Millions of Bushels of Grain Received At Buffalo

BUFFALO, N.Y., Dec. 13. Nearly a quarter of a billion shels of grain have been received by lake and rail thus far this season, indicating a high record for ten years, and one of the heaviest movements of grain in the history of the port. Every elevator on the waterfront is full,, and 54 freighters are moor. ed in the outer harbor with 23 .-000,000 bushels of grain in their holds. Some of the grain afloat will be moved on to the sea-board by rail before the harbor freezes, but much will be held aboard until spring.

Official tonnage figures for the year will not be available until navigation closes next week, but statistics available at the corn exchange and estimates by elevator owners and grain shippers indicate that the quarter billion mark will be reached and posmark will be sibly passed.
