## BISSELL LAND ROLLERS

are all steel except the Pole. They are braced and stayed to stand all kinds of hard work and wear well. The entire frame, bottom and all, is built of steel. The (18) anti-friction Roller Bearings make light draught.

The Draw Bracket and low hitch do away with neck weight.

The Axle revolves with the drums and there is no squeaking or grinding.

The Cages holding the anti-friction rollers are the best yet; they're MADE OF MALLEABLE ALL IN ONE PIECE—no twisting or binding of the bearings on the axle of the "Bissell" Roller. The Seat Spring is reinforced and is DOUBLED AT THE HEEL.

These good features are not all of the advantages of the "Bissell" Roller. Many more good points are built into them, making a Land Roller that is "built for business," that stands up against lots of hard work.

## BUILD A SILO THAT WILL LAST FOR GENERATIONS

A silo must have an airtight and moisture-proof wall to keep ensilage fresh, sweet, succulent and palatable. Don't put up a silo that soon will need repairs, and, even while new, does not prevent your ensilage from souring or rotting. Build a

### NATCO EVERLASTING SILO

The silo that's made of vitrified clay hollow blocks, each layer reinforced by continuous steel bands, and that keeps ensilage in perfect condition right down to the last forkful. Build a silo that will last all your lifetime and for several generations after you—a silo that never needs repairs or painting and that stands a monument to your good judgment.

Weatherproof—Decayproof—Vermiproof—Fireproof

A Natco Everlasting Silo wall never swells nor shrinks, never warps nor cracks. There are no hoops to tighten, no continual outlay for repairs—no loss from wind or weather—it's proof against them all. Any mason can erect a Natco Everlasting Silo and when the job's completed, you are through with silo troubles forever.

## WARNING!

Don't Let Them "Bluff" You

A customer of ours ordered (and paid for) some fence from a certain Canadian Fence Company who advertise that their fence is all made from full gauge No. 9 wire. After receiving the fence, the customer discovered that all the wires were not of the same gauge, and immediately advised the said company of the fact.

We have in our possession their reply to our customer, in which they positively confess that they use a smaller wire for the stays.

Don't be misled by their methods and their advertising. Be sure the fence you buy for full gauge No. 9 has horizontal stays of the same size.
