

Hi-PO Waterproof Dry Batteries

PRACTICAL EXPERIENCE, during recent years, has demonstrated that dry batteries, if properly constructed and protected, are ideal for ignition purposes.

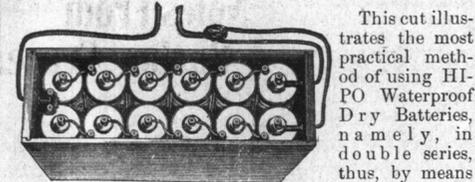

These two essential qualities are combined in the HI-PO waterproof dry cells.

It is a well known fact that the old-type zinc-cells are short-lived when exposed to moisture. Water and dampness have not the least effect on the HI-PO waterproof dry batteries, which can even be left standing in salt water without risk of short current.

Owing to the new patent process under which they are manufactured, the HI-PO waterproof dry cells are protected against all outside influences, each individual cell being built up and sealed in an insulated case.

The HI-PO waterproof dry batteries are used with absolute safety on land, on water and in aerial navigation; they are suitable for any work in any climate.

The HI-PO waterproof dry cells have a much longer life and give more service, size for size, than any other battery made.

This cut illustrates the most practical method of using HI-PO Waterproof Dry Batteries, namely, in double series, thus, by means of a switch, one set is allowed to recuperate, while the other set is in use. (Repair Dept.)

THAT PETITION FROM BAY BULLS.

Editor Evening Telegram.
Dear Sir,—My attention was drawn to an item in one of the papers last week referring to a petition got up some months ago on behalf of Dr. Giovannetti and which was signed by two Parish Priests and a large majority of the voters of the two parishes. I am told there was a reply from some sympathizer of the Government (if not the party, most concerned) in which some reference was made to fees. It was also stated the petition was not sent to the members.

Now, while I do not wish to dabble in a newspaper controversy, I consider, however, some light should be thrown out on the matter of the said petition.

Nearly three years ago, Dr. Giovannetti came to this district at the request of our Priest, and with high testimonials. He was commended to the people by the priests of both parishes. What was ever done on the shore worth noting that our priests did not take the initiative in and in the matter of the doctor everyone knows that it was sympathy with suffering humanity and charity, of which politicians know not the shadow, that prompted them to secure a doctor they could commend to the

Got Father Morriscy's "No. 10" Just in Time To Save His Life.

Mr. Aylward's letter tells the story: Campbellton, N.B., Feb. 5, 1909. Father Morriscy Med. Co.
During the winter of 1907, while travelling on the Gaspé Coast, I contracted a severe cold which settled upon my lungs.
After I returned home I wrote to Father Morriscy explaining my case. I received a letter from him with a prescription for his medicine, which could not be filled at the time here. After one week's delay I received it, just in the nick of time to save my life. After one month's use I felt like a new man.

Yours truly,
Jno. Aylward.
There is not much time to lose when a cold settles on the lungs. Pneumonia kills within a week. With Father Morriscy's "No. 10" at hand, you don't even have to wait for a doctor. "No. 10" cures all throat and lung troubles. It is a real Lung Tonic, and fortifies against future attacks. Trial bottle 25c. Regular size 50c, at your dealer's, or from Father Morriscy Medicine Co. Ltd., Chatham, N.B.

people and uphold in his practice. It was evident to them and every one else that the income from his practice in a small district would not be sufficient inducement to retain a first class professional in the face of better opportunities; so matters were represented to the Government, and the office of Magistrate was given the doctor with a small salary. This, remember was no new creation. The appointment was valuable from a public standpoint as it gave the doctor an opportunity to enforce his views on matters relating to public health, as also to see the law carried out where people as well as their property were more or less a source of public injury.

This appointment was absolutely non political, made at the request of two parish priests, and recognized by every man of intelligence as done in the best interest of the public.

Matters were progressing satisfactorily until a conglomeration of old Tories and Liberal deserters decided to join their fortunes in a new venture under the title of the People's Party. No sooner had Mr. Cashin secured a fat salary as Minister of Finance, with the coveted title of honourable, then he set to work to clear out of office every one who dared have the courage of his conviction in the late political campaign, with characteristic disregard for the personal feeling or civic rights of either priests or people. Such action was not alone vindictive, but unjust, cruel, and tyrannical, unworthy a man with any claim to honor, or one spark of philanthropic regard for the people who elected him. In the turning out of the doctor especially there was a haughty, disdainful, domineering piece of acting worthy only of a man that can hate an honest opponent, and abuse his power to crush him. In the effort to kill Giovannetti the object was evidently to trample on all opponents—priests and people—even the innocent should suffer with the guilty.

Although the council that cancelled the appointment was largely composed of members of the late Government were not so pliable to Mr. Cashin's wishes in the case of an old postal servant marked down for slaughter, the worthy aspirant to his job has to wait (on Executive responsibility), but twenty-three hun-

dred people and their spiritual leaders must be sacrificed to the humors of a nabob.

The writer is aware that unavailing efforts were made to bring about an amicable settlement, but the people were to learn that they had elected not a representative, a servant, but a cruel tax master.

On December last the matter of the doctor was again taken up in the churches of the two parishes on a certain Sunday, and the whole question lucidly thrashed out, making it doubly clear that this was at no time a political matter; that as the doctor was dismissed by the Government, it was in order to again approach the Government by petition by every free and independent voter from Cape Reddick to North Head. This was done by every man who had the courage to openly call his soul his own, or who was not actuated to oppose by some political or other spite.

The writer who signed himself "Main Bridge" says the petition was not given to the members. I have made enquiry into the mode of procedure, and think due etiquette was observed in the case. Does "Main Bridge" imagine that the whole people of Bay Bulls and the other settlements are such a lot of lick spittles as he may have found in some individual cases, or that with cringing canine servility we are prepared to kiss the toe that kicks us. Humility is a virtue, but craven, supplicant cowardice is unworthy a man. Let me inform "Main Bridge" and the public generally, that the petition in question was sent to the Governor in Council through Mr. James Kent, and that a copy of same was forwarded by him to Mr. Cashin, and his support to the prayer of the petition solicited he being a member of the Executive.

As far as I can learn he took no action on the matter—consistent to the policy of crush. I am also aware that at an opportune time the Premier was approached in the matter, but it would seem that the power of procrastination was resorted to, as Mr. Kent was obliged to ask in the Assembly if any action had been taken on the petition, when he was told that the matter was under consideration: to the Greek Kalend I suppose. These are the dry facts of the situation, but there are facts bearing upon the doctor's case not, may not be, quite so dry should occasion call them forth.

"Main Bridge" complains of the doctor's fees, and advises re-adjustments of rates and mileage for Bay Bulls I suppose. The fact of the matter is that the doctor's charges are less than in similar cases elsewhere; he does not push people, and in many cases makes no charges. Everybody knows that there are people to be found who like the doctor's pills but who cannot relish his bills; and "Main Bridge" may be one of that stamp.

Now, in point of population, sound standing, and commercial importance, this portion of the Ferryland District is in no way inferior to the more favoured section. Bay Bulls had a Doctor and a Magistrate long before Cape Broyle. Ferryland was always regarded as being somewhat aristocratic, drawing its prestige from the fact, no doubt, that it once was distinguished by the residence of a "live lord." It may one of these days rank in importance with the "Guy Colony." However, for years past it has been the fortunate possessor of a medical official who dispenses justice with his drugs at the measure of 375¢ a year. Bay Bulls has no such privilege. It may be that we are such a law-abiding people, though there may be a scattered pane of glass broken, and a little smuggling done by a few of the more spirited element, and therefore any ordinary citizen who may be able to scratch his name in hieroglyphics can settle our disputes with equity. It is a slight upon Bay Bulls to be thus treated. We have taxation without fair representation. This is an important seaport town and should have a medical officer and magistrate combined, whose known qualifications would give confidence in both his dispensaries. Dr. Giovannetti is eminently qualified for such an office.

Laid Up With Lame Back

Pain, helplessness and suffering are overcome by DR. CHASE'S KIDNEY-LIVER PILLS.

Mrs. Frank Bloom, Hardwood Lake, Ont., writes: "I want to tell you of the great benefit I found in the use of Dr. Chase's Kidney-Liver Pills. I suffered so badly with kidney disease that when I lay down I could not get up without help. I was completely laid up with lame, aching back. I read about Dr. Chase's Kidney-Liver Pills in the almanac, got them, and they cured me of kidney disease and backache."

"My husband had dreadful pains in his sides and obtained cure by using Dr. Chase's Kidney-Liver Pills. These pills are the best on the market, and I am glad to recommend them."

Dr. Chase's Kidney-Liver Pills are definite and certain in action, relieve the liver and bowels as well as the kidneys, are lastingly beneficial and economical. But to obtain these results you must get the genuine Dr. A. W. Chase's Kidney-Liver Pills. One pill a dose, 25 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

Vapo-Cresolene

Established 1879
FOR WHOOPING COUGH, CROUP, ASTHMA, COUGHS, BRONCHITIS, SORE THROAT, CATARRH, DIPHTHERIA

Vaporized Cresolene stops the paroxysms of Whooping Cough. Ever dreaded Croup cannot exist where Cresolene is used. It acts directly on nose and throat, making breathing easy in the case of colds, soothes the sore throat and stops the cough. It is a boon to sufferers of Asthma.

Cresolene is a powerful germicide, acting both as a curative and a preventive in contagious diseases. Cresolene's best recommendation is its thirty years of successful use.

Loomis, Miles Co., Limited, Agents, Montreal, Canada.

In my opinion, if the men who signed the petition in question felt as I do the indignity that has been flung at us by our so-called representatives they would assemble in their strength from every settlement the next time Cashin passes through, and demand from him, as the trustee of their rights, a satisfactory answer to that petition. We are paying our share of the revenues from which Mr. Cashin draws his big salary and "pickings," and even now many of his erstwhile supporters are leaving our shores while he is letting off gas on the prosperous state of our finances. What a pity he could not congratulate himself on the success of the seal-fishery.

I must apologize for the length of this letter, but I wanted to give an outline of the situation as I view it. It may so happen that I should have to take up points therein another time, I would prefer not, but should I be drawn into the fray I would remind "Main Bridge" that I have lots of ammunition and that I am a "dead shot." The only just settlement of the question at issue, and the only one that will satisfy the public is to appoint the doctor medical health officer with sufficient salary for the discharge of his important duties. It will be money well spent (and for which there is already precedent), it will show that the people responsible to us have some sense of their obligation, and that they recognize that they, though supreme here for a little while, will be some day amenable to a higher law than that which is founded on the whims of a people.

Least suspicion for this letter should be cast upon the Doctor or the clergy, I beg to say that none of them know anything of its authorship. I will answer no silly comment, nor enter into any matters of a private character. I shall deal with the Government (who ever it may be) as a public servant and await the impartial judgment of the public on the merits of the case. Thanking you, I remain yours truly,
JOHN CULLY.
Bay Bulls, April 5th, 1910.

HER BABY HAD ECZEMA.

Mrs. F. Clarke, Belmont, Man., writes: "My baby had eczema on her ear. The sore was very bad and nothing seemed to help her. Hearing of some remarkable cures Dr. Chase's Ointment had made we began using it and with the third application the sore began to heal. The cure was thorough and complete and we give all credit to Dr. Chase's Ointment."

Rifle Club Meeting.

The Rifle Club met last night and elected their officers, viz.—R. G. Rendell, President; J. W. Morris, Captain; T. McNeill, Vice Capt.; W. Rendell, Secretary; W. J. Higgins, Treas.; R. G. Winter and N. Alderdice, Auditors. The committee will consist of: J. C. Parsons, J. F. Murphy, J. March, W. Greene, Geo. Garty and E. Macnab. The reports of the Secretary and Treasurer were submitted and indicated a prosperous status of the club. The Daily Mail Shooting Competition was discussed. The event will take place on Empire Day.

St. Bon's Dance.

About three hundred people attended the dance held by the ladies of St. Bon's Association at the British Hall last night. The event was a great success financially and socially. The ballroom looked very attractive, thanks to the Newfoundland Highlanders who allowed their decorations to remain up. The T. A. band furnished the music in good style. During the evening refreshments were served by the ladies in charge. The full programme consisted of 20 dances, including waltzes, quadrilles and lancers. The affair was kept up till 3 in the morning. The ladies who worked so indefatigably to make the gathering a success were Mesdames McKee, Flynn, Channings, Duchemin, Ryan and Kelly.

ST. ANDREW'S SOCIETY—A meeting of St. Andrew's Society took place in the Presbyterian Hall last evening for the transaction of special business.

"Shannahan" Wants a Large Attendance.

There will be a concert in the T. A. Hall Friday night to help out the poor blind organ man—to assist the man who helps to make your life and my life easier; for how often does his tune help to drive away that attack of the blues which you had before you turned the corner. Don't say you can't come to this concert; for if you can't come you can send some one else. Hard cash counts in helping people out in this world, and goes a great deal further than an hundred and one "poor fellows." We don't want pity, we have that on deck already. We want money, and we promise you the worth of your money if you come. This is a grand chance, for you can be charitable and get the worth of your money at the same time. Remember Friday in the T. A. Hall, and bear in mind it is going to be a grand affair.
TIM SHANNAHAN.

Asked About Kite.

Mr. J. S. Munn of Bowring Bros. wired Forteau yesterday forenoon asking if the Labrador had reported anything of the Kite. The following reply was received at 5 p.m.: "Labrador reports three steamers in patch. Names not given." As the Kite was reported to be in company with the Labrador, it is hoped that she is one of the steamers alluded to and that she will pick up a good trip.

Scalded on Eagle.

A young man named Pendergast, of St. John's, a fireman on the Eagle, had both of his feet scalded Monday last. One of the tubes in the boiler became leaky and the scalding water gushed out on him and he narrowly escaped more serious injury about the body. He was attended by Chief Engineer Alex. McKimley, and after arrival Dr. Tait was summoned to the ship and attended him, after which he was driven home.

I. O. G. T.—The weekly meeting of Onward Lodge will be held at the Od-fellows Hall to-morrow evening at the usual time.

FLORIZEL'S TURN-OUT.—Up to 6 p.m. yesterday the Florizel had landed 10,920 young harps. The total landed up to that hour was 30,660 seals, weighing 678 tons.

The D.L. MENTHOL PLASTER

CURES every sort of Muscular pain, such as Sciatica, Stitches, Cricks, Twinges of the Muscles, Lumbago and Headache. Don't throw away money for worthless imitations, by unscrupulous makers. Get the genuine.

Each plaster 25c. In an air-tight tin box, 1 yard roll \$1.00. Mail order upon receipt of price, or sample for 5c.

WE GUARANTEE that they will relieve pain quicker than any other plaster.
