

ELECTION OF OPPOSITION FOUR SURE

St. John City Gives Messrs. Potts, Tilley, Campbell and Lewis Rousing Reception.

(Continued from page 1)
Dr. J. Roy Campbell said that in company with his colleagues he had visited many of the factories and foundries of this city during the past week. This personal contact with a great body of the workers was inspiring and educational and the promise of support received was most encouraging. The ladies are working hard also and their organization is moving smoothly. The candidates and the workers, however, had been nearly heartbroken by the fact that somebody had "collared" the hats which were for the use of all parties. It was a disgraceful act on the part of this "upright, honorable business man's Government." There were tales of scandal told by their opponents but there is little said about the Currie incident, of how Mr. Currie, Speaker of the House, stood by while \$4,000 was taken from the public treasury. He did not think that an intelligent electorate would fix its approval to a Government that had collected \$118,000 under the guise of the Patriotic Fund; to a Government that had done so little for the returned soldier, not even designing to erect some form of a suitable memorial to the brave boys who had given up their lives for this province.

Not Much Business
"They have advertised themselves as a business Government yet they have mortgaged this province to the extent of over \$2,000,000 to provide roads. They have not given the people the class of roads that they should have received for this amount of money. The road question is being handled. By the Succession Duty Act they have taken money from the widow and her children. Is this of far-reaching benefit?"
"They took credit for the Workmen's Compensation Act. This Act had been worked out by a non-political commission. They have not mentioned the fact, however, that \$30,000 passed through the hands of the Board last year and \$33,000 of this was paid out in operating it."

No Immigration Policy
Not one branch of their agricultural policy had been inaugurated by themselves. The speaker criticised the Government's lack of an immigration policy. New Brunswick was the only province that had failed to take hold of this vital subject. The only immigration carried on under Government auspices was that of Foster from St. John to Victoria in 1917 and Foster from Victoria to St. John in 1920. Perhaps the next will be Foster to Madawaska. Mr. Campbell concluded with a denunciation of the policy of the Foster Government in regard to the amusement tax and the collection of fines under prohibition.

Mr. L. P. D. Tilley
L. P. D. Tilley, in a fighting speech showed the mockery of the claim of the Foster Government that it is a business administration. His reference to the policy of the Government regarding the liquor traffic was loudly applauded by the audience. Mr. Tilley said that in the days of license the city received one half of the fines collected and these helped to defray the up-keep of the police court and the police department. Now all fines are "gobbled up" by the Government.
When the Baxter Government comes into power after October 9 it will see to it that all revenue from this source will go where it belongs. He had no hesitation in saying that

the Foster Government was down and out. The first reason for this may be seen in the retirement of Hon. E. A. Smith, former Minister of Lands and Mines, who resigned because he wished to make the lumbermen pay damage that was commensurate with the value of the product, but which his colleagues refused to do. Two other former ministers, Messrs. Dugal and Ewenney are out and will not return. Mr. Legere, another member of the Government from Westmorland has retired. Why?
There is a hospital in this city. As soon as Mr. Foster came into power he was asked to make an amendment so that women could be added to the Board. He said he would give the matter his consideration. He has been maturing it for three and a half years, but any further maturing that he will do will be done as a private citizen.

The Road Case
"The Foster Government is said to be a business one but the bonding of the province to the extent of \$2,000,000 to dump gravel and mud on the roads and then call them permanent, is not in keeping with the views of sound business. These bonds were moreover made payable in New York Bonds with a consequent loss of \$12,000 to the province. Hon. Mr. Tweeddale Minister of Agriculture is said to have done considerable for the farmer. One of the acts he takes great credit for is buying of a line kila to provide lime for the farmer. This kila cost the Government \$773 an acre while a private concern in this city bought a kila situated in the same locality for \$43 an acre and they are supplying lime 50 per cent better in quality than the Government-owned product."

Mr. Tilley was unsparring in his criticism of the present administration in its method of enforcement of the prohibition law and gave as his pledge that when the Opposition is returned to power after polling day that it would see that equal treatment is given to all men, no matter what their station in life. The Opposition would not ride two horses as the present Government is doing.

Frank L. Potts
Frank L. Potts the last speaker said that the Government claims to have put this province on a sound financial footing. This has been done, however by buying British Government bonds at a time when the Mother Country was in the throes of a mighty struggle it was taken advantage of by the only Premier of all the provinces who "sat on the fence" during the war. Mr. Foster had been interested in a railroad which he afterwards sold to the Government for six times more than it was worth. He has said recently that he has been interested in water power in Masquash for twenty years. If the railway netted him so much what can one expect that this water power project will cost the people of this province.

The speaker referred to the operation of the prohibition law as now enforced by the Government. The Foster Government had been guilty of double dealing in this respect and they would continue unless defeated in this policy. The speaker was merciless in his criticism of Dr. Roberts who, he said, had deserted his trust on account of his supposed leanings he had been included on the ticket at the last election as a vote catcher for the temperance people and when the great moment came, when he was called upon to hold high the standard of temperance he was found wanting. The Health Minister promises at tea parties "and tells his hearers how to take care of the babies while at the same time we have in the city of St. John the most impure milk of any city in the Dominion. He had issued a challenge to the Minister of Health and this had been disregarded but he would issue another challenge and this time it would be Premier Foster. Mr. Potts concluded with warm tributes to his colleagues and assured the audience that personally he was going to sell out at public auction the whole Government ticket on polling day.

IN THE EDITOR'S MAIL

THE POLITICAL SITUATION

Dear Sir:
I am a woman, therefore a new voter, and I have been diligently reading the different papers of late to enable me to vote in the right way for the right man.
In preparing meals for our household we find that too much of sweets is apt to have a bad effect on one's digestive organs; now I am sure any reasonable, thinking person residing in the St. John Telegraph of all the immaculate purity and perfection of the Foster Government must suffer, as I do, with a severe attack of mental indigestion. And the Opposition, dear me! What terrible characters they are (according to the Telegraph) How in the world have they managed to keep out of jail? or is it a case of the Golden Rule? "Do unto them as we would have them do unto us," when they had us out. The Foster Government has spent a good deal of money in holding enquiries about the faults and failings of the Conservative Government and what has come of it? Do they think that people get sick and tired of the same old charges of Valley Railways and Patriotic potatoes? Why don't they give us a change and tell of Mr. Currie's deal in stampago? By the way, has the Hon. gentleman paid up yet?
"The Foster Government gave the women the vote" they proudly assert. Why make a virtue of necessity? I think the most strenuous opposition to the franchise for women came from the members of the Government.
How does Hon. Mr. Foster stand on the prohibition question? I notice some clergymen interviewed him on that question and he seemed very much afraid to commit himself. I do not he seemed to be in the same position on that question as he was on the Conscription, neither for it nor

'Vote the Government Tickets
In Saturday's Election

How to Vote
There is no official ballot in this election. Take the ballot bearing the names of the Government candidates to the polling place on election day; the returning officer will give you an envelope fitted for the purpose. Go behind the screen provided for the purpose, fold your ballot and put it in the envelope. Do not seal. Return the envelope to the returning officer and voting is completed.
DO NOT MARK THE BALLOT IN ANY WAY
In the event of your going to the polling place without a printed ballot the returning officer will hand you only a blank piece of white paper. You will then be obliged to write thereon the names of the candidates for whom you wish to vote. If you do this you must use only black ink or black pencil.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN
Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nine years and now made in Canada. Always buy an unbroken package of "Bayer Tablets of Aspirin" which cost but a few cents. Larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer". Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocacetic Acid of Salicylic Acid. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitation, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".
