

HORTICULTURAL EXHIBITION FOR WINNIPEG.

At the recent horticultural convention in Winnipeg, it was decided to hold a horticultural exhibition in Winnipeg this year. The exact date has not yet been decided upon, but it will probably take place during the last week in August. The feeling in favor of the exhibition was unanimous. Winnipeg has practically not had anything worthy of the name of a horticultural exhibition for the past three years. The Winnipeg Industrial does not fill the bill so far as an horticultural exhibition is concerned. The date of the Industrial is too early in the season to admit of a creditable display in the line of horticulture. The large increase in the membership of the Western Horticultural society during the past year, and the greater attention now being given to horticultural work, led the members to decide to attempt another exhibition in the city. The last horticultural exhibition in Winnipeg was held under the auspices of this society three years ago. It was a most creditable effort in every respect. To those who were not familiar with horticultural work in Manitoba, it was an eye opener. The display of fruits, flowers and vegetables was excellent, and many were the expressions of surprise heard from visitors, to the effect that they did not think such things could be grown in Manitoba. Many of the exhibits were purchased to send away to the United States or elsewhere, where they were used with telling effect for immigration purposes. The exhibition, however, was a financial failure and left the society very much embarrassed. The citizens of Winnipeg, who were expected to attend in such numbers as would provide a fund to cover expenses, did not lend their assistance and encouragement by coming out to see the exhibition in large numbers. Many of those who attended were visitors to or strangers in the city.

Notwithstanding this failure, the Horticultural society has decided to try it again, hoping to meet with more encouragement from the citizens of Winnipeg this time. It is the intention of the society to hold a clean exhibition, entirely free from side shows or other fake features. At Brandon a very successful horticultural exhibition has been held for some years and it will not redound to the credit of Winnipeg if the people do not give this exhibition sufficient assistance and encouragement to make it entirely successful from a financial point of view. The success of the fair so far as the exhibit is concerned, may safely be left to the society, for their last previous effort showed that a first class horticultural exhibition can be attained. There is certainly more material immediately tributary to Winnipeg for such an exhibition, than can be found anywhere else in the West, and if the residents of the city do their duty, the event will be a financial success as well as a success from other points of view. The members of the society who are giving their time without remuneration to encourage horticultural development in this country, are certainly worthy of every encouragement. Their cause is a good one, and one in which the city of Winnipeg should be especially interested. Land around the city has advanced in value to such an extent that it has become too valuable for ordinary agricultural purposes in many cases. When land becomes too valuable to give profitable returns to the grain or stock farmer, it can still be made to return a profit under horticultural development. Horticultural development is necessary to render profitable much of the land in the Winnipeg district. It is therefore directly in the interest of the city that this horticultural exhibition should receive all reasonable encouragement.

Aside from this local view of the matter, which directly concerns the city of Winnipeg, it is desirable that a horticultural exhibition should be held, first, as an encouragement to further effort in horticultural development and secondly, to show what has been accomplished in this country in this direction. We are sure that those who do not know what has already been accomplished here, will be surprised when they see this coming ex-

A FREE CURE!

If you are weak and ailing; have lost the fire and vigor of youth; if you are rheumatic; full of pains and aches, or suffering from any disease that drugs have failed to cure; I want you to come to me. I can cure you with my wonderful Electric Belt, and I'll give it free to any weak man or woman. I want every weak, puny man, every man with a pain or an ache to get the benefit of my invention. Some men have doctored a good deal—some have used other ways of applying electricity—without getting cured, and they are chary about paying money now until they know what they are paying for.

If you are that kind of a man, this Belt is yours without a cent of cost to you until you are cured.

That's trusting you a good deal, and it is showing a good deal of confidence in my Belt. But I know that I have a good thing, and I am willing to take chances, if you will secure me.

As to what my Belt will do, I know that it will cure wherever there is a possible chance, and there is a good chance in nine cases out of ten.

So you can afford to let me try, anyway, and I'll take the chances. If you are not sick don't trifle with me, but if you are, you owe it to yourself and to me, when I make an offer like this, to give me a fair trial.

Ottawa, Ont.

Dr. McLaughlin:

Dear Sir,—The Belt I purchased from you in August, 1903, cured me of heart disease, and I am able to work and tend to business as well as ever, and my pulse is quite normal. I highly recommend your Belt for indigestion and all stomach troubles, from which I also suffered greatly. If your patients would pay attention to the advice you give them they would not be long ailing. With best wishes, I remain, yours very truly,

JAS. JOHNSTON, J.P.

Dr. McLaughlin:

Dear Sir,—I will now make my second report, after wearing your Belt for two months. I find I am still improving in health. The complications are slowly leaving me, that is the Bladder trouble, Stomach trouble, Kidney trouble, and back pains, and I feel better all round. I have had no losses for weeks now, and I find my stomach has improved a lot and I am not troubled with constipation. My stomach is digesting its food much better, and I am getting stronger in every way. I am following your instructions as near as I can, and I am very much pleased so far with your grand Electric Belt. Trusting to hear from you soon, I remain, yours very truly,

GEORGE M. TROHON, Box 361, Digby, N.S., Jan. 24th, 1906.

Dr. M. F. McLaughlin:

Dear Sir,—Five months ago I received your high grade Belt. I was then suffering from the last stage of seminal weakness, and my prospect of getting cured was very small, but I commenced the use of your Belt, by your advice, as a last straw towards saving myself from the dreaded sickness. You can imagine my joy and happiness when I found that after using your Belt a short time, I was improving daily. As my case was very serious, in my estimation hopeless, you can with reason feel very proud of your invention, which is a blessing to humanity. I also wish to compliment you upon the honest dealing and advice patients are receiving from you. That your business may flourish is my sincere wish, as there is no doubt but that your Belt is the proper thing, when doctors and medicine fail. May your name and your invention go around the world, a benefit to suffering humanity. I am, yours very truly, F. Lindblad, Dawson City, Yukon.

If you would believe the thousands of men whom I have already cured, my Belt is worth its weight in gold.

But some men don't believe anything until they see it. That's why I make this offer.

If I don't cure you my Belt comes back to me and we quit friends. You are out the time you spend on it—wearing it while you sleep—nothing more.

But I expect to cure you if I take your case. If I think I can't cure you I'll tell you so, and not waste your time. Anyway, try me, at my expense.

Call or Send for My Free Book.

Come and see me and I'll fix you up or if you can't, then cut out this coupon and send it in. It will bring you a description of my Belt, and a book that will inspire you to be a man among men, all free. My hours, 9 a.m. to 6 p.m. Sundays, 10 to 1.

Dr. M. D. McLAUGHLIN,

130 YONGE STREET, TORONTO.

Please send me your book, free.

Say "Yes"

To This Offer, and See the Good You Will Get.

Write us if you are ready to try Liquozone. Let us buy the first bottle for you. Let the Product itself prove the good it can do.

You who are waiting don't know what you miss. There are plenty to tell you if you would ask; for millions have already used it. Some use it get well; some to keep well. Some to cure germ diseases; some as a tonic. You will use it as they do, when you learn what the product does. And you will then regret that you delayed so long.

What Liquozone Is.

The virtues of Liquozone are derived solely from gases, by a process requiring large apparatus, and from 8 to 14 days' time. No alcohol, no narcotics are in it. Chemists of the highest class direct the making. The result is to obtain from these harmless gases a powerful tonic germicide.

The great value of Liquozone lies in the fact that it is deadly to germs, yet harmless to you. Germs are of vegetable origin and this gas made product, when absorbed by them, stops their activities. We publish an offer of \$1,000 for a disease germ it cannot kill. But to the body Liquozone is exhilarating, vitalizing, purifying. It is helpful in the extreme.

That is its main distinction. Common germicides are poisons when taken internally. That is why medicine

proves so nearly helpless in a germ disease. Liquozone is a tonic.

We Paid \$100,000

For the American rights to Liquozone, after hundreds of tests had been made with it. After its power had been demonstrated again and again, in the most difficult germ diseases. Then we spent in two years, more than ten times that sum to let others test it at our expense. The result is that millions of people, scattered everywhere, have shared in the benefits of this invention.

We make the same offer to you. We ask you to prove at our cost, how much this product means to you. Let Liquozone itself show how wrong it is to suffer from a trouble that it cures.

Germ Diseases

Most of our sickness, has in late years, been traced to germ attacks. The list of known germ diseases now numbers about one hundred.

Some germs—as in skin troubles—directly attack the tissues. Some create toxins, causing such troubles as Rheumatism, Blood Poison, Kidney Disease and nerve weakness. Some destroy vital organs, as in consumption. Some—like the germ of catarrh—create inflammation; some cause indigestion. Directly or indirectly, nearly every serious ailment is a germ result. Such diseases call for Liquozone—not drugs, which can't kill germs.

Every germ attack, no matter what its, symptoms, calls for germicide. The mildness of Liquozone makes some of its results seem almost incredible. But in that mildness lies the power that germ diseases need. And diseases which have resisted medicine for years often yield at once to it.

50c. Bottle Free

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-sized bottle, and will pay the druggist ourselves for it. This is our free gift, made to convince you; to let the product itself show you what it can do. In justice to yourself, please accept it to-day, for it places you under no obligations whatever.

Liquozone costs 50c. and \$1.

OUT OUT THIS COUPON

Fill it out and mail it to The Liquozone Company, 458-464 Wabash Ave., Chicago.

My disease is..... I have never tried Liquozone, but if you will supply me a 50c bottle free I will take it.

W413D Give full address—write plainly.

Note that this offer applies to new users only. Any physician or hospital not yet using Liquozone will be gladly supplied for a test.
