MONTREAL, Que., April 17.—Fathers
Doyle, Smith, Otis and Pecklinger, of the
Paulist fathers, New York, concluded a

this city to-night. The mission has been
one of the most striking ever held in Montreal. During its progress over 5,000
people signed the total abstinence pledge

The fathers strongly denounced the Montreal civic authorities for their apathy in not enforcing the liquor laws. The denunciation was made in the presence of Mayor MoNagar and a number of promise. denunciation was made in the presence of Mayor McShane and a number of prominent city officials, and produced a great sensation. The effect was so great that Mayor McShane and other officials were led to sign the pledge.

A large sum of money was collected during the mission to assist in educating young Catholic missionaries at the Catholic University at Washington, D. C. FELL DEAD ON THE STREET!

Heart Failure the Cause.

The newspapers from time to time report sudden deaths from heart failure. Amongst those who die in this way are many business men. They too often neglect the nervous weaknesses brought on by overwork, close application and too little rest and sleep. The mind and brain, from great mental strain, often become unbalanced. Thousands of business men are sufferers from weak nerves, dizzy feelings, loss of memory, confused mind, palpitation, feelings of apprehension and insomnia. Continued worry and hurry make matters werse, and too often the victim of these ills is suddenly struck down.

This should prove a warning to all men who suffer from any of the symptoms mentioned above; the statements we make are surely worthy of earnest thought. Neglect of any one of these troubles often means a sudden death.

At this time, an honest opinion and a few Heart Failure the Cause.

P. SPENCE-PAINTER, GRAINER, ating a specialty. Moderate charges, 348 Ridout street. T. CORP-PAINTING, GLAZING, paper-hanging and house decorating, ford street. Telephone 758.

sudden death. At this time, an honest opinion and a few words of truth, all based on a long and varied experience, should suffice to guide every man who desires to avoid the terrible varied experience, should suffice to guide every man who desires to avoid the terrible consequences that result from a broken down nervous organism. No treatment known to science and medicine can give such satisfaction as Paine's Celery Compound. When this great remedy is used, nervousness, insomnia, unrest, dizzy feelings and weakness are soon banished, and the entire nervous system is strengthened. Flesh, bone and muscle are built up, and a glow of health is soon been in the face. The eyes are made clear and bright, the mind and brain are cleared, and man is fitted to do his work well.

The power of Paine's Celery Compound is most astonishing; and it cures in nervous ailments are so satisfactory, that doctors now regularly prescribe it. These great facts are so patent to the world, that it is needless to enlarge upon them just now; a word to the wise is sufficient.

CONTRARY TO THE CITY BYLAWS—
Shop-keepers and others are making a practice of distributing dodgers, depositing waste water, ashes and the sweepings of their shops and houses on the city streets and the Market Square, thereby making it impossible o cause the city to have a clean or orderly apapearance.

It is therefore requested that the public will refrain in every way from this practice, and assist in making the streets look clean.

Any infraction of the bylaws in this or any other respect will be strictly enforced and dealt with as the law provides.

W. J. EOOKBINDER,

CLAD TIDINGS.

Central America Contral America ciaims and loudly calls for Christian workers; we daily pray the Lord of the harvest to thrust forth labor.

the Lord of the harvest to thrust forth laborers into this part of his vineyard. But there are Christian workers already laboring in these parts. For nearly 40 years, in the little Protestant church at San Jose, the Gospel has been proclaimed. Several ministers during those years have resided there. At present the Gospel is preached and Sunday school work is carried on by two gentlemen from England who reside in the city. In our work among the Jamaica negroes, as a missionary society, we do not allow the question of color to come between us and our Master's command to preach the Gospel to very creature. As a matter of fact, we preach the Gospel to black, white and brown people here. After some years' residence in Costa Rica, while we find many people intemperate, we do not find them indolent. Costa Rica, while we find many people in-temporate, we do not find them indolent. Indeed, comparing them with the inhabit-ants of some of the islands around, they are an industrious people. In Nicaragua, the next republic to Costa Rica, at Grey-town there is a Protestant church, where the Gospel has been preached for years, and where we hope soon to see more done for the people's welfare. Along the same coast—at Buefields and all along the "Mosquito Coast"—our Moravian brethren have been —at Binefields and all along the "Mosquito Coast"—our Moravian brethren have been laboring for many years, and under God have done a splendid work. Hundreds have been brought into the Church of Christ. Their Sunday and day schools are working a wonderful change among the people. What we have seen we can testify. Then there are other places along the coast where the Gospel is occasionally preached by men from adjacent islands, who believe in letting their light shine. In British Honduras there are many missionaries faithfully at work pushing their way into the interior. In Costa Rica, at Port Limon, the center of our operations, amid much difficulty and opposition God has wonderfully opened our way; for four years we have toiled on, some 60 have joined our fellowship, and hundreds every Sunday listen to the Gospel preached. Five years ago we did not know two persons who were walking in fellowship with God. There was no missionary, no place Coast"—our Moravian brethren have God. There was no missionary, no place God. There was no missionary, no place for prayer. During the past four years hundreds of portions of God's Word, and many thousands of books and tracts in English and Spanish have been circulated. There are numerous openings for evangelistic work, including colportage work in these republics. We hope and pray that the Christian Church in the United States, is Lawise and Fauland will rise up to

in Jamaica and England will rise up to their duty and give the Gospel to Centra Melf-Benial and Missions. This little story of selfMissions. In the Melf of missions is told by Secretary Clark, of the American Board, in the Chicago Advance: "There is in one of our Massa. of the American Board, in the Cheege Advance: "There is in one of our Massachusetts villages a humble mechanic of limited income, who by careful self-denial is supporting a native preacher in Bohemia at an expense of \$150 a year, and who sent \$15 to Japan last autumn in response to a call from Dr. Davis for means to send out students for evangelistic work during their call from Dr. Davis for means to send out students for evangelistic work during their vacation. In order to save this last sum our good friend gave up purchasing a new auit of clothes, making the last year's do service for another year. The money was sent on, and the Japanese preacher was informed how the funds for his support were secured. He told the story everywhere he went, and stirred the hearts of many of the Japanese Christians to more earnest pur-

Japanese Christians to more earnest pur-pose and self-denial in view of such interest in their behalf.' A Chinaman's
Proposal.
A native Chinese preacher
has made a proposal which
the Chinese Recorder translates. It is that "all the ministers of the western nations at Peking unite in requesting the Emperor of China to send one of the
most intimate, greatest and most faithful
officers in person to the western portions of
China to examine fully the Roman Catholie
and Protestant Churches, as to their rites,
teaching and books. Let the Emperor then
send forth his royal decree explaining the
teachings and meaning of the missionaries
through all the eighteen Provinces, and
cause this imperial decree to be engraved
on stones and placed throughout the Provinces in every vamen, college, private western nations at Peking unite in request inces in every yamen, college, private school, public hall, in every village, market school, public hall, in every village, market town and city, and in every great ancestral hall." We are quite sure we would like to see the throne thus doing a good missionary turn; but the force of the preacher's logic is rather irresistible to the Chinese taxpayer when he says it would be much more economical for the Government than to constitue to rather or ment out of the public nomical for the Government than to continue to pay so much out of the public treasury for destroyed missionary buildings and other indemnity, for which really the people have to pay in the form of taxes. He assumes that the foreigners cannot be driven away, for "when stopped one step they have always gone beyond and taken two," so they might as well provide for their remaining in some more economical way to the country.

Last spring when I called on you for a
bottle of your Cough Remedy, Royal
Glycerated Balsam of Fir, I was almost
giving up in despair. I had tried a great
many different things, but got no better,
and really thought I never would get over
it, but your Balsam of Fir cared me entirely. It is the best cough medicine I
ever tried. I recommend it to every person I meet needing such a remedy.
