

### Northern Ontario

The forest and mineral wealth of Northern Ontario has attracted many people from all parts of the civilized world.

One ninth of the world's reported output of silver in 1908 was taken from Ontario mines.

New discoveries of undoubted richness are being constantly reported from sections far distant from the far-famed Cobalt. Yet a more certain reward is insured to the settler who acquires for himself 160 acres of the rich agricultural lands now open for settlement and made accessible through the construction of railways and Colonization Roads.

The fertility of the soil is unsurpassed. The timber is in demand at a rising price. Mining, railway and Colonization Road construction, lumbering, etc., afford work in abundance to those who have not the means to remain on their farms continually. These also provide a market for farm produce at prices unequalled anywhere.

Cochrane, the terminus of the T. & N. O. Ry., on the G. T. P. Transcontinental Railway, now under construction, is in the same latitude as the southern part of Manitoba, and 800 miles nearer the seaboard.

That the experimental stage is past is clearly demonstrated. The country is rapidly filling up with settlers from many of the other Provinces, the United States and Europe.

For information as to terms of sale, homestead regulations and for special colonization rates to settlers and for settlers' effects write to

**D. SUTHERLAND,** The Director of Colonization, Parliament Buildings, TORONTO.  
**HON. J. S. DUFF,** Minister of Agriculture.

### Synopsis of Canadian North-west Land Regulations.

ANY person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan, or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, solely owned and occupied by him, or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing, may pre-empt a quarter-section alongside his homestead. Price, \$3.00 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right, and cannot obtain a pre-emption, may take a purchased homestead in certain districts. Price, \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres, and erect a house worth \$300.

W. W. CORY,

Deputy of the Minister of the Interior.

## I H C CREAM HARVESTERS MEAN MORE THAN BREED OR FEED

Right breeding and right feeding are essential to the greatest milk production. But that alone does not mean greatest cow-profits. You must get all the butter-fat to put your cows on the biggest profit basis.

A "scrub" cream separator is kin to a "scrub" cow. You cannot expect big money-making results from either. You must buy the separator with a record—a pedigree—just as you buy pedigreed stock.

You want the separator that will skim to a trace; yet it must be simple enough to be kept perfectly sweet and clean—strong enough to last for years—accurately constructed and true, so it will turn most easily. And you want the machine that just meets your needs—not too large or too small—but just right.

For such a separator, look to the I H C line—backed by the I H C reputation for quality. For biggest dividends on your investment of good breed and feed—you must get one of the

## I H C Cream Harvesters

All we ask is that you investigate thoroughly before you buy any cream separator. If you do that, you will soon own an I H C.

You will note their superior construction—their many special advantages. You will find that they are the only ones with dust-proof and milk-proof gearings. You will find in them the most perfect straining device—insuring pure cream and skim-milk always. You will see that the frame of an I H C is entirely protected from wear by bronze bushings at all points; that the I H C has largest shafts, bushings and bearings; that it has the safest, simplest, surest and most economical oiling system; that the flexible top bearing prevents vibration and keeps the bowl steady, no matter how unevenly the power is applied.

When you know what these money-making, money-saving advantages mean to you—you will own one of the I H C Cream Harvesters. There are eight sizes to choose from—four sizes in each of two styles—the Bluebell, gear drive—the Dairymaid, chain drive.

Call on your local dealer or write the International Harvester Company of America at nearest branch house for further information.

1 1/2 TO 40 HORSE-POWER.

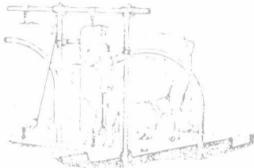

Windmills, Grain Grinders, Pumps, Tanks, Water Boxes, Concrete Mixers, Etc., Etc.

Send for catalogue.

GOULD, SHAPLEY & MUIR CO., LIMITED, Brantford, Canada.

## "BT" Steel Stalls and Stanchions

With cement floors reduce labor to a minimum, and make bright and sanitary stables. They are practically indestructible, while the out-of-date stables are constantly in need of repair, and are short-lived when compared with the latest and most up-to-date stables.

Our new catalogue contains a lot of valuable information for you if you are building a new barn or remodeling your old one. It is free, and a post card with your name and address plainly written will bring it. Write: Beatty Bros., Fergus, Ont.

## Build Concrete Silos

Any size with the London Adjustable Silo Corbs. Wood Silos soon rot and fall down. Steel Silos have a very short life, as the acid from the corn eats the steel, and they soon rust out. There is always a large amount of waste ensilage around the edge caused by friction. A CONCRETE SILO once built will last for years. It is fire proof, and does not absorb moisture. Send for Catalogue. We manufacture the best Concrete Machinery. Tell us your requirements. London Concrete Machinery Co., 116, 119 Marmora St. London, Ontario.

Agents: H. Brown & Co., 1048 West 1st St., Vancouver, B.C.
