Until You Are Cured

I make this offer to weak men, particularly those men who have

paid. If you can't say it after using my belt for three months, then give me back my old belt and I won't

A short time ago I took a case that I couldn't cure, and I didn't see why, as I had cured hundreds like R. Anyway, my patient returned the Belt and said I hadn't done him any good. He said he thought I refused, and told him that I had made a contract to cure him or get nothing, and I wouldn't take a dollar I hadn't earned.

I don't charge much for a cure. My Belts are as low as \$5. That will cure some cases, and it won't cost you a cent if it doesn't. Did you ever see a doctor who would agree to cure you for \$5 and wait for his money till you were cured?

money till you were cured?

Twe cured lots of men who had paid over a thousand dollars to doctors before they came to me.

Dr. McLaughlin:

Dear Sir,—I have worn your Beit for 30 days. I am feeling fine, the best I have for years. My stomach is very much better, and my appetite has, improved a great deal. I can now eat a good meal and be satisfied, which I couldn't do before. I feel like a new man entirely, and if I keep on improving the way I have, in another month or so I will be in I remain, respectfully yours,

I have cured thousands of men who have squandered the savings of years in useless doctoring.

My Belt is easy to use; put it on when you go to bed; you feel the glowing heat from it (no sting or burn, as in the old style Belts), and you feel the nerves tingle with the new life flowing into them. You get an of 70 says he feels as strong and young as he did at 35. That shows it renews the vigor of youth. It cures Rheumatism Sciatic Pains, Lumbago, Kidney Trouble, banishes pain in a night never to

Dr. McLaughlin:

Dear Sir,—I must say that your Belt has done me a lot of good. Since wearing it, three years ago, I have never well of it. Wishing you every success, I remain, yours very truly,

Tell me where you are and I'll give you the remain. Tell me where you are and I'll give you the name of a man in your town that I've cured. I've got cures

That's enough. You need the cure. I've got it. You want it. I'll give it to you or you need not pay me a cent. Come and get it now. The pleaspay me a cent. Come and get it now. The pleasurable moments of this life are too few, so don't throw any away. While there is a chance to be husky and strong, to throw out your chest and look at yourself in the glass and say, "Tm a man," do it, and don't waste time thinking about it.

I've got a beautiful book, full of good, honest talk about how men are made big and noble, and I'll send it to you free, sealed, if you send this coupon. Call for consultation free.

Dr. M. S. McLaughlin, 130 Yonge St., Toronto, Can.

QUESTIONS AND ANSWERS. Veterinary.

LUMP ON KNEE.

Mare has soft lump, as large as an apple, on the outside of her knee. Its has been there about eight weeks, and does not lame her. E. A. H.

Ans.-I infer from what you say, that this lump appeared suddenly, and is probably a serious abscess. It is either an abscess or a bursal enlargement. If the former, it should be lanced, and the cavity flushed out daily with a threeper-cent. solution of carbolic acid, until healed. If the latter, it must not be opened, but may be reduced by repeated blistering. As the knife needs to be vise you to show her to your vetericarefully used about a joint, I would ad-

CHRONIC COUGH.

Horse had a bad cough all fall. I used Hess Heave Powder, but he is stillcoughing. C. W. B.

Ans.-Chronic coughs are always hard to cure, and if a case of heaves has developed, it cannot be cured. If heaves be not developed, the following will probably effect a cure, but it will require some time : Give every morning a ball, composed of 11 drams gum opium, 2 drams solid extract belladonna, 1 dram camphor, and 30 grains digitalis, with sufficient oil of tar to make plastic. Roll in tissue paper, and then administer. If the bowels become constipated, give 1 pint raw linseed oil.

ECZEMA.

Heifer developed some skin disease on her dewlap, and it has extended over considerable surface of her body. pimples appear in the skin; they become reddish and exude a sticky substance, then a scab forms. The disease causes intense itchiness.

Ans.—This is eczema. Give her 1 ounce Fowler's solution of arsenic twice daily every alternate week. Wash the affected parts thoroughly with strong warm soft soap suds, applied with a scrubbing brush. Keep her warm and well clothed until dry. Then dress, twice daily, with a five-per-cent. solution of Zenoleum.

LUMP JAW.

Cow has a lump on her jaw. It commences under the mouth and extends backward on the right side. There are small ulcers on the surface. Is the milk fit for use? J. D. A.

Ans.—This is lump jaw, and the milk is not supposed to be fit for use. This is evidently an advanced case, and will be very hard to treat successfully. Roll 5 grains corrosive sublimate in tissue paper and insert into the opening in each ulcer. In a few days you will be able to pick out some of the tissue, then dress daily with a five-per-cent. solution of carbolic acid until healed. Give the iodide of potassium treatment internally. This consists in giving the drug three times daily. Comdram doses, and gradually increase the dose by, say, 15 grains daily, until she refuses food and water, tears run from her eyes, and saliva from her mouth. When any or all of these symptoms appear, cease giving the drug. Repeat treatment in two months, if neces-

LUMPS ON HOCK AND FETLOCK.

1. As the result of kicking, my horse has a hard lump, as large as a hen's egg, on outside of his hock. Give a sure

2. Horse got kicked on fetlock last fall. The lameness has disappeared, but there is still an enlargement. Give a sure

Ans.-1. We wish we could give sure cures for such cases. I do not think this lump can be entirely removed, but repeated blistering may reduce it considerably. Take 2 drams each biniodide of mercury and cantharides, and mix 2 ounces vaseline. Clip the hair off the part; tie head so that he cannot bite it; rub well with the blister once daily for two applications; on the third day wash it off, and apply sweet oil. Turn him nose in a box stall now, and oil every day until the scale comes off. Then tie nim up and blister again, and once every our weeks after this, as long as you can give him rest.

2. This is about as hard to treat as No. 1, and should have the same treat-
