

The College contains spacious and well ventilated class-rooms, with ante-rooms, a Library, a Laboratory, a Lavatory and a Hall, capable of containing 500 persons. A spacious covered Gymnasium, a large paved Ball Court, and extensive cricket and play grounds adjoin the building. The various class-rooms have been refurnished, and the most recent improvements in school furniture have been adopted. A large Lavatory with suitable conveniences for the use of the pupils has been fitted up; and a Laboratory, with all the necessary apparatus, enables the pupils to become *practically* acquainted with Chemistry and the kindred sciences. The large Gymnastic Hall has been equipped with all the modern appliances. A carefully *selected* Library and Reading Room is open to the pupils. The temperature of each class-room is carefully regulated by means of a thermometer. In short, everything is done to secure the health and comfort of the pupils, and to render them, intellectually and morally, worthy of the high position Upper Canada College holds among the educational institutions of British North America.
