Carefully consider fire protection when you build or remodel your home.

Every waking and sleeping moment you and your family spend in an inflammable house you risk your lives.

Build for safety by using Gypsum Board and Gypsum Plaster.

Then all your partitions and ceilings will be made of material that can't burn—Gypsum.

Tight joints, no cracks or crevices, air-space insulation between walls (all features of this type of construction), positively prevent the spread of heat and flames.

Added advantages of Gypsum Board and Plaster are their sanitary and sound-proof qualities.

Ask for the Gypsum Board booklet—it's free.

HENRY SLATER, Waterdown

Letter from Florida

St. Petersburg, Fla., Oct. 26th.
To the Editor,—

Mrs. Leake, Mr. Henry Hill and I were at the home, today, of one of the finest estates in St. Petersburg. There were the stately Palm trees, the guava, grape fruit, pineapples and other tropical fruits. It may be of interest to know that there are palm trees and palm trees. There are some 13 varieties here, some of which are called the date palm, the cocoanut, the cabbage, the palm leaf, etc. The cocoanut palm is very tall. There are many nuts upon it. A good tree will drop a nut every day in the year. On this estate was a palm nursery. A camelion was on one of the leaves, and the lady of the house allowed the pretty creature to walk on her hand. Pineapples grow on stalks from which arise clusters of bayonet like leaves bending slightly outward like an iris. The pineapple nestles at the base something like a cauliflower. They grow about a foot or a foot and a half from the ground. When the fruit is cut off, the old wood dies down to the stalk and a new cluster of leaves sprout in preparation for another pineapple on the same stalk. The pineapple needs a half shade. The light is allowed to come through a wide open slat-work, otherwise the hot sun would destroy the growth.

The things we hear of Canada are very amusing. They seem to resent enlightenment. They seem to think that if they know all about Canada, others will know, and so they lose money. They look at everything from a commercial standpoint. We take good care to remind them that the Canadian dollar is the best currency in the world. One man said, "You are dry in Canada this summer." "Yes," I said, "We have been 'dry' five or six years." He referred to the forest fires in the North and was amazed when I told him those fires were seven or eight hundred miles north of where I lived. Nearly every person says, "You Canadians pay taxes to England, don't you?" and "you also help to pay England's national debt." It is for us to quietly say what we know. It is our duty to promote harmony, as far as we can, between us and the United States. Much depends upon our good relations, I think, as far as the peace and progress of the world is concerned. Should there be any rupture it would hinder very seriously the progress of true christianity.

H. J. LEAKE.

King-Featherston Wedding

The Waterdown Methodist Parsonage was the scene of a quiet and pretty wedding on Monday afternoon October 30th at 2.30 o'clock, when Mary, youngest daughter of Mrs. Wm. S. Featherston, and Mr. Clifford King, son of Mrs. David King, were united in marriage by Rev. C. L. Poole.

The bride looked very charming in a gown of blue canton crepe and carrying a bouquet of roses. After the ceremony, supper was served at the home of the bride's mother. The happy couple left for Buffalo and other American points, the bride wearing a Persian lamb coat trimmed with sable, and smart hat of jade duvety and silver. Upon their return they will reside in Brantford.

A Bridal Shower

A miscellaneous shower in honor of Miss Mary Featherston, an October bride, was held at her home on Thursday evening, October 26, when about 75 friends showered her with many beautiful and useful gifts and good wishes. A feature of the evening was the piano selections rendered by Mr. Stewart Mitchell, which were much enjoyed.

Among the beautiful wedding gifts received by Miss Featherston was a cabinet of silver from the office staff of the B. Greening Wire Co. of Hamilton, which was presented to her at a banquet given by the girls of the office. Also a beautiful silver casserole given by the choir of the Methodist church, and a handsome clock and purse of money by the congregation of the church.
