

THERE is a MAN

in your locality who is making \$2.00 against every one that he made last year.

HOW?

By doing mixed farming—running a dairy as an adjunct to his farm. Now he realizes that the dairy is a reliable source of income; and that it gives regular employment to all the members of the farm.

But, let us not forget to say, that upon the advice of the Dairy Station, he investigated all the standard makes of separators—and proved to his own satisfaction that the

Tubular Separator

is 50 per cent better in every way than all other makes, and that it is a profit maker—a result giver.
