Definition.

What is Chiropractic? Chiropractic (Ki-ro-prak-tic) is a word coined from two Greek words: Chiro and Praxi (in combination) Chiro-practic which means hand doing or hand practice. One who adjusts by hand any subluxated articulations of the human skeleton frame, especially the 32 bones of the spinal column for the purpose of restoring the normal flow of currents through nerves that were formerly hindered by impingement caused by the subluxation of the bones.

All movements whether normal or abnormal, or of in the body are but the personifications of mental equivalents—mental functions, guided by Innate Intelligence, creating physical expression.

Diseases are caused by a lack of current of Innate Mental impulses. This is produced by a constricting force placed around nerves by vertebral displacements brought about by muscular contraction or concussion of forces.

Health is restored by completing the mental and physical circuit, the method of which is unique and original and does not in any way inconvenience or prohibit the patient from the ordinary duties of life.

A New Science—The Curative Powers Are Within the Body Itself.

The Chiropractic method is a new science of adjusting the cause of disease without drugs, based on a correct knowledge of anatomy, and especially the nervous system. With this knowledge of the cause of disease and our unique method of adjusting the cause, we have learned beyond question, that the curative powers are within the body itself, and that the cure of disease depends wholly upon the body—upon the Chiropractic method of bringing the functional organism into harmony allowing the Innate mental impulses to flow unobstructed to all parts of the body.

Chiropractic Not Osteopathy.

One of the most frequent questions that a Chiropractor is called upon to answer is this: "What is the difference between Chiropractic and Osteopathy?" The difference is as great as the distance between the poles. Chiropractic does not treat effects. Chiropractors do not manipulate the muscles in any way. They adjust subluxated vertebrae into proper alignment, and it takes but a fraction of a second to do it. The whole object is accomplished when the nerve force is turned on. The Osteopath will spend one half hour to two hours in treating their patients, and then only relaxing the muscles. There is as much difference between Osteopathy and Chiropractic as there is between Chiropractic and the practice of medicine. The Chiropractor confines his work to the Spinal Column ONLY, as that is the only place the nerve can be impinged or where effects can exist.

Quizzes and Answers for Chiropractors.

Do you use electric belts or batteries? No.

Do you use medicine or drugs? No.

Do you practice surgery? No.

Do you practice obstetrics? No.

Do you rub, slap or use massage? No.

Do you use a stretching machine? No.

Do you hypnotize or mesmerize your subjects? No.

Can you treat me at a distance? We could no more treat you at a distance than your jeweler could fix your watch at the same distance.

Do you have faith? No. We adjust six months old babies.

Is there anything in your science like Christian Science, Faith Cure, Mind Cure, Metaphysics, Suggestive Therapeutics, Mental Science, Osteopathy? No.

Do you cure disease? No. We adjust the cause and nature does the healing. We remove the dams or obstructions that are restricting the life current.

CHIROPRACTIC (Spinal Adjustments).

Remove the Cause of Disease Without Medicine or Knife.

Chiropractor means one who adjusts with the hands. Chiropractic (Spinal Adjustments) is founded on the simple scientific principle that all functions of the body are governed by the nerves; that these nerves all radiate from the spinal column through openings between the vertebrae.

brae. There are 32 pairs of these nerves, 25 pairs of which comes from between the movable vertebrae. Any interference with them by a displacement of the vertebrae causes a diseased condition. Nerves control the skin, muscles, ligaments, mucous membrane and bones, and regulate the amount of blood sent to any part of the body by contracting and relaxing the vascular system. The blood carries the nitrogenous substances which nourishes the body. The impurities are also carried by it to the proper organs for elimination. The movements of any part of the body are controlled by the nerves. There is not an ache or a pain but is the sensation of the nerves. All pain is due to pressure upon the sensory nerves. All morbid action of the body is due to lack of vital force in, or irritation of, the motor nerves. Subluxations of the vertebrae of the spinal column are the causes of 90 per cent of abnormal, deranged or diseased nerves. When a nerve is interfered with in any way, that minute disease begins and sooner or later its effects are noticed where the nerve reaches and ends. Chiropractic is a drugless system and should not be confounded with massage, magnetic or hypnotic treatment, as it bears no resemblance to this. Chiropractic is not Osteopathy, nor reaches many diseases that Osteopathy cannot.

CHIROPRACTIC.

Is Based on These Two Principles:

1. Sub-Luxation (partial displacement) of Bones causes Pressure on Nerves.

2. PRESSURE ON NERVES causes disease.

The cause of disease has been and is yet mysterious to the great mass of humanity, but the mystery has been solved by the Chiropractor (spine adjuster).

My business is to adjust the cause, to RELEASE THE PRESSURE on the nerves and to restore normal action—therefore normal functions and perfect health. I do not rub, massage, knead, manipulate or treat disease.

ADJUST CAUSE. My philosophy of taking off the pressure, has the more rational claim upon all sufferers. I give a logical reason for the cause of disease.

Acute Cases.

Acute cases are often relieved in one or two adjustments. The case of long standing where the vertebrae have their forms changed by long continued pressure and time is required to get them back to normal position and to restore the freedom of nerves. That this can be done has been proven beyond the shadow of a doubt in 90 per cent. of the cases adjusted.

Marvelous results follow our system of Spinal Adjustments, and we stand ready to give you abundant testimony of persons who have been restored to permanent health by our Spinal Adjustments. If you have any of the following ailments stop taking drugs. Go to a competent Chiropractor and have him take off the pressure, and health will be the result: Appendicitis, hysteria, blood diseases, heart troubles, insomnia, Bright's Disease, kidney diseases, childhood fever, lumbago, constipation, Locomotor Ataxia, consumption, (wet stages), liver diseases, bladder trouble, indigestion, bowel trouble, Lung Trouble, Diabetes, Meningitis, Dyspepsia, Nervous Debility, Female Diseases, Pneumonia, Gall Stones, Pleurisy, Grippe, Rheumatism, Sciatica, Spinal Diseases, Stomach Trouble, St. Vitus Dance, Shortness of Breath, Tumors, Shortness of Breathing.

If your ailment is not mentioned, do not become discouraged; my space is limited.

I make it possible for nature to restore health WITHOUT drugs or knife.

This means YOUR DISEASE.

With Interrupted Nerve Force Health Is Impossible.

Without nerve force the blood cannot circulate properly. The lack of circulation means strangulation, and strangulation causes many diseases, such as dropsy, tumors, running sores and various so-called skin diseases.

Chiropractic—Nature's Method.

Frees the circulation, thereby permitting the refuse to be thrown out of the body through the natural channels.

Pressure upon Nerves causes such diseases as Paralysis, Rheumatism,

Neuralgia, Asthma, Female Diseases, and the various Diseases of the Stomach, Liver and Kidneys.

As all the motor and sensory powers are transmitted through nerves, it is plain to be seen that the nerves should be free from all abnormal pressure. Strange, but true, all the nerves of the body may be freed by adjusting the spinal vertebrae with the hands.

Removing the Cause.

Chiropractors have remarkable success in removing the cause of Appendicitis, Deafness, Asthma, Rheumatism, Lumbago, Lame Back, Constipation, Piles, Female Diseases, Stomach and Kidney Trouble, Nervous Prostration and Pneumonia.

NO LOCAL EXAMINATIONS used, as they are unnecessary.

Lady Patients.

In no line of disease do we have better success than in the ailments which afflict womanhood. Benefits are promptly shown without the annoyance which they are subjected to under the drug treatment. The proper nerve supply being restored, the normal functions are quickly re-established.

I All Stirred Up After Taking Spinal Adjustments?

Disease is a perversion of the normal law. To get well requires the time that is necessary to rebuild these abnormal tissues. To accomplish this means that all diseases must be retraced step by step. Sometimes these steps are uncalculated for, but it is all for the best; it is then that you should grip tightly and remain by your chiropractor, and in a few days you will generally see good results.

Motherhood Made Easy.

Motherhood should not be as painful and dangerous as it is, an nature had its own way it would not be so, but it is in a great majority of cases, there are some of the nerves impinged through which nature controls the organs of generation and in this way makes them inactive. This would not be so if all nerves were freed to work in harmony. This has been proved by great many ladies who have taken Chiropractic spinal adjustments.

People Are Sleepless.

When anything new in the light of a radical departure from what people have been educated to believe is brought before them, it is human nature to be skeptical. The man who invented the telephone, the man who discovered the circulation of the blood were at first looked upon as lunatics or fakirs. But nothing can down truth. Many other discoveries which at first met only with scorn, have been recognized as blessings in scores of years.

The science of Chiropractic but a few years ago was unknown. To-day it is known only in communities where it has accomplished seemingly marvelous results in the cure of disease. People must believe in evidence of their senses. If a person comes to a Chiropractor with a disease which doctors have failed to cure, and that person is completely restored to health, he must believe he is not tangled up with long technicalities, he only knows he is cured. The Chiropractor tells him why he is sick, and proves that he is correct by giving the patient adjustments that allow nature to restore him to health.

Chiropractic gives nature a chance to make you well.
