Manchuria Sends an Ultimatum to Pekin Government

Troops Engaged Outside Shanghai Number
40,000--86 Perish in W. Indies in Last
Weeks Storm.

40,000 TROOPS ENGAGED.
SHANGHAI, Sept. 4.
Though troops estimated to number
40,000 battled throughout the day,
competent eyewitnesses declared to-
night that neither side had made any
material gain in the fighting.

AN ULTIMATUM FROM MANCHURIA
SHANGHAI, Sept. 4.
Chang Tsohlin, Military Governor
of Manchuria, has issued an ultima-
tum to the Peking Government, de-
claring that unless it stops its attack
on General Lu Yang Hsiang, Chang
himself will mediate by force, says a
Japanese news agency telegram from
Peking.

FALLING BACK ON SHANGHAI.
SHANGHAI, Sept. 4.
The Chekiang troops of General Lu
Yang Hsiang, engaged in defending
this city from the attack of the
Kiang troops of General Chi Shieh
Yuan, are falling back on Shanghai
to-day, according to reports from the
fighting front.

MACLAREN WOULD TRY AGAIN.
OTTAWA, Sept. 4.
"I would not mind having another
shot at it," Major A. Stuart MacLaren,
squadron leader of the abandoned
British around the world flight, stated
to-day on arrival in this city. He
attributes his failure to complete his
flight largely to delay in the first
stages of his trip. This delay resulted
in the flight across the Pacific Ocean
being undertaken at a period of the
year when weather conditions were
most adverse. "Only rotten luck was
our undoing," he declared. Major
MacLaren said he intended proceeding
to Boston to-morrow morning.

U.S. AIRMEN MAY CONTINUE
FLIGHT TO-DAY.
PITTSBURGH, Sept. 4.
The United States destroyer Cough-
lin reported to-night she had a spare
rear spreader required for Lieut.
Smith's machine, aboard, and was lying
in the lee of Henry Island, off Pic-
ton Harbor, for daylight. Late to-
night the indications were that fine

weather would prevail to-morrow.
The storm had subsided and the bar-
ometer was rapidly rising. It was
stated to-night that under ideal
weather conditions the planes could
be prepared for a hop off by ten o'-
clock to-morrow morning.

36 KILLED IN STORM.
ST. THOMAS, Virgin Is., Sept. 4.
Six persons were killed at St. John
and eighty were killed in the neigh-
boring small British islands during the
hurricane of last Thursday, according
to a resume of reports from the vari-
ous islands to-day. There was no
loss of life at St. Thomas, but prop-
erty damage was heavy.

GLOUCESTER FLEET SUFFERED
IN STORM.
GLOUCESTER, Mass., Sept. 4.
Only dories, wreckage and fishing
gear, scattered for miles in the waters
off this coast, now remain to bear re-
cord of the storm which nine days ago
brought damage and destruction to
shipping and which cost the lives of
four members of the fishing crews on
Gloucester schooners. A yellow dory
picked up by the steam trawler Ocean,
a dory's trawl tubs and fishing gear
sighted by the coastguard cutter
Acushnet, a ship's door, a vessel's rail
and a trawl buoy picked up by the
coastguard cutter Osage—these are
mute traces of possible further storm
damage, according to a report to the
Mayor of Gloucester.

Dr. Morgan's Arrangements

At a representative meeting of the
city clergy held in the Presbyterian
Hall arrangements were about com-
pleted for the visit of Dr. Campbell
Morgan, who arrives in the city Sep-
tember 15th from Sydney.

The first general meeting will be
held in Gower Street Church on Sun-
day afternoon, the 14th, at 3.30 p.m.
If the experience of other cities is
repeated there will be standing room
only. Rev. Mr. Godfrey of St. Thomas'
says that he has seen a queue a mile
long waiting to get into Dr. Morgan's
Church when the Dr. was a pastor in
London, England. The first Theatre
in New Glasgow, N.S., the largest
auditorium in Maritime Canada, was
crowded out at a first Saturday af-
ternoon service two years ago.

The Monday afternoon meeting will
be held in Canon Wood Hall. The
committee seem to think that that will
do, but the reporter warns them that
they will have to have the biggest
places in the city. However, the gen-
eral co-operation of all the Churches
is able to meet that situation.

Will Be Broadcast.

Modern science is going to co-oper-
ate. The evening services in Gower
Street will be carried by metallic
wire to the broadcasting station at
Wesley Church. From there they
can be heard anywhere in the island.
Moreover, if need be, an overflow
meeting can be held in any nearby
building and a loud speaker be instal-
led so that the College Hall or St. An-
drew's Hall could be filled and every-
one hear every word. No one need
stay away from the evening meetings.
In the same way a loud speaker could

A Pressing Invitation

Mrs. Sage had been spending the
day with Mrs. Mint. She had had
lunch and tea; and then, about six
o'clock she rose from her chair and
said she must be going home. Lit-
tle Muriel—Mrs. Mint's daughter—
had been very troublesome all day
long; in fact, so much so, that
Mrs. Sage had formed a very un-
favourable impression of her hostess's
little girl. However, directly Mrs.
Sage showed signs of moving, Muriel
went across to the visitor and begged
her not to leave until after supper.
"Why, dearie!" exclaimed good-
