Mr. Harry Blanchard, a recent grad-uate of the A.H.S., has accepted a position as purser on the steamer Vic toria, which plies between Brockville and Gananoque.

C. J. Gilrov received a telegram from Toronto last week that his Holstein cow, Inka Sylvia, had defeated all comers in the milk test competition, winning \$150.

The Kingston Dairy School will open in November, but classes will not begin until November 3rd, a day earlier than last year. Indications point to a large class this year.

#### New Telephone Service

From one cause and another, the telephones put into the business places in Athens have been nearly all taken out. During the past few weeks an agitation has been going on amongst the principal business men to inaugurate a local private system of telephones, and an estimate has been made that a company of say 25 or 30 can buy the telephones, put up the poles and wire, and get everything in working order for about the sum asked for a yearly rental of the 'phones under the old ystem. There would then be no further expense to the shareholders, excepting the paying of some one to manage the central office, which would be a triffing sum compared with the yearly rental under the present system. In the near future the line could be extended to take in the villages in the vicinity and no doubt many farmers along the line would avail themselves of the convenience of having an instrument in their house whereby they could be in instant communication with their business places or friends in the surrounding country. We think the scheme one worthy of serious consideration by all interested and we hope to see something tangible come out of the discussion and consideration of the project.

#### THE STUDENTS' RECEPTION.

One of the many pleasing ways in which the Epworth League manifest their friendliness and general beneficence is by annually, at the commence ment of the school year, holding an entertainment in honor of the students of the high and model schools. This event for A. D. 1900 was held on Tuesday evening in the Methodist church and was one of the most successful and enjoyable events of the season. Indeed, if we measure the worth of the entertainment by the frequency and volume of the applause, the programme must be placed in the very first rank. The order observed and the attention given by the students were excellent
