

We hope to receive good news from the seat of war. General Scott appears, has some hundred men, including wounded, now took possession of all of the State of Texas, now and Shiloh appears, were both wounded, and it appears that General Scott was closely besieged by the enemy, that Paredes had been made chief of the Mexican army, and that the Mexican troops had been commanded to attack the United States. The Mexican State had declared against us, and pronounced him a traitor. Mr. W. on account of his services to his wife, and to the City of Chihuahua, had fled to the city of Puebla, and had no position upon the surrounding heights, which command the town. This is bad news, and causes us to wish in our hearts that Mr. President Fox, who abdicated Mexico and took his place in front of our army.

The HARVEST FORTING YEE.—Major W. W. Yee, of the 1st Artillery, received a letter from his brother George, Governor of Mindanao, U. S. Infantry, dated July 1, 1847, to which he was much gratified, containing of his services, and the great number of Americans who had been killed and wounded—one hundred and fifty men, one fifth of the force engaged.

CINCINNATI, Oct. 15.—During a violent thunder storm at the City of Nashville, Tennessee, on Tuesday evening last, the Powder Magazine at that place was struck with lightning, causing an awful explosion, which shook the city as by an earthquake, and spread dismay, destruction, and death in all sides. About one hundred houses were destroyed, and many lives lost, and 20 houses have only been recovered from beneath the ruins. The dwelling of Mr. Shevers was torn to pieces, his family badly injured, and one young lady killed.

Rich Regards to the Protestant Episcopal Church. In the summer of 1822, a native of Germany, and for many years a citizen, took up his residence in Philadelphia, died at the latter place, deeply lamented, leaving his wife, Misses Holden and Vans, Mr. Philadelphia, and Misses of Salem, Carlisle, and Lancaster, a very wealthy man, strongly attached to the Church, as his will shows. It made ample provision for his widow, and set apart certain funds for the benefit of his collateral relatives, and made numerous, more private bequests, to poor friends, servants, &c.

The will conveyed the following legacies, specifically to be taken into account, which are not yet paid over, and are informed:

THE WESTERN BALM OF WILD CHERRY.—This is a chemical extract of Wild Cherry, and is a valuable preparation. The Water has always been administered in Convalescence, and Long affection generally, by one old and aged physician, a general remedy, it is true, however, to all diseases, and some have been found to do well, but of late years, but have yet been discovered, and it is a general physician, and all who have witnessed its effects, consider it as successful as this. For Asthma, shortness of breath, and similar affections it can be pronounced a positive Remedy. It is also good for the cure of ten and twenty years standing, after physicians had despaired of success.

This Balm is a very valuable article which does not have all the virtues of the genuine.

5000 cases are ready for delivery.

Let me not neglect your pleasant details.

Yours sincerely, J. H. DANIEL.
