Miss Parsons has been Department of the Colonial Secretary, ill of late, and came home to enter the General Hospital, St. John's, first opportunity. Her many friends are sorry to learn that she has been compelled through illness to give up teaching, and especially in view of the fact that 19 of her pupils were studying to sit for the coming C.H.E. Exams. We hope that 'ere long she will be quite well again.

Mr. Theophilus Hart of Lady Cove, T.B., spent to-day in town.

W. S. Goodwin, D.D.S., who was ou of town for a few days last week, is now home again.—COR Hr. Grace March 22, 1923.

Royal Wedding Simplicity.

Princess Mary set quite a new fashion in royal weddings. Tradition has taught us to expect on such an occasion a resplendant pageant of stately lords and lovely ladies, arrayed in all the pomp and dignity of Court dress and coronet. The setting of our Princess's nuptials, however, struck an altogether different note, for typical of Royal considerateness and sound commonsense, in view of treacherous wear ther conditions, the order had gone

forth that morning dress was to be

Thus, for the first time in history, women attended a Royal wedding in Westminister Abbey in hats and dresses. Not only did the distinguished event establish a precedent, but it will also usher in a new era in the ashion world, since the styles fav oured will reflect the exalted bride's own simplicity of taste and love of quiet colour and effect. This revolutionary der, issued officially by the Dean of Vestminister, places all women on an equality never before enjoyed in the istory of the land.

Got No Sleep

the pains have ceased, the nervous of this letter pays a grateful tribute to the medicine which made him

Mr. John Woodward, P.T.O. Lucan, Ont., writes:

Lucan, Ont., writes:

"It gives me much pleasure to recommend Dr. Chase's medicines, especially the Nerve Food. I was a sufferer from neuritis for several years, and tried all kinds of remedies, yet never seemed to get any better. At last my nerves and whole system, seemed to give way through not being able to get any rest or aleep at nights for pain, which mostly used to take me in all parts of the limbs and feet. My nerves would twitch till my whole body would seem to jerk right up as I lay in bed. Almost at the point of despair, I decided I would get Dr., Chase's Nerve Food, which I did, and after taking twenty boxes I believe myself almost normal again. I also keep a box of Dr. Chase's kichey-Liver Pills on hand, and for the past year I seem to enjoy my usual health."

A Plea for

Editor Evening Telegram. Dear Sir,-Nothing has appeared in great interest and hope were arroused

(Vital Statistics Department), to be ed for, in all conscience, Newfoundland needs the development of all possible resources, and abundant employ are there not many other countries interested very largely in fishing, but at introduce any and every enterprise that would tend to the betterment of

such countries.

that, unless a greater disposition on the former Board, retired. Mr. Edgar the part of our young manhood in that direction is shown, Newfoundland will find it absolutely necessary to face the situation squarely, and see to it that her natural resources are fully developed and that all possible encouragement is given canitalists who are prepared to introduce such industries as will make her future sure. The idea of "what was good enough for my father is good enough for me" has too long been accepted in Newfoundland, and as a result we have never made any serious effort to do better. For one thing we have never; in all the years, tried to enlarge our borders. We have settlements dotted here and there all around our coast, but with the exception of Grand and Bishop Falls, the whole interior of our country, which offers such splendid possibilities, is left to the bittern and the owl, and to the roaming herds of wild. idea of "what was good enough for my owl, and to the roaming herds of wild

We do not wish to make the ridicul-We do not wish to make the ridiculous claim that Newfoundland is an
agricultural country, par excellence,
but we do believe she possesses an
abundance of good land, which, if properly handled would put the business
of stock, hog and poultry raising beyond peradventure, and this, when
coupled with our fisheries and such
other industries as are practicable,
would hasten the day when our population would be a happy million, spread
over the entire country, instead of a
few thousands scattered along the sea
coast.

Coast.

It is really encouraging to hear reports of mineral finds, at various places around the country, but unless our faith in our mineral possibilities is increased, and unless we drop our
