## Pitchers Who Fall Down On Footwork

DR. RICHARDSON'S TWO DELIVERIES.

(By Tip Wright.)

I wonder how many dyed-in-the-wool baseball fans realize the value to a pitcher of footwork in baseball? Not many, I warrant, and for that matter, not many pitchers pay any attention to it.

I don't suppose half a dozen of the pitchers in the business—men who use their brains as well as physical ability—pay any attention to clever footwork.

And yet, one of the best pitchers that ever curved a ball over a plate—the man who pitched the first nine innings of the no-hit game—Dr. Richardson, of the Worcester team, was a student of footwork. He used his feet as scientifically as his hands, in fooling the batter.

I wonder why pitchers don't pay attention to the way they handle their feet? Richardson used to pitch his fast ball off the ends of his first two fingers with a side arm motion at the end of a full stride toward the batter. The ball had plenty of steam and a sharp jump that made it hard to hit safe.

That he was a close student who appreciated the value of change of pace without obvious change of delivery was evident, for he had a slow ball which he delivered with the same motion, save, instead of a full stride, he stepped only half the distance and let go of the ball.

The abrupt halt as the ball left his hand caused the sphere to do the most remarkable things imaginable. It would duck, dive and bob up again, like a cork in water across which the wind blows ripples.

No one, least of all the batter, could tell whether the ball would bob up or drop a few inches, as it approached lively to catch, as the spit ball is.

I have watched pitchers for years, and I have yet to see one use the short step which made Richardson famous. Every one has a hole a good long stride away, into which his foot sinks as he delivers the ball to the batter. He'd as soon think of placing his foot somewhere else as he would of passing up a chance to buy a diamond at a bargain. And if you don't know how remote that is, ask a player.

The nearest approach to Richardson's delivery, and it is not close enough to resemble it, was the side-step used by pitchers a few years ago, when the crossfire was popularly believed to be the most effective of all deliveries. But this step to the right or left was not a step at all, it was a half step, and it placed Richardson in the gallery of baseball immortals.

## SATURDAY'S RESULTS AT THE Y.M.C.A.

Harvard took three points from Yale Saturday at bowling, in the Y. M. C. A. game league for the boys of Class A. The first two strings were very close but in the third the Harvard team obtained a sufficient number of pins to give them the grand total.

	Harvard.	Yale.
Sinclair	67 73 84 224-742.3	
Montgomery	71 76 78 225-75	
Heans	68 72 75 215-712.3	
Jones	76 62 77 215-712.3	
	67 62 75 204-68	
	349 245 389 1083	

	Harvard.	Yale.
Malcolm	69 68 80 217-721.3	
Millidge	79 66 78 223-741.3	
Morrison	68 71 75 212-702.3	
Creighton	71 68 71 210 70	
Woods	62 74 78 209-692.3	
	347 347 377 1071	

The standing at the present time in the three boys' leagues at the gym follows:

	Class A.	Won	Lost
Oxford	.....	9.5	4.5
Yale	.....	6.5	3.5
Harvard	.....	7	6
Varsity	.....	4	8
McGill	.....	4.5	9.5
	Class B.	Won	Lost
Romans	.....	8	4
Athenians	.....	4	6
Spartans	.....	4	6
Persians	.....	4	6
Egyptians	.....	4	8
	Class C.	Won	Lost
Elks	.....	12	4
Caribou	.....	6	6
Raindeer	.....	4	6
Mooses	.....	2	6
Buffalo	.....	2	6

## INTEREST IS ROWING IN LA TOUR MEET

Mon. La Tour ice meet this evening at the City Skating Rink. Grand interest is being exhibited in the event. For 200 entries have been received. All the fast ones are entered, and keen rivalry exists between the teams. Some fast work is anticipated.

## THISTLES ARE THE WINNERS

Defeat St. Andrews Curlers in Third and Last Match of Series—Interest Keen in Struggle.

St. Andrew's got theirs from the Thistles in the final match in the curling series on Saturday, the thorns winning out with a lead of 14 points. St. Andrew's started out with much promise and gained a big lead in the afternoon match within the enemy's strong hold, but were outclassed at almost every stage on their own ice.

Keen interest was displayed by all the contestants as each team had a win to its credit, and although the ice could have been in better condition some class work was shown.

That the teams are fairly evenly matched can be gleaned from the following scores which were made in the series of three games:

	Thistles St. Andrew's
Sat., Jan. 17	237 216
Sat., Feb. 5	290 223
Sat., Feb. 12	250 236

687 566

As in the last match some of the best known skips had large scores rolled up against them.

The rink skipped by P. A. Clark had the score against them doubled by Geo. S. Bishop and P. S. White had 27 to his opponent's, Frank Watson's, 17.

The teams and scores were:

Thistle Ice—Afternoon.
