

PADRE CLAYTON ESTABLISHED TOC H. GROUPS

Organized Five in Canada and Three in United States.

Ottawa, Ont., April 17.—(By Canadian Press.)—Rev. P. B. Clayton has returned to England, but his work among Canadian returned soldiers in connection with the "ToC H" movement will be a standing remembrance of the padre's visit to the Dominion.

Padre Clayton has also witnessed the organization of ToC H groups in New York and Philadelphia, in addition to the five already organized in Canada.

"Men like Quentin Roosevelt and Alan Sanger, the idols of American boyhood, were to American members what Albert Tubert was to England, or young Drummond to Montreal," is one description of the movement.

The idea is plainly capable of adoption in a free and open country, and has already behind it the cordial support of a few who are well capable of transforming theory into practice. A branch of ToC H is, in its simplest terms, just a bunch of sound fellows who meet at regular intervals for a simple meal. They must be at unity among themselves. They are chosen not to try and grow fat, but to be careful that they do not grow lopsided. The meal ended, they stand for a full minute in silence, and think of their best friend over there, or someone they have heard of. Then they settle down to business. "Such as we have," are there to give; it must seldom be money, which would not be an strain upon us. We are there to give as each can, his measure of personal service.

However numerous as are societies in Canada, there is not one other which aims at transmitting to the younger world the spiritual and social significance of the great tragedy to which Canada made so notable a contribution in heroism and sacrifice. ToC H is not an organization, but an organism. It is founded by returned men, but not for returned men. Tubert House in the Ypres Salient was known to thousands of Canadians, and dearly loved by many. It is not merely another English thing seeking to found branches in Canada. It is a method of introduction to a wider circle of men, arrived at by picking a branch of the best all round, and establishing an atmosphere of mutual confidence among them just at the stage (ages 17 to 35) when class prejudice, distrust and cynicism are most easily acquired. It aims at teaching its members, and others through them, to respect all powers of usefulness, service, and to add to their virtue, knowledge.

Major Frank Edwards, of Victoria, B. C., late of the second C. M. R's, who lost both his arms in action, is organization secretary for ToC H in Canada, a position similar to that which the Padre holds in England, the "indispensable" of the district. Padre Clayton, founder of the first Tubert House in England, and founder of the post-war ToC H. During his rapid tour of Canada the Padre found such a keen challenge for the establishment of analogous to the Old Country ToC H, that without any pressure on his part, ToC H in Canada sprang into being.

"ToC H is definitely launched in Canada," said Padre P. B. Clayton, M. C. of Tubert House, London, is on his way home. The Padre came to Canada 2 1/2 months ago because his health had broken down and he was advised to travel. The work which he had been doing in the Old Country challenged him there, and much to his surprise he now finds the beginnings of ToC H clear across Canada, and a Dominion executive appointed at Toronto this week, already functioning.

"ToC H," said Padre Clayton, "is never intended to be a national association for all comers, but just to be a group of civilian stretch-bearers. The 'Big Three' of the Dominion executive pro tem are: Dr. Phillips (late Col. C. A. M. C.), chairman; Gerald Larkin, son of Hon. P. C. Larkin, Canadian High Commissioner, treasurer; Major Jim MacDonald, president of the Canadian Clubs in Canada, secretary.

NIGHT COUGHS

Trouble working on the system is the cough that comes at night and prevents sleep. The constant coughing keeps the lungs and bronchial tubes in such an irritated and inflamed condition that they get no chance to heal.

You will find in DR. WOOD'S HAWK SYRUP a remedy without an equal for soothing the lungs, loosening the phlegm, strengthening the breathing organs and curtailing them against serious pulmonary disease.

Miss John McKeown, Lower Macaulay, P. E. I., writes:—"About three years ago I caught a very bad cold accompanied with a sore throat and hoarseness, and was so hoarse you could hardly hear me speak. I could get no rest at night with the terrible annoying, hacking cough. I tried several remedies, but they did me no good. Finally I saw Dr. Wood's Hawk Syrup advertised; got a bottle, and at once it gave me relief, and after using four more bottles I was cured. Now I sleep long 'The Wood' in the house, and shall recommend your wonderful remedy to all."

Price 50c, and 60c, a bottle at all drug stores. Put up by The Dr. Wood's Hawk Syrup Co., Limited, Toronto, Ont.

Sage And Sulphur Darkens Gray Hair

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost every one knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago, the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyneth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, glossy and attractive.

COST OF LIVING DECLINES BUT NOT NEAR PRE-WAR MARK

March Average 24.6 Per Cent. Below Peak of July, 1920, But 54.7 Above Low Level.

New York, April 17.—The cost of living in the United States has been reduced 24.6 per cent since the peak of July, 1920, according to a survey of conditions made public here by the National Industrial Conference Board. The March figures, however, are 54.1 per cent higher than for the same month in 1914.

"The prediction made in some quarters some months ago that the cost of living was destined to rise again in the near future has not been borne out," said the report of the board.

The figures on which the board's estimate was based were obtained from practically every city in the country having a population of 50,000 or more from many smaller places. These data were supplied by dealers in the commodities entering into the cost of living, from real estate brokers, from brokers and from others able to speak authoritatively regarding such items as rent, carfare, coal, light, clothing, etc.

"The most important change noted in major items was the decrease in rents, which the survey shows had declined an average of 2.6 per cent the country over since November, 1921.

Orders "Dry" Army To Canadian Front

Commissioner Haynes Authorizes Recruiting of 100 "Vets" to War on Smugglers.

Washington, April 17.—Full authority to employ "armed force" on the Canadian border to stop run runners was given by Prohibition Commissioner Haynes last night in instructions to Ralph A. Day, prohibition director at New York.

Mr. Day was authorized to recruit 100 former service men to wage a campaign with machine guns along the border between New York state and Canada. He was directed to concentrate his forces in such numbers as the situation may demand, to blockade all smuggling routes.

Mr. Haynes said that he did not contemplate any international complications as a result of the maneuvers of armed companies of dry agents and would rely upon Mr. Day, in cooperation with Adj. Gen. J. Leslie Kincaid of New York, to exercise discretion and good judgment.

Representative Gurnea (Mass.) kept the house in an uproar of laughter yesterday in a speech ridiculing the "prohibition navy." He chided his colleagues for sitting around complacently, ready to "seize" part of the United States navy and at the same time leave the way open for the building of another naval force to make war on rum runners and smugglers.

Canada's Rum "Armada" "The rum running navy bids fair to take the place of the United States navy because you will not dare refuse its requests for more millions when ever asked," he said. "The traditions of the future will be about gallantry of Admiral Haynes leading himself to the sea and giving the command to go ahead and damn the rum runners and their explosive beverages."

The rum running navy has already been into New York, and it is reported that it will proceed to the St. Lawrence and the great lakes to give battle to the rum runners from Canada whose armada is daily crossing the border waters and landing.

The rum running navy was ready to seize the old navy of Jack Barry, John Paul Jones, Farragut and George Dewey, will scrap the Rush-Bagot treaty of 1812 and transfer the naval operations from the Atlantic and Pacific oceans to the great lakes and the St. Lawrence river.

Foresees Real Fighting "How long will it be before the old United States navy manned by red-blooded boys will have to be rebuilt and ordered to the great lakes to indulge in real fighting with Great Britain, because of the violation of the old Rush-Bagot treaty by Admiral Haynes and his rum running, mischief making navy?"

"I do not want our schoolboys to be deprived of the inspiration to patriotic duty and overhauling service to their flag by sneaking away from them in this hour the stories of heroism and sacrifice and achievement linked with the names of Jack Barry and John Paul Jones, and modest but immortal Admiral George Dewey."

VERY VERSATILE GENTLEMAN THIS

Copenhagen, April 17.—John Dwyer, Prince, America's new Minister to Denmark, has made a hit with the Danish people by his versatility. Soon after his arrival here the Copenhagen newspaper men swooped down on him for an interview, having previously brushed up on their English, but Dr. Prince took them off their feet by speaking fluent Danish. Before the interview was over they learned that the new minister, formerly a professor at Columbia University, had some 20 languages at his tongue's end.

Soon afterward Dr. Prince delivered a lecture on Oriental music, and here again his versatility found even wider scope. He illustrated these ancient musical technicalities by playing various oriental instruments with ease.

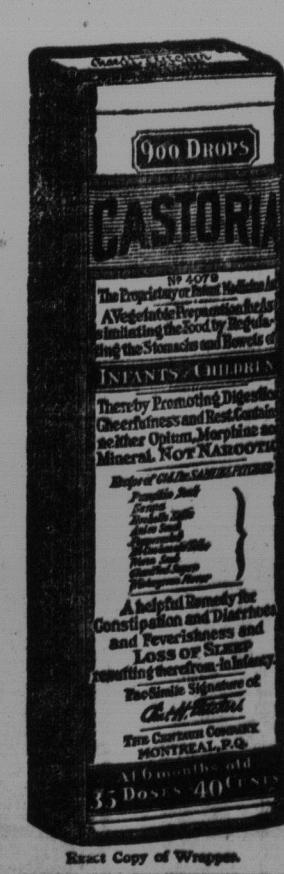

Some More Truths.

WOULD you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.

Would you use a grown-up's remedy for your baby's ills? Certainly not. Remedies are prepared according to the work THEY have to do.

All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little babe.

All the mother-love that lies within your heart cries out to you: Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, toothbrush or sponge.
