

ADVERTISEMENTS

MOTT'S BROMA.

THE following observations having reference to the preparation of BROMA, appeared in a late number of the Boston Medical Journal:— "A few years since a great manufacturing of Broma sought the opinions of many medical gentlemen of distinction, for the purpose of having an unobjectionable food for invalids, and was assured that he had fully succeeded. Hospitals, infirmaries, and households generally, should always be provided with it. When gravel, arrowroot, grates, barley, starch, rice, farina, and many other things ordinarily resorted to for patients are of no utility, the Broma is sometimes resorted to. It is believed that those who use it as a beverage will have manifest diastolic advantages over the consumers of tea and coffee. We see it stated that during the last summer those individuals who were continually using Choculite or Broma neither had attacks of cholera or dysentery affections, while others in the same families, taking their daily portions of tea, coffee, or simple cold water, were the sufferers, if any. We cannot vouch for the truth of this, but it has recalled to mind the statement that the oil dealer in London has been free from cholera or the diarrhoeal symptoms. And it has been further observed, that persons who were taking cod liver oil for chronic dyspepsia, during the prevalence of the late epidemic, were not affected by it. Vegetable oil in the first instance, and animal oil in the last, taken internally, would appear, by these statements, to have secured those who took them from the effects of the pestilence. It is certainly a point well worth while to determine, whether the chocolate drinkers have been exempted or otherwise affected."

MOTT'S BROMA has now been before the public for a considerable period, and along with the commendations of the Medical Faculty of this and the neighboring Provinces, it has received the approbation of all classes of consumers.—It is held to be an article of standard reputation, and the demand for it is constantly increasing. Sold wholesale by the Proprietor, J. H. KATZ, at MORTON'S MEDICAL WAREHOUSE, near the Province Building, Feb. 22.

THE COLONIAL Life Assurance Company commenced business in 1840 and the result which has attended its operations fully bears out the anticipation of success which its founders entertained. The Directors look forward with confidence to a very favourable result at the first Division of PROFITS, in 1854, and propose meeting before 25th May, 1850, will participate in that Division to the extent of 5 Years Dividend. The Capital of the Company gives complete security for all its transactions, and settles dealing with the Office incur none of the risks of mutual assurance. The rates adopted were framed after a most careful and searching enquiry as to the value of life in North America, and the Directors are confident that they have adopted a moderate scale as can be held compatible with safety. Parties assured can pass between Great Britain and North America within certain limits without extra charge, and have other privileges of residence, as more particularly noticed in the Company's Prospectus. Every information can be obtained by application at the Company's Office, in Halifax, N. S., No. 11, Prince Street, or from any of the Agents. By order of the Directors, J. & C. J. STEWART, Secretaries to the Halifax Board.

PARLIAMENTARY PROCEEDINGS. HOUSE OF ASSEMBLY.

Friday, Feb. 24. In our last, we announced the decision of the Assembly upon Mr. Howe's Resolution touching a grant for Collegiate and Academic Education. On Friday the whole matter was again before the House on motion to journalize on the proceedings in Committee. Mr. Henry's resolution to repeal the perpetual grant to King's College, was first brought up and passed upon—the numbers standing— for, 27—against, 19. Mr. Howe's resolution was next brought up, when it passed—29 for—18 against.

For the Provincial Secretary's Resolution: Provincial Secretary, Hon. Mr. Doyle, Hon. Mr. Johnston, Messrs. McLod, Creelman, Freeman, Ryder, Fraser, Taylor, Beckwith, Mott, Smyth, Fulton, Songster, Dept, Dimmock, Crane, Marshall, Moore, Hearn, Campbell, Snow, Wier, Budd, Blackader, Dickey, Card. Against—and for Hon. Mr. Young's amendment, v 2: That it is inexpedient to provide at this Session a grant out of the public funds, for any Educational Institution conducted upon Denominational principles. Hon. Mr. Young, Messrs. Robertson, Martell, Bourneuf, McDougall, Killam, Henry, Keddly, McDunnell, Mignowits, Ernst, Harrington, Comau, Mott, Archibald, Homer, McKenna, Brown.

The Hon. Provincial Secretary asked leave to introduce a Bill, granting £1200 for two years, in aid of Collegiate and Academic Education—the sum to be divided by the Government, which leave being granted, the Bill was read a first time. The College question having been disposed of, the Hon. Mr. Johnston moved the second reading of his Bill for making the Agents of Companies abroad liable. He explained that this Bill differed from that thrown out of the House on Saturday last very materially. The former merely made declaratory against British Agents, an act which gave the same remedy against Foreign Agents as existed against absconding debtors. This Bill was amending—not declaratory—and gave a much more simple remedy against Agents, making them liable to be sued in a Court of Law, the same as other debtors. The Speaker objected;—the Bill was the same as the previous one—it applied to all causes of action past and present, but he would take the sense of the House as to whether it was excluded by parliamentary rule. On a call of the House being moved, an adjournment succeeded. Saturday, Feb. 23. On Saturday the question was again brought up, the Speaker requested strangers to withdraw, and the matter was settled with closed doors. During the day the following Resolutions were submitted to the House by a member of the Government. Whereas, In consequence of the recent changes in the Navigation Laws and the Commercial Policy of the British Empire, it has become necessary to secure more extended markets for the natural Products of British North America, by a reciprocal free exchange of such Products with the U. States; and to have the Coasting Trade arranged between this and the adjoining Provinces and

the United States, on fair equitable terms; and to obtain from the Government of the United States such modification of their Laws as will admit Colonial built vessels to the privileges of Registry.

1. Resolved, That the Lieutenant Governor be respectfully requested, and is hereby authorized, to take the necessary steps to obtain, through the proper authorities, the accomplishment of these desirable objects.

2. Resolved, That if the United States remove existing Duties on the following articles, the growth and production of British North America, that the like articles be allowed to be imported into this Province from the United States, Duty free, viz:— Grain and Bread Stuffs of all kinds, Vegetables, Fruits, Seeds, Hay and straw, Animals, salt and fresh Meats, Butter, Cheese, Lard, Tallow, Hides, Horns, Wool, undressed Skins, Furs of all kinds, Ores of all kinds, Iron in pigs and blooms, Copper, Lead in pigs, Grindstones and Stones of all kinds, Earth, Coals, Lime, Ochres, Gypsum, ground or unground; Rock Salt, Wood—Timber and Lumber, of all kinds; Firewood, Ashes, Bark, Fish, Fish Oil, Train Oil, Spermaceti Oil, Head Matter and Blubber, Fins and Skins, the produce of Fish or creatures living in the water.

3. Resolved, That an Address, be prepared to Her Majesty, on the subject of the Coasting Trade of this Province, praying that the same may be opposed to the people of the United States, under the provisions of the amended Navigation Act 12th and 13th Viet, Cap. 29, and the preceding Resolution. Monday, Feb. 25.

On Monday, nothing of interest occurred in the House. A good deal of general business was pushed through. The accounts for the construction of the Telegraph were laid on the table of the House. A Bill allowing members to vacate their seats, under certain circumstances, passed the House, also the School Land Bill.—In committee of supply some progress was made. The vote of contingencies to the Governor—also the vote of £250 to the Private Secretary of His Excellency, were opposed in Committee—the first successfully. On neither of the topics brought to the notice of the House, was there anything like a debate.

Tuesday, July 26. On Tuesday the House having passed the Road Vote, and received a Report from the Committee to whom was referred, papers touching the Poor Asylum of Halifax, which recommended an increase of the Provincial Grant, the order of the day was moved, and the House went into Committee, and took up the Reciprocal Trade Resolutions. The Hon. Attorney General, the Hon. Speaker, the Hon. Mr. Johnston, and the Provincial Secretary, severally addressed the Committee at some length.

CLEANINGS OF THE WEEK.

The value of imports of New Brunswick for 1849 amounted to £530,884; the Duties on which collected at the port of St. John amounted to £51,325, and the balance of over £16,000 at the other ports.

The Rev. John Thomson has delivered one of a Course of Lectures on the Evidence of Christianity, in the Wesleyan Centenary Chapel in St. John, N. B.—It is said that not fewer than 2000 persons were present. The Lecture is highly spoken of, and is to be published in a cheap form for general circulation.

A second deposit of excellent Iron Ore has been discovered by Mr. W. Stevens, formerly superintendent of the York and Carleton Mining Company's Works at Woodstock, N. B., who is about proceeding to England for the purpose of introducing it to the notice of capitalists.

On the presentation of some petitions in the N. B. House of Assembly, praying that an Act may pass to incorporate the Grand and subordinate Loyal Orange Lodges in that Province, in connection with the Grand Lodge of Canada, the Attorney-General, Hon. L. A. Wilnot, said that their objects were unconstitutional, and that he would meet them with the most determined opposition.

Mutiny and Murder.

We are indebted to our attentive Correspondent at Liverpool for the following:— LIVERPOOL, N.S. Feb. 21.—Captain Henderson, of the brig vessel Canada reports that on the 30th of the month the Anxela J. R. Lohr, of Norfolk, U.S., arrived at St. Thomas, from Trinidad. After leaving Trinidad a mutiny broke out among the men from which several of the crew were cast overboard, and the vessel was captured on board on her way home. They were conveyed to the prison in the steward's cabin, and on his return to duty they confined him in the fore-cabin. The mutiny was then suppressed, and while they were preparing for their return to the U.S., which was about 22nd with them, the vessel succeeded in fleeing thence, and came off deck while they were in

the boat, he immediately cut the rope which led the boat, and they drifted away. The steward managed to hoist part of the sail, and fortunately got into St. Thomas.—Jour.

"OF INTEREST TO ALL."

The Genuine Balm of Columbia, for restoring the Hair.

TO THE LADIES. If you wish a rich, luxuriant head of hair, free from dandruff and scurf, do not fail to procure the genuine Balm of Columbia. In cases of baldness it will more than exceed your expectations. Many who have lost their hair for twenty years, have had it restored to its original perfection by the use of this balsam. Age, state, or condition, appears to be no obstacle whatever; it also causes the hair to flow with which the delicate hair tubes are filled, by which means thousands have had their hair restored to its natural color by this invaluable remedy. In all cases of fever it will be found the most pleasant wash that can be used. A few applications only are necessary to keep the hair from falling out. It strengthens the roots, it never fails to impart a rich glossy appearance, and as a perfume for the toilet it is unequalled. It holds long time as much as other mis-called hair restoratives, and is more effectual.

Caution.—Never buy it unless you find the name of Comstock & Co., proprietors, on the wrapper of each bottle.

POETRY.

Wishing for Spring-Time

BY HARRIET J. MEEK. I am weary of the timeless time, The reign of ice and thrall; The halls of pearl, the floors of fire, The court, the king, and all! I long to see the sunny hours Dance to the sun's of May and June, And these cold hills put on her plume With eyes of life and brows of blue.

I am weary all, with wishing

To see a wild-bird's wing; Of longing for the palest leaf, The faintest breath of Spring, For these rude rocks, where storm Will bear her dainty foot-print, And from amid the fairest charm That blossoms in her dewy arm.

I long to see the shadows gray

Through odorous valleys green, When o'er the dreamy cheek of life The purple fringe is drooping, And the curled waters catch the gleam That sleeps above, and smiles Till stars forget that heaven is blue, While gazing on the earth of life.

Tis well, when skies are sunless

And gloom is on the hill, We have Hope's dear world of life, That winter cannot chill; Fair Hope! that breathes the sweet Ere pulseless Nature leaves its life, While far-off strains and happy, Poor early music through the air.

The breeze that drinks the odor

Even now is on the wing— The cloud that wraps the mountain Is passing white and strong; Through every clasp of storm I A smile to fit the summer's day, And in the dark, bright lanes, Some promise of the golden day.

CHRISTIAN SERVICE

We need a better acquaintance with the resources of our island, and a more judicious use of them.

Original Notices

Soon after the Rev. Philip Levi Parsons left the month Western Massachusetts, in 1819, as the first American to Palestine, the same gentleman, from the same motive, was professor in Andover, and he went to Paris to pursue the study of the celebrated De Saussure, familiar with an American at the head of one of the houses in Paris, to whose residence was addressed.

In February, 1822, he died, and Rev. Mr. Fishy dressed a letter to Mr. King, he would meet him at the place of Parsons, according to the promise made by him, waiting the action of the A. of Missions, he in the same letter Mr. King's mercantile friend second his invitation, but if the sum of \$1,500, requisite for three years.

Mr. King, on receiving the merchant's countenance, as is from "Sydney Risk; I retire to your private office Oppressed with the weight of a contained, he spent an hour in divine direction, and light as to the path of duty, of Providence, sought advice. He returned to the land asked with deep solicitude "What will become of me?"
