Instructed by Holy Writ and inspired by such an illustrious example, it is your sacred duty to display your banner, because of the truth. Banners are not made to hang lazily around their flag staffs. They are for the breeze, the sun, the battle.

The cause of justice and freedom depended upon the triumph of David's anny, and who shall relate what was accomplished by the victory. Today you are called upon to display your banner. Fortunately our lot has been cast in kindher and more enlightened times than were the days of King David or King William. The conditions which obtained in their time have largely been superceded by happaier circumstances.

gave us the golden rule and gave it a new interpretation. Orangemen were expected to practice that rule. The speaker bloped that God would bloss his hearers and impute them with the spirit of Paul, that they might be watchtowers of freedom in the cause of liberty and religion. While the offering was being taken, Miss Jennie Sinclair sang a sacred solo. The hymns sung were: "Onward Christian Sokthers," "Brightly Gleams Our Banner," and "God of Bethel," and "God Save the King."

At the conclusion of the service the Fairville Orangemen, with the band, escorted the visiting brethren back as far as Tilton's corner. The streets were lined with people.

Ottawa, July 10—(Special)—Before going into supply in the house today, E. F. Clarke, Toronto, called the attention of the government to a statement on the Barr colony. The statement was made in the Northwest House by Premier Haultain. In a debate then he told the house rection with the establishment of the colony, and gross mismanagement, or some
thing worse, in connection with the analcial arrangements, it should make a
thorough investigation into the matter
Mr. Clark said the immigrants who came
out with Rev. Mr. Barr were of the bestos-fible class. They were the sort o
men Camada had the greatest need of men Canada had the greatest need of.

The minister of the interior, Hon. Mr. Sifton, said the statement of Hon. Mr. Haultain had not been brought to his notice before. Rev. Mr. Barr had some time ago informed the department of his intention of inducing immigration to Canada. He had represented there would be difficulty in carrying out his schemes unless land was reserved for homestead entiries by the people he proposed to bring out. Reservations of this sort had been made for other people and not found unsatisfactory. Rev. Mr. Barr's request was therefore granted. The results were such however, that at would probably not by done again.

rom this interviewer Mr. Borden said he had decided that Mr. Barr's relation with the government were not as simple as the minister of the interior intimated as the minister of the intenior intimated, Mr. Borden said he regretted the government had not made a more thorough examination into the ability and character of Mr. Barr before entering into a bar-

opposition than with the letter written home by the immigrants. Any suspicion that something was being made out of the colonists was the hardest to combat. The colonists had not suffered any hardship. There had never been a body of immigrants which had received such attention as these had. They were looked after from the time they left England. They had been located upon lands in the Northhad been located upon lands in the North west and had there entries made for them There had been farming instructors sent among them to direct them in planting

their crops.

He again repeated his statement that there had been no financial bargain with Mr. Barr. He regretted as keenly as any one else that there had been financial troubles in the colony. However, not one of the colonists had returned. They had all settled on land in the Northwest. There had been 1,823 homestead entries made by them and Canada had gained a large number of very fine settlers.

Dr. Sproule characterized the Barr colonists as being picked up in the slums of

taken up with an animated discussion of Judge Hanington's resolution relative to King's College, Windsor, which was supported by Dean Partridge, Revs. H. Montgomery, A. W. Smithers and A. B. Murray. In the course of the debate the resolution was sharply criticised by Revs. C. D. Schofield, C. P. Hanington, G. F. Scovil and W. Jarris.

Canon of St. Peters Dead and Neglected. Rome, July 10.—The extraordinary con-

usion prevailing at the Vatican outside room is demonstrated by the remarkable neglect to make even the ordinary preparations for the interment of Monsignor Volpini, the secretary of the consistory, and canon of St. Peter's, who died suddenly yesterday of syncope. Usually the funeral of so high an ecclesiast would have there an important one in Rome, but to-day it was completely forgotten in the shadow of the greater impending loss to

been permitted to lie almost in the condi-tion in which he died. The remains were not laid out in the customary manner. Only two lighted candles were provided and they were permitted to burn to the sockets and had almost expired when a moble Roman lady came this morning to view the body. She raised an indignant outery at such a state of affairs. Hasty outery at such a state of affairs. Hasty arrangements were made for interment. At 5 o'clock the body was brought down from Mgr. Volpini's room, situated immediately above the Pope's apartments, and placed in a communal hearse of the fourth class, drawn by two horses, such as is usually employed for small tradesmen and comparatively poor persons. A few choir boys, monks and priests headed the procession to the church of Santa Maria, where the final rites were celebrated. There was an entire absence of ecclesiasblood or weak nerves. Among such troubles may be classed anaemia, headache, neuralgia, erysipe'as, rheumatism, heart ailments that render miscruble the lives of so many women.
