The Conquering Camera.

The camera is obviously the conqueror to-day, for photography plays a wonderful part in bringing East and West together, and the pictures of scenes and personages far removed from the ken of the average man and woman have been brought right home and placed on their tables and in their book-cases, so that at any leisure moment they may take a peep into the hitherto unknown, to them, and visualise for themselves the beauties and splendors of foreign capital cities, their buildings and suburban surroundings, and note the quaint costumes of Oriental as well as Occidental people and races. But it is the camera of the moving picture man that is the real means of showing living pictures, and reproducing from life scenes that move on the screen. Men and women of the past kings, queens, warriors, statesmen, philosophers, prelates from the very pages of history are reproduced by the camera and when filmed are projected on the screen, and live, move and have their being as it were, in full sight of audiences who are more or less familiar with them through the printed word of history as it is in book form. Ancient and modern personages and episodes are all alike to the moving picture producer. Does he want a film from ancient times? He gets to work and employing an army of writers, artists and actors, begins the reproduction of the particular scenes which go to make up the picture required, whether it be the Fall of Man or the Siege of Jerusalem by Titus and his Roman legionaries. History, whether profane or sacred has many attractions for the multitude in the printed word, but to see all the characters portrayed pass in review before the eye on the screen is surely the ne plus ultra of education. No country is so sure of itself or its future, which does not need a bit of advertising. And so the camera man has come to be the educator of the universe. He packs his outfit from the frozen regions of the Arctic circle to the torrid zones of the equator. No mountain is too high, no forest too dense for his passage. By land and sea, braving perils and dangers, he pursues his educational way, and from the terrae incognitae he brings back information backed up by real photographs, which have more value in their purpose as educational factors than half the text books now in use. For the eye of the camera is a faithful recorder. True, pictures are often faked, with a view to concealing something that it may not be judicious to show, or maybe to impress something very important and seemingly impossible upon the human mind. But when all is said and done there is something so attractive about the modern photoplay, modern in the sense that it is practically a new

science, that draws the mind, and the mind directs the body and the body receives orders to go along, in order that the eye might see and the mind retain the wonderful phases of life as shown on the screen. As an institution the screen theatre has come to stay. Why not then make use of it, within limits, to advertise a country. Merchants are not above having illustrations of their wares thrown on the screen, for which they are delighted to pay. Countries need not fear to have their harbors, rivers, lakes, forests, towns, industries shown in like manner. In this way millions who have not known will be benefitted and educated, no less than the country which makes up its mind to this end.

Telegram Made the Announcement

CAPTAIN JONES'S APPOINTMENT FORESHADOWED.

A Labrador correspondent in today's issue of the Morning News states that "Captain George Jones has been appointed Magistrate of Labrador, and the Telegram had, in making reference to the sailing of the Senet omitted mention of this fact." If the Labrador correspondent will look up the Evening Telegram of issue, Wednesday, June 21st, he will find the following amongst the personal items: "Capt. Geo. Jones, M.H.A., has, we understand been appointed Judge for the Labrador. It is probable that the general captain will sail by S.S. Senet to take up his duties."

The Child Welfare Association is planning a motor drive on Saturday afternoon, July 29th, for some of the mothers and children attending the Health Conference. Will those who are willing to lend their cars kindly send their names to Miss Parker, Garrison Hill.—July 20, 21

Kyle's Passengers.

The following passengers arrived at Port aux Basques at 7.05 a.m. today and are now on the incoming express due in the city to-morrow: F. S. and Mrs. Gregory and son, Miss L. C. Yettman, Miss G. Reader, A. and Mrs. Cooper, Mrs. W. Taylor, Mrs. G. Manning, W. W. Simmonds, Mrs. C. F. Maddock, Mrs. John Young and daughter, Mrs. M. O'Brien, P. Tracey, W. and Mrs. Read and 3 children, Mrs. E. Repey, A. Barnes, W. R. and Mrs. Menchions, H. Newbury, Miss L. Crake, Miss E. Crake, F. W. and Mrs. Davis and Mrs. R. Wareham.

Many Trippers.

Forty round trippers have so far, booked passage on S.S. Portia, which leaves port to-morrow evening and will go as far north as Gazy, calling at Twillingate, Battle Harbour and Pack's Harbour. The Portia goes first to Twillingate with 3000 hogsheads of salt and from there will go direct to Battle Harbour. On her return trip the ship will bring 200,000 lbs. of fresh salmon to the Cold Storage Company. Mr. Tipping of the Newfoundland Atlantic Fishery's Company, is a passenger on the ship.

Wireless Man Returns.

TWO STATIONS DISMANTLED.

Mr. J. J. Collins, local agent of the Marconi Company, has returned from a month's tour of inspection which embraced Cape Ray, the Straits of Belle Isle and Battle Harbour. Mr. Collins left St. John's for Cape Ray, where he met Mr. H. A. Coade, Canadian Government Wireless Station Inspector. The Cape Ray station has been closed down and Mr. Collins took an inventory of the apparatus then, after which the station was dismantled. The apparatus was shipped to Point Amour. At Point Riche also, the wireless station was dismantled and the apparatus shipped to Point Amour. Mr. Collins and Mr. Coade stayed some time at Point Amour, where they reinstalled the Cape Ray and Point Riche apparatus. This is now the connecting station with the Straits of Belle Isle. There are three operators at Point Amour, Battle Harbour, which is a Newfoundland station, was visited by Mr. Collins alone. He inspected and overhauled the gear, which was improved last year. Before that time, messages had to be relayed from the Straits of Belle Isle, but now there is direct connection with Foggo. Mr. Collins reports good fishing in Northern Labrador and in the Straits. Very little is being done at Battle Harbour. The weather is bad, and while at Point Amour, he experienced 65 hours of continuous, dense fog.

S.U.F. CLUB—A meeting of the Club will be held on Saturday night at 9 o'clock. All members are requested to attend. WM. MUGFORD, Sec.—July 20, 21

C. L. B. Camp Notes.

BRIGADE TRAMPS TO TOPSAIL.

The C.L.B. Cadets annual Camp at Topsail opened yesterday, and will end on July 28th. The first St. John's detachment, numbering over eighty N.C.O.'s and lads, headed by the bugle band, left the Armoury at 10.50 a.m. under the command of Lieut. Colonel K. F. Goodridge. Major R. H. Tait, M.C., Capt. A. S. Lewis, Lieut. H. C. Hayward, A. B. Perlin and R. G. Ash accompanied the Battalion over the road. Fortunately the morning was cool and there was no dust, so that good time was made in marching the 14 miles from the Armoury to camp. A short halt was made near Brookfield, and another at "Corona," the residence of Messrs. John and Fred Davey, where refreshments were served to the Brigade. Before leaving "Corona" Lieut. Col. Goodridge thanked the Messdames Davey and the ladies who assisted them, for their kindness. It was especially good of them as they had been helping at the Garden Party on the previous day. He called for three cheers, which was given with a will. After another short halt at Octagon Pond, the Brigade proceeded on to Topsail, where they arrived at 4 p.m. The pioneer squad had been working all morning and the tents had been erected, and the cooks were preparing for tea when camp was reached. The tents were transported from the C. of E. Orphanage grounds on Wednesday night under the direction of Lieut. F. Reid, and the fact that they were erected when the Battalion arrived is an excellent tribute to the work of the Pioneer Squad, which was under the supervision of Lieut. Mott, Capt. Quartermaster, and Lieut. Reeves. A detachment of 25 Medical Officers, A detachment of 25 French and Lieut. Mercer, arrived on the "Pawnee" during the afternoon, and Major Lindsay of Bell Island also came to camp with a small detachment from the Wabana Company. Lieut. Col. Goodridge and several other officers returned to town after tea.

The regular camp routine will be followed from to-day, and by this afternoon the camp grounds will have taken on that appearance of scrupulous neatness which marks the arrival of the Brigade. Paths of whitewashed stones will be laid out and the Brigade badge will be made in painted stones. Capt. George House is Camp Adjutant and Acting-Commandant in the temporary absence of Capt. C. E. A. Jeffery. An excellent programme has been planned for camp week.

On Sunday there will be morning Church Parade, a Drumhead Service in the afternoon, and a Band Concert. Friends of the Brigade will be invited to visit camp and have afternoon tea. It is expected that practically all officers will be in camp for this day. There will probably be an all-day visit to Bell Island Wednesday, when the Brigade will be the guests of Wabana Company. Last year, a similar excursion was made, but only for the afternoon. This year Major Lindsay and Capt. Miller will have an all-day event, and games and other forms of entertainment may be arranged.

It is hoped that His Excellency the Governor will be able to make his annual inspection of the Brigade at camp on Thursday afternoon. The Camp Sports Day has not yet been decided. This is always looked forward to by all ranks. From all appearances, the 1922 Camp will be the most successful ever held.

Mothers

are asked to bring their children from the age of one year to ten years to the Health Conference, at the Community Nurses' Rooms, in the Board of Health Building, Duckworth St., on the afternoons of Monday, Tuesday, Thursday and Friday of next week as soon after 2 o'clock as possible. Please bring small blanket, shirt, or gown to put round the child when undressed.

Monday—Children from Adelaide St. West.
Tuesday—From Adelaide Street to Prescott St.
Thursday—From Prescott Street to Signal Hill.
Friday—The Higher Levels.

CHILD WELFARE ASSOCIATION.

July 20, 21

To Enter Novitiate.

Master Bernard Galway and William Connors, who are entering the Provincial Novitiate of the Irish Christian Brothers at Westpark, New York, leave by the Rosalind to-morrow. They will have a four year term of the secular and religious training of the Order.

H. B. THOMSON,

Opt. D., C.D.,

Optometrist and Optician.

has resumed practice at his office, 336 Duckworth Street. Hours: 10 to 12.30, 2 to 5.30.
For appointment phone 805.
July 19, 21

MINARD'S LINIMENT USED BY VETERINARIANS.

In the Realms of Sport.

Old Homer wrote a rhyme or two which won him lasting fame. But he never homed a homer in a red-hot baseball game.

Now we'd sooner have Mike's homer than all that Homer wrote. For Power homed the homer That got Joe Murphy's goat.

They played real baseball again last night, and the fans got lots of thrills. A five inning doubleheader was the card and consisted of the Mount Cashel preliminaries.

The first clash was between the Lions and Wanderers. The only new face we scanned in the lineups was Myra Keener's, who, in the early days of the game used to backstop for the Shamrock the year they won the championship.

Nothing happened in the initial frame, but the Lions cut loose with their big sticks and at the end of the fourth had 7 runs scored down. Things therefore looked rather nice for them.

But here's where the uncertainty of baseball comes in. When William held them hitless for three innings. Clouston's gang kept their pecker up still, and in the fourth shoved across 2.

A stern chase is a long chase, and a 5 run lead with only an inning to go is almost hopeless—but not quite, as was proved when the Wanderers started banging Walter all over the lot, and before the riot could be quelled they had tied her up.

Churchill had now replaced Donnelly, and when the extra innings started the Lion sluggers could not stir him.

The Wanderers on the other hand now seemed to have struck their batting stride, and they mauled the old spheroid again for a tally of 3.

The score by innings was:—
Wanderers... 0 0 0 2 5 3-10
Lions... 0 1 2 0 0 0-7

The second bout was between the Cubs and B.I.S. and produced the finest exhibition of baseball seen here in years.

There were only two errors, and one of these was really a fielder's choice. Both fields were airtight.

It was practically a pitching duel between O'Leary and Joe Murphy, but the former had all the honours with 9 strikeouts to the latter's 5.

In the third O'Leary pitched nine balls, retiring three men, thus working the 1-2-3 stunt.

The Cubs started things when O'Leary walked Gossie. Bill ambled to third, and when Stan tumbled over he flashed across the plate, for their only score for the evening.

It was not until the third that Mooney scratched, and O'Donnell's single brought him in.

The beginning of the fifth found the score tied. The bad men of the Cubs came up, and two of them perished on the sacks when their team-mates vainly swished the ozone at Stan's offerings.

The Irish turn found Mike Power at the plate calmly waiting as Joe wound up his lanky frame. The next moment the ball was sailing up near the western goal posts away over the heads of the outfield. Mike laid down his flats a la Fred Phelan, and was safe a mile before the ball got in.

Besides putting the game on ice, it was the first home run of the season, and a dandy at that. Anyone partial to Bell Buys should shake Mike's mitt as he gets 500 of them to-day for his stunt—and he doesn't smoke.

Following this, O'Leary was safe on Constantine's error. Jimmy Power singled, and they worked a double-steal, with Power sacrificing.

The score by innings was:—
Cubs... 0 0 0 1 0 0 0-1
B.I.S... 0 0 0 1 0 2-3

A return cricket match between the Shamrocks and Fieldians has been arranged for to-morrow afternoon, starting at 2 o'clock sharp. Undoubtedly there will be a large attendance there to see the old time champs seeking revenge for the trimming the college old-boys gave them when they last met. The following will be Shamrock eleven:—Tom Ryan, Ned Furlong, P. Wallace, Mike Finn, Pat Berigan, J. S. Keating, E. Morris, Jerry Savage, Ned Power, Dug French and Billy Wallace.

The Saints and C.E.I. are the opposing teams in to-night's footer game, and a good clash is looked for. The C.E.I. have called out the Land-sturm and Smith, Churchill and Stick-

are looking for places. There will be no changes in the Saints' line-up.

The golfer swings with murderous club. On Valley, hill, and glade. Far better off the Links would be if he but used a spade.

Jack Bell arrived in Dublin yesterday.

CAPT. STEELE'S TIME.

Our correspondent Onlooker sends us the following for Realms of Sport Column:—

"In last night's issue of Evening Telegram commenting on the record for the mile walk (6 minutes 22 secs. held by George Cummings, an English professional) you state that Harvey Thomas claims that the late Captain Owen Steele walked the first mile in 7.32 the year he won the 30 mile walking match. Can anyone verify this? It seems a remarkable performance, inasmuch as the first mile from the old St. Andrew's Clubrooms (L.O.A. Hall) is all up hill."

Referring to the said walking match of 30 miles, on rough country roads, up and downhill, round Twenty Mile Pond which the late Capt. Steele covered in the record time of 3 hrs., 13 min. and 37 secs.—full distance—he made the first turning point (Robinson Hill) 1 1/4 miles from the start in 8 mins. 35 secs., or 10 seconds faster than the previous year's time. This is according to the official report of the match as contained in Evening Telegram of June 17th, 1909. The late George Down's finished second in 3 hrs., 15 min. 14 secs., and Captain Steele's brother James third 2 1/2 minutes after Downs.

Possibilities of Radium.

PRODUCING POWER FROM WATER.

Two somewhat remarkable statements about new possibilities of radium have been made in the technical world. One of these is the possibility of producing power from water with the help of radium.

Water, if exposed to radium, is decomposed at a high temperature into oxygen and hydrogen, and by using the latter as a source of fuel, power can be obtained, and an internal combustion engine could be run from water alone. Under the influence of radio-active matter, more energy is obtained from the water than that required to effect its decomposition. Such, at any rate, is the claim of a German patentee, whose patent has been granted.

The production of synthetic compounds from the air is a discovery made by Mr. F. Harrison Glen, the radium expert, who has found that it is possible to form organic compounds from the moisture and carbonic acid in the atmosphere. The quantities of synthetic compounds produced by radium are, of course, extremely small, and their formation very slow, as was the case with the first products made by photosynthesis—i.e., by the action of certain rays of light.

Mr. Glen thinks that increased production might be obtained by increasing the quantity of water vapour and carbonic acid in the air. But the establishment of a new science, that of radio-synthesis, has been opened up, the possibilities of which in the field of synthetic chemistry cannot at present be foreseen.—Daily Mail.

MOSQUITO OIL at STAFFORD'S Drug Store; only 20c. a Bottle; Postage 3c. extra.—June 27, 21

The Irish turn found Mike Power at the plate calmly waiting as Joe wound up his lanky frame. The next moment the ball was sailing up near the western goal posts away over the heads of the outfield. Mike laid down his flats a la Fred Phelan, and was safe a mile before the ball got in.

Besides putting the game on ice, it was the first home run of the season, and a dandy at that. Anyone partial to Bell Buys should shake Mike's mitt as he gets 500 of them to-day for his stunt—and he doesn't smoke.

Following this, O'Leary was safe on Constantine's error. Jimmy Power singled, and they worked a double-steal, with Power sacrificing.

The score by innings was:—
Cubs... 0 0 0 1 0 0 0-1

Memorial Day

ST. JOHN'S, JULY 2, 1922.
Frigid stone, insensate brass,
For those who cried "They shall not pass!"
Yet these have passed, whose mortal clay
But waits a more enduring Day
Than brass or stone can give.

Sounding cymbal! Strident brass—
What does it mean to those who pass
Along Life's bright and blithe highway,
Forgetful of that brave array
Who died that we might live?

Ah, well! We hardly can forget
Those valiant souls who passed. And yet
The wounded, neither rich nor poor,
Find peace a harder fight than War!
Shall we not help them to endure
Life's Handicap and Live?

Frigid stone! Insensate brass!
Remember those who held the pass!"
"R." Bonavista.

Shipping Notes.

S.S. Rosalind sails for Halifax and New York at 1 o'clock to-morrow. S.S. Silvia leaves New York at 11 a.m. to-morrow for Halifax and here. S.S. Sabie I. arrived at North Sydney at 5 o'clock this morning and leaves again to-morrow at 2.30 p.m. for here.
Schooner Charlotte, 3 days from Grand Banks, arrived in port last evening.
Schooner Annie M. Parker is loading split herring at Tizzards Harbor for Halifax.
Schooner Loberge is loading herring at Twillingate for Halifax.
Schooner A. L. Frampton has arrived at Catalina from the Banks with only 5 qtls. codfish, after two battings. The vessel is out for McCormack and Walsh.

High and Low Test Gasoline at McKINLAY'S, Lime Street. July 11, 1911

The Kodak Developing & Printing Service

Gives you finished prints from your roll films in 24 hours, without fail.

When you're off for a picnic, or on your holidays, take your camera with you to "snap" the good times you have, the lovely bits of country you see, and send your films to us for development.

Our special apparatus ensures you the best possible results from your films. Our reputation ensures you the prompt service of which we make a special feature.
