Luxuriant Hair

Can only be preserved by keeping the scalp clean, cool, and free from dandruff, and the body in a healthful condition. The great popularity of Ayer's Hair Vigor is due to the fact hat it cleanses the scalp, promotes the growth of the hair, prevents it from falling out, and gives it that soft and

silky gloss so essential to perfect beauty. Frederick Hardy, of Roxbury, Mass., a gentleman fifty years of age, was fast losing his hair, and what remained was growing gray. After trying various dressings with no effect, he commenced the use of Ayer's Hair Vigor. "It stopped the falling out," he writes; "and, to my great surprise, converted my white hair (without staining the scalp) to the same shade of brown it had when I was 25 years of age."

Ten Years Younger.

Mrs. Mary Montgomery, of Boston, writes: "For years, I was compelled to wear a dress cap to conceal a bald spot on the crown of my head; but now I gladly lay the cap aside, for your Hair Vigor is bringing out a new growth. I could hardly trust my senses when I first found my hair growing; but there it is, and I am delighted. I look ten years younger."

Ayer's Hair Vigor by Mrs. O. O. Prescott, of Charlestown, Mass., Miss Bessie H. Bedloe, of Burlington, Vt., Mrs. J. J. Burton, of Bangor, Me., and numerous

others.

The loss of hair may be owing to impurity of the blood or derangement of the stomach and liver, in which case, a course of Ayer's Sarsaparilla or of Ayer's Pills, in connection with the Vigor, may be necessary to give health and tone to all the functions of the body. At the same time, it cannot be too strongly urged that none of these remedies can do much good without a persevering trial and strict attention to cleanly and temperate habits.

Ayer's Hair Vigor, Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Prof. Robert Wallace, professor of was ill. Davidson supplied her from griculture and rural economy in Edin-some stock he had on hand for private agriculture and rural economy in Edinburgh University, Scotland, atter four months' investigation of India the past summer, tells us that the fear of competition from this source has been and his worship construed this to be a largely exaggerated. He says it is a violation of the smistake to think that the Indian area \$50 and costs. in wheat will increase in the next ten years in the same ratio that it has the past five years. It will increase gradually, but the difficulties in the way will prevent any such development of exports as has caused so much alarm of late. The late rapid growth of the wheat crop has been due to the fact that much of it was produced on land previously occupied for some other crop. This substitution cannot go on much longer, for the teeming millions of that empire must have food to live on, and only in the newer parts of the country can the wheat area be much further extended. There are great difficulties of developing new sections in that country: First, because it is hard to get workmen to settle in new districts, and secondly, there is want of money and a want of the necessary extra supply of power, Again, since wheat requires reasonably dry land, failures must occur every few years in the moist climate of that country. A continuous growth of wheat on lands heretofore cropped with leguminous plants, such as clover, etc., is also tending to exhaust the soil, and the yield of wheat per acre is bound to diminish. Prof. Wallace concludes by warning people to beware of Indian wheat statistics, which are not compiled from returns made by practical wheat growers, and are based to a considerable degree on guess work. This report from so eminent and disinterested authority will be of interest to every wheat grower in America, as showing that Indian wheat is not to usurp the place of American wheat in the foreign market. -American Agriculturist for August. Advice to Mothers.—Are you disturbed at night and broken of your rest by a sick

FLOGGING A "DOCTOR."

WHITING GETS 25 LASHES.

riminal sentence in punishment of the orrible crime of assaulting a child was inflicted at the Central Prison Saturday, when an elderly man of short, bulky build, had 25 lashes across the bare back. The culprit was "Dr." Charles H. Whiting, of London, convicted of indecently assaulting his 11-year-old niece in the vicinity of St. Thomas a few months ago. He was sentenced to 23 months in the Central, with fifty lashes-twenty-five one month after he had entered and twenty-five one month

before he is discharged. The hour fixed for the first twenty-five was 10 o'clock this morning, one month from the 20th of June, the day after he entered the prison. At that hour there were gathered in Warden Massie's office a small tacked a Mrs. Everett on the street, group comprising Lieut. L. H. Irving and a half-a-dozen reporters. They, with the Warden and Deputy Warden Logan, awaited the arrival of Dr. W. T. Aikins, the prison surgeon, who arrived at 10:10, He was greeted at the door by the Warden, who escorted him to Whiting's cell, where he examined the convict. Five minutes later the Warden, looking the picture of a stern official in his fine blue uniform, reappeared and conducted the reporters and

of as to the place where such punishments are usually administered. The place is at the north end of the north wing where the iron-bound triangle of oak is lives out on the Longwoods road, Caradoc, and the little girl was out there fastened securely to the brick wall of the cell enclosure and to the cemented floor, The wing looked as neat as could be, but place, some three weeks ago. Mc-Warden Massie explained that it was not Clurg has been paying his addresses to a young girl in London, and it was by as neat as usual, because a gang of convicts were at work laying new floors of oak on the galleries facing the four tier of cells. A passing glimpse into the cells on the ground tier showed them to be scrupulously clean, with newly-washed floors and bed-

one bottle of extract of Wild Strawberry ding arranged most neatly. with summer complaint that I thought I would never get over it, when two bottles cured me." Mrs. E. Askett, Peel, Ont. When the small party reached the triangle they found it already occupied by the person of Whiting, who was being tied to Ex-Chief of Police Herrington, of it by Deputy-Warden Logan and a guard, Stratford, sent a letter from Port Huron, The convict, who is a short, stout man of Mich., recently to Mr. Henry, the hus-42 years has a criminal face, which bore band of the woman with whom he not the slightest indication of his possesseloped, denying all knowledge of the ing the intelligence and manhood of the permit to sell liquor to the C.
