BRITISH PEERAGE SUFFERS

It is stated that fifty-five sons of British Peers have already fallen in the war and the list is growing each month. It has been thought by some that the Dukes, Earls, etc., of Great Britain were of doubtful strength or use to the British Empire. But it contains men of eminent ability in the service of the State. They have never served it so worthily as during the present hour of need.

IS THERE ANOTHER SURPRISE FOR THE ENEMY

In a recent interview Sir John Jellicoe said that if the Germans came out they would get a surprise. The Providence Journal publishes a story that the British navy has been strengthened by half a dozen or more Dreadnoughts mounting eight 18-inch guns. The largest gun heretofore has been the British 15-inch. If that is the "surprise" the secret has been well kept, and the Germans might as well give up hopes of beating Britain on the sea.

ALDERSHOT REDIVIVUS

The camps at Aldershot have all been taken down and the scene on the grounds does not present the animated appearance of a month ago. For the time only a few men remain to care for the grounds and for future occupancy.

By order of the Government military authorities advertisements calling for tenders for supplies for Camp Aldershot for seven months commencing November 1st have been posted. No announcement has been made as to how soon the grounds may be occupied or how many troops may be quartered here. The camp engineers claim that two Battalions can be comfortably housed for the winter with very little additions made.

KENTVILLE BOARD OF TRADE

The Kentville Board of Trade does not receive the attention of the business and professional men and citizens that it should. It is an organization that can do much to benefit the whole community.

On account of the abnormal business during the past summer, caused by the large number of Soldiers at Aldershot, citizens have been so busy that possibly the work done by the local Board of Trade has been overlooked.

With the Camp closed for a time, business is now back to normal and we hope that all members will make a special effort to attend future meetings.

We have the basis of a splendid organization and it should receive the support of every citizen who is interested in the advancement of the Town.

An important meeting has been arranged for this Friday evening, November 3rd, in Court House.

"Hotel Accommodation," "Canning Factory," "Dog Laws" and "Sheep Raising" are some of the matters that will receive attention. Some very interesting data has been obtained by the Board in connection with these subjects, and we trust their efforts will receive the support they deserve.

The work of the Children's Aid Society is worthy of our encouragement and support. Mr. Stairs, the agent of the Society has contributed much of his time and energy in this work with excellent results. The annual meeting will be held at Wolfville on Tuesday evening. The officers who are carrying on the work would be much encouraged by a good attendance from different parts of the County.

Aberdeen Street - Opposite American House

NEW WHITE WAY FOR BROADWAY PLANNED

W. D'Arcy Ryan, a Kentville Boy, Who Planned Lighting System for Panama-Pacific Exposition, to Confer with Committee, and Permanent Organization to be Formed.

(St. Jose Paper)

Representatives of the Broadway Property Owners Association, Merchants' and Manufacturers' Association, Los Angeles Realty Board, Chamber of Commerce, Clearing-house Association and numerous other civic bodies will meet at 12.15 today at the Blue Room of the Los Angeles Athletic Club to confer with Walter D'Arcy Ryan, the illuminating expert who recently planned and installed the "Path of Gold" lighting system for Market Street, San Francisco, and who is recognized as the highest authority on the science of illumination in the world.

The purpose of the meeting is to decide upon a permanent organization for securing the benefit of Mr. Ryan's advice and engineering skill in devising a lighting system for Broadway that will be adapted exactly to the street's needs and combine the highest light-giving efficiency with the best decorative setting, and that will place Broadway, Los Angeles, the first main thoroughfare in the world to adopt ornamental illumination, once more in the lead.

The movement has the hearty co-operation of the many organizations, who will be represented at the meeting by committees composed of the leading business men of the city.

THE U-53 RETURN.

Berlin, via London, Nov. 1.—The German submarine U-53 has returned safely to a German port, according to the official announcement.
