuries. The man

was taken to the hotel and a doctor called who dressed the wounds, which are of such a character that Mr. Martin will be compelled to remain in town a few days before going west.

TORONTO, Nov. 13.—Mayor Morris of Ottawa was here today looking for pardon. The lieutenant governor in council will be asked to remove the disability under which he now labors and will continue to do for two years to come unless the government relieves him. There is no precedent for this.

QUEBEC, Nov. 13.—Gaspard Roquette, boot and shoe manufacturer, assigned today with assets estimated at \$150,000 and liabilities at \$125,000.
