During the past few weeks the opposition sheet of Chatham has been filled with the greatest rot and nonsense about elections, more particularly that which related to Gloncester County. Its articles have been copied into other opposition journals, which proves clearly the Advance to be champion so far as misrepresentation, false reports, &c., are concerned, for if the other editors could write blacker or meaner articles they would probably do so. It however is impossible. Is it not strange that every member the Advance opposed was elected, such as Moffat, Burns, Mitchell, Gironard, Adams and Park. Why is it? Well I hope the editor will see he cannot I hope the editor will see he cannot run the four Northern Counties. That New Steamer.

Some time ago an item was published in the local papers in reference to a new steamer contracted for by R. R. Call, Esq., in Bellville, and to take the route of the New Era. The wonderfully acute editor of the Advance denied the fact of the contract being entered into, after stating that he had made special enquiry into the matter, and that there was no truth in the statement, which was merely got up for effect.
