Former Huronite.

Wednesday last, M. Walker, of Port Huron, the well-known waterworks ex-pert, was in town, and made a preliminary examination into the proposed water-works scheme. He visited the Flats repeat, only such of our manufacturers as lack brains and energy need fear Com-mercial Union." Mr Walker, in addition to being a waterworks engineer, is a contractor for putting in waterworks systems. He is in favor of erecting necessary build-ings at the foot of the hill, and of placing forcing machinery there with suction attachments. He opposes the system of using lifting pumps at all, and is, also

OPPOSED TO THE USE OF A STANDPIPE. The latter, he contends, would cost from \$8,000 to \$11,000 and would not give value for the interest on the amount of money expended. It was quite true that by the use of a standpipe the en-gines would not be required to work more than half time, but the fire and steam would have to be kept up con-

NOT SUFFICIENT HEAD FOR WATERPOWER readers. Deceased taught school in Goderich for some years, and was an earnest and devoted member of the Mathodist church. Her funeral took place from her father's residence to Maitland cemetery on Friday last. The sorrowing husband and other relatives have the sympathy of the entire com-munity. MECHANICS INSTITUTE.—A meeting of the lake and running about 1,400 or 1,600 feet of suction pipe out, and then forcing the water into the town mains, The engine house, with duplicate en gines, &c., would not cost over \$8,000, and the suction pipe for lake service could be laid for about \$3,50 per foot. If it was thought better than the water secretary, Miss Libby Hamlen ; treasur er, Miss L. Wilson.

> FROM THE NORTHWEST. THE SINKING OF THE WELLS

would be but a small item, and then if it was found that the supply was inade-quate the suction service could be run into the lake, and as the Michigan man An Interesting and Meaty Letter From naively put it, "You'd have old Lake Huron to fall back on, and she wouldn't give out-well, not for some time, any-heow." He endorsed Engineer Chipman's report except in the matter of the standpipe, and said, "I don't know Mr Chipman, but from reading his report would say he was a pretty smart young man. He's got a splendid, good head on him, and I think he's smart, although I take issue with him on this point." He

also said that ENGINEERS WERE LIKE DOCTORS

-they often got into ruts and found it difficult to work out again. He believed if the suction pipe were carried out by the side of the south pier some 1,400 good quality. ANNUAL FAIRS.—This N.W.T. is well or 1,600 feet it could be economically represented with fall fairs, both along constructed on account of the protection which the pier would afford; and if it were so laid, it would be found that the water obtained at that distance from the
