EGGS FOR HATCHING

Can Be Sold in May

The experience of many breeders is that it pays to advertise eggs-for-hatching in May. One reason is that some buyers find that their early hatches are not successful and they need to re-order. Others feel that it is safer to delay the hatching a little and insure warm weather when the chicks come out. Others who have placed orders find that they will not be able to have them filled and so must re-order elsewhere.

The following letters are from advertisers who have successfully advertised in The Guide in May:—

ADVERTISED WHITE WYANDOTTE EGGS

Wawanesa, Man.
My advertisement in your paper in May of last year (1917) was entirely satisfactory. The Grain Growers' Guide is the best medium for farmer and advertiser. I intend sending you copy for same the end of this month.

ADVERTISED R.I. RED BIRDS AND EGGS

Saltcoats, Sask.
I have had very satisfactory results from advertising in The Guide. If I had not advertised I would not have sold near the amount of stuff I did.

The rate is economical—Five Cents per word. Send in your advertisement to-day and let The Guide demonstrate to you how it can sell Hatching Eggs.

The Grain Growers' Guide, Winnipeg, Man.
