How to Help the Government By RUTH CAMERON

DO you read the preludes and foot notes in books, and the printed directions that come with the articles you buy?

If you are a woman, I don't believe you do. Nine women out of ten never glance at such things; men are more apt to. There is a certain brand the printed directions subjected to forcible feeding unless she consented to take food voluntarily. Six women attendants seized her and forced her down on the bed, 'After this," says Miss Pankhurst, "the doctors came stealing in." we were helping to prepare an impromptu tiffin at Molly's house, the ManWho-Thinks was delegated to open a can of these peas. Before doing so he
carefully perused the printed matter on the outside, and this is what he read:

"These peas are colored with copper sulphate."

"These peas are colored with copper sulphate."

"The other evening when doctors came stealing in.

By the aid of steel instruments the doctors succeeded in prying her jaws apart after causing her great suffering. A tube was then forced down

"Goodness," said Molly, "I never saw that before." None of us had, and yet it had been there all the time, and we have been using that brand for years. Whether a small quantity of copper sulphate is harmful we do not yet know. But whether it is or not, there is no question that we should have read what was writ-field with severe nausea."

She continued, "and after they had pulled the tube out they left me on the bed exhausted and shaking with sobs. The same thing happened in the evening, but I was too tired to nerves. ten on that can.

. To think that three-quarters of us are too careless, or too lazy, or too indifferent to do our part!

Isn't that a painful commentary on the American character? In some of the little basement stores in the slums of the big cities, where violently colored sodas are dispensed for a penny a glass, the proprietors observe the law by boldly hanging above their fountains the sign, "This soda of blood," her nerves shattered. She is highly adulterated." How do they dare to do it? Because they know gave way frequently to its of screamthat the poor ignorant folks will think that fine-sounding phrase means that

the soda is extra good. No doubt the manufacturers who supply us with our canned goods feel a similar confidence in our indifference to any warning they may print. It is every woman's duty to do what she can to get good legislation, but we must not forget that we have a further duty, and that is to make the legislation we already have as effective as possible. And every woman can do that in this particular by reading the printed matter on the outside of all the goods that come into her kitchen.

A First Class Attraction

In presenting "The Girl from Tokio," the management has made a splendid selection. It is a laughable farce, that contains some complications and numerous funny situations, that evoke uproarious and continuou laughter. It is said that it will stand comparison with the best; the set-tings used are correct in both color and detail, the principals are well selected and make the best of every opportunity offered for producing laughter along purely legitimate lines and the skilfulness of the leading roles is a valuable asset in itself. "The Girl from Tokio" will be presented at the Grand Saturday March
