The Reward Of Bravery.

Humane Society's Medal Presented to William Cotsford Last Evening.

Who Made the Presentation.

bians. The ceremony was a simple one, Col. Prior making the presentation in a short speech, as follows:

Ladies and Gentlemen: By the kindness and contravy of the management of this manifect band, I am allowed to might operform a pleasant duty, which is a transcentic has devoked upon me, the object of which will, I am satisfied, meet with the hearty approval of everybody present. I have been asked by the Royal Canadian Humane Association to present in the most pulic manner possible a metal which has been awarded by them to Mr. William Cotsford, for conspicuous bravery, in rescuing Mr. Donald Mackay from drowning. This association works in harmony with the Royal Humane Society of England. The Governor-General of Canada is the patron of this association, as Her Majesty the Queen is of the one in Great Bri'ain. The president is Mr. Adam Brown of Hamilton, a gentleman whom I have known for many years, and who no doubt is equally well known to many in this hall to-night. He takes a very great interest in this Humane Association, as well as in many other societies having for their object the largest yet made, being nearly 200,000 more than last year. The simply translations from Homer or Virgit. 200,000 cases short the tharmond the other than last year. The stream and a literal Bay are responsible for the thereaux, which, however, was an exceptional one, the largest yet made, being nearly 200,000 more than last year. The simply translations from Homer or Virgit. 200,000 cases short of last year, which, however, was an exceptional one, the largest per responsible for the thorease, there having been a falling off on the other thaving been a falling off on the others. The Nasa is also 5,000 cases short the lass week through a strike of the same sleeping-car that he largest at the same other societies having for their object the bettering and uplifting of his fellow men. He is the embodiment of everything that is kindly, manly and honorable, and laterally and honorable, and the honorable, and the beautiful and the honorable and I am glad to say that he has a worthy presentative in this city in the person methods.

This son, Mr. George McL. Brown. Of such men is this association com-

After giving the particulars of the which the medal was presented, Prior continued:

from the Gorge some time ago. He did not get any medal, but I think he should Our "Native" evidently has not con have done so. There are other men, also, in this city who ought to have got this sidered the harm he may have done medal for noble deeds, and there are so criticizing, and for his benefit, and

medal for noble deeds, and there are some, I am glad to say, who have got it.

"Although the performance of duty always brings its own reward, as in this case, Mr. Cotsford must feel that he is amply repaid by the gratitate of the man he rescued, and also that of his relatives. Still I think too much publicity and too much praise cannot be given to men, aye and women, too, who so unselfishly and so nobly risk their lives in saving their fellow creatures.

"It is deeds of this nature that show for criticizing, and for his benefit, and a few others who may chance to follow his example, it will be well to point out to him his error.

He has acted as "the dog in the manger," as he has said nothing equation or better than "Impartial Progression," and yet may have prevented some timid citizen from giving some good practical suggestion on the agitated subject. What does it matter in what language a person expresses himself in this great matter, as we are not looking for good prose in the railway scheme?

in saving their fellow creatures.

"It is deeds of this nature that show as that the British race have still the same pluck, still the same pluck, still the same power of self-sacrifice, that enabled those who have gone before us to lay the foundation and build up the most magnificent Empire that the world has ever seen. And long may it be before the eves of our girls will cease to say than to criticize those who are not looking for good prose in the railway scheme?

What we want is good prose in the railway scheme?

What we want is good prose in the railway scheme?

What we want is good prose in the railway scheme?

What we want is good prose in the railway scheme?

What we want is good prose in the railway scheme?

What we want is good prose in the railway scheme?

What we want is good practical suggestions, so that the ferry may be to Victoria, and any common-sensed Victorian will agree with this.

If our "Native" has nothing bette to say than to criticize those who are not looking to good prose in the railway scheme? grow brighter, and the hearts of our young men cease to beat faster, when young men cease to beat faster, when they hear of such brave deeds as the one for which Mr. Cotsford gains this medal. Let all of us take a pride in by this means it should be the duty by this means it should be the nub acknowledging such men as our fellow every Victorian to open to the pub

Now, ladies and gentlemen, it only remains for me to present this medal, and to ask you to show your appreciation of a brave act by your hearty and unani-As Col. Prior pinned the medal on Mr.

Police Unable to Commence a Prosecu

tion in Munn, Holland & Co.

Robbery. The city detectives have dropped the Munn, Holland & Co. robbery case, having come to the conclusion that it is impossible to secure sufficient evidence to convict the guilty party. Of the \$180 stolen \$130 was recovered by the detectives. It came through the post office, wrote addressed to Mr. Dickson, the chief clerk in the firm's office. On the inside of the paper in which the bills were wrapped there was written in an evidently disguised hand: "Take warning; in future see that your doors are locked." The detectives were also part of the stolen money. It came without explanation addressed to John Coates, who was at the time of the single staterooms after familiarizing himself with the ship, robbery junior clerk in the office. This money Mr. Coates, having quit the service of Munn, Holland & Co., handed over the Mr. S. Power Mr. S. Power

over to Mr. S. Perry Mills, whose advice he had sought in the matter the day The money is still after the robbery. in the hands of Mr. Mills.

The police have come to the conclusion that the robbery was committed after daylight in the morning. The barbers from the shop next to Messrs. Munn, Holland & Co.'s passed through the back alleyway early in the morning and saw nothing of the cash-box and bill

England, there are two thriving elm trees, which naturally sprouted from the pavement of an adifice and stand one at each end of a pew. This pew was, many years ago, occupied by John Thyle, who spent a great deal of money planting elms in Ross, his native town.

his native town.

soon as made. This is not a proof of inconsistency, but of their being consistently and persistently "agin the government." In this country bye-elections go almost invariably with the government. The difference is probably due to the fact that they have direct taxation in England, and the effect of direct taxation is to give the taxpayer a lively interest in the power which imposes and collects the taxes. The Canadian taxpayer is paying taxes every day in the week but Sunday, and does not realize the fact, because he pays his taxes through his grocer, his tailor or his dry goods merchant. If the chancellor of the exchequer were to increase his ex-
