

The Helioterra (Improved)

For teaching mathematical geography in public schools. A pamphlet goes with each instrument sold. It deals with such questions as the seasons, the tides, eclipses, moon's phases, equinoxes, solstices, long and short days, etc. Dimensions of apparatus: Length, 16 inches; height, 12 inches; and width, 8 inches. It is convenient for use, and is durable and cheap. Every instrument is guaranteed perfect in its make-up. Read what teachers say about it:

R. D. Davidson, Prin. P.S., Bowmanville: "THE HELIOTERRA arrived all right and proved satisfactory."

Miss Mitchell, Mt. Forest P. S.: "Both Mr. Westervelt (the principal) and myself are well pleased with THE HELIOTERRA."

L. Baker, Greenway P. S.: "My class is delighted with THE HELIOTERRA. Pupils find no difficulty now in understanding mathematical geography."

Principal Matchett, Ashburnham P.S., Peterboro': "We like your HELIOTERRA very much."

T. H. Newell, Christy's Lake: "THE HELIOTERRA is all to be desired. Have used it six months."

M. O'Sullivan, Sec. of Sep. Schools, London: "Send us another HELIOTERRA."

L. K. Fallis, Elora: "THE HELIOTERRA answers the purpose and is convenient to use."

R. H. Davis, Sunderland: "Teaching that difficult part of geography is now a pleasure."

J. H. Hutchison, Alport: "We appreciate THE HELIOTERRA; would feel all at sea in attempting a lesson in mathematical geography without it."

A. W. Marsh, Mooretown P. S.: "We are greatly pleased with THE HELIOTERRA, which arrived without damage."

D. A. Maxwell, B.A., LL.B., Inspector for South Essex: "Should be in every school in the Province."

J. W. Smith, Leamington, P. S.: "Makes clear to pupils many points in geography too difficult for children to understand without an object lesson."

A. C. Atkinson, Gesto P. S.: "It is superior to anything I have yet seen."

F. J. Voaden, Kingsville P. S.: "It makes the abstract real."

South Essex Teachers' Association: "Meets a long-felt want in the public schools of our country."

East Middlesex Teachers' Association: "THE HELIOTERRA is of great practical benefit to teachers and pupils in geography."

Mr. Vermette, Canard River: "Would not send it back to you for twenty times what I paid for it."

W. S. McDonald, Sutherland's Corners: "I highly recommend it to my fellow-teachers."

Mr. O. S. Hicks, Bayside: "Pupils have now no difficulty in understanding the part of geography which it is intended to teach."

R. F. Greenlees, Prin. Model School, Picton: "Am well pleased with THE HELIOTERRA. It will greatly aid in presenting mathematical geography."

A. C. Cunningham, Merivale: "I'd rather have the instrument than the best globe in the market."

E. H. Carpenter, Prin. West Central School, Windsor: "THE HELIOTERRA will insure at least fifteen marks to every Entrance pupil on the geography paper."

M. J. O'Connor, B.A., LL.B., Prin. East Central School, Windsor: "It is easily the best apparatus for public school use I have seen."

Miss M. O'Connor, Prin. Alphonsus Separate School, Windsor: "It is invaluable in teaching mathematical geography."

Mr. A. C. Bondy, Sandwich: "Mathematical geography is quickly and vividly taught by THE HELIOTERRA."

School Record, Detroit, Mich.: "Have seen a number of instruments designed for such study, but none which seems so well adapted to the work as THE HELIOTERRA."

Robt. E. Barbour, Highland Park, Mich.: "It is not overloaded with delicate and complicated parts, yet it has sufficient mechanism to explain and illustrate matters of this kind coming within the realm of public school work." H. F. Bickmore, Alport: "Your instrument received and I cannot speak too highly of it." J. R. Balfour, Prin. Sandwich, P. S.: "Even the youngest children can, by the aid of it, be made to intelligently understand mathematical geography."

Price of apparatus, \$4, with express charges prepaid to any address in Canada. Cash with order, or sent C.O.D. if desired. Address:

The Helioterra Co., Toronto.
