ASSEMBLY DELEGATES AND WHERE THEY ARE BILLETED.

Complete List of Guests and Entertainers as Revised Up to This Morning—Come From Atlantic to Pacific.

When Rev. J. A. Wilson, B. A., of St. Andrew's Church, secretary of the local committee of arrangements for the General Assembly, with the assistance of Rev. W. H. Sedgewick, M. A., of Central, got through with the billeting list after a long and tedious job last evening, they had it right up to the minute, showing the billets of about 300 commissioners. They expected a few names to come in to-day, to be provided for, and in all probability a few delegates will arrive without any provision having been made for them. The list given below, however, may be said to be practically complete. In each case the name of the entertainer is given first, with address, followed by the name of the delegate being entertained.

The task of billeting 300 delegates or more is no light one, and the committee in charge is thankful for the hearty co-operation of the members of the various churches. In quite a number of cases people who could not, for any one of many reasons, make it convenient to take delegates into their houses for the eight or ten days of the assembly, have given the equivalent in money, thus enabling the committee to provide boarding houses for quite a goodly number.

In most cases the guests are provided for by their entertainers for their entire stay, with rooms and meals. Some, however, have only room, breakfast and tea, some room and breakfast, and in a very few cases room only.

The complete list, arranged in alphabetical order of the entertainers, is as follows:

SENSIBLE CANNIBAL.

Scientific Justification For His Diet, Says Doctor.

London, June 1.—A scientific justification for cannibalism was propounded by Dr. F. Gowland Hopkins in an address at the Royal Institution to-day.
"What would be the most efficient protein for men?" he asked. "Clearly, although not a point of practical dietetics, the most sensible person in this connection is the cannibal. In consuming his own kind he is eating exactly the right stuff. Though it may seem a gruesome experiment, a worker in Heidelberg has lately tested the point. He found that a dog, when fed with dog, was able to do with a much smaller quantity of protein than when fed with any other protein whatever. There is a chemistry of species, and the nearer the two species of animal are together the more nearly does the chemistry of their bodies agree."

LUMPS LIKE IRON ON HIS FINGERS.

Peculiar Trials of a Westerner That Neglected His Rheumatism.

This is no ordinary case—five doctors endeavored to relieve and cure Mr. J. E. Germaine, Port Arthur, and all failed to bring in this awful suffering even temporary relief. "I am over sixty years of age," writes Mr. Germaine, "and as far back as I can remember I have always suffered from rheumatism. It was principally on the large muscles of my back, but extended to my limbs and made me quite a cripple and I found it very difficult to get work. I am a grain shoveller, and any work seemed to make matters worse. I did very little towards a cure till last fall when my case became very acute. I was unable to stand the chilling winds and outdoor exercise at night. I went from one doctor to another—five in all—but got no relief. My muscles and joints stiffened, ached intensely and hard lumps came out on the tendons of my fingers and wrists.
In blank despair I went to the drug store and got five bottles of Nerviline—paid one dollar for the first. I took it internally and used it outward as a rub. Two days made a change—a week saw an improvement—four weeks saw me well. I was cured, free of stiffness, pain and suffering. Nerviline did it all—how I do wish all other sufferers would use Nerviline also. I'm sure it will cure them all."
Thousands of cases just like this could be told—nothing else is so certain in rheumatism, neuralgia, sciatica, and lumbago as Nerviline. Refuse substitutes and try a 25c bottle to-day.
