SATURDAY MORNING, FEBRUARY 24 1883.

THE WORLD'AT LARGE. When the Rev. Dr. Spaulding was When the Rev. Dr. Spaulding was installed pastor of a congregational church at Manchester, Mass, he declined to tell whether he believed in probation after death. In a paper stating his faith, however, he said: "I am not sure that I have any warrant for finding in the mere element of time a point, as if fixed by God, beyond which salvation is impossible. It seems to me that this matter of probation sinds its limit in a permanency in character toward unchecked sin and wilful rejection of divine helps which are steadily pressing a man."

It is not safe to speak of a western lady

It is not safe to speak of a western lady as a large-souled woman. She colors up, flounces out of the room and soliloquizes in the sacred fastness of her boudoir: "I'll never speak to that hateful old thing again there! Laws soled indeed!" -so there ! Large-soled indeed !"

Bradstreet's Weekly Report. New York, Feb. 23-The telegraphic reports of the Bradstreets from the leading trade centres of the country show a wide-spread improvement as reg country show a wide-spread improvement as regards the outlook for the spring trade. This is true especially in New York dry goods circles, but the trade is late. The Febuary cotton report to Bradstreets indicates that on Febuary 15th the cotton remaining unsold on plantations amounted to 10 per cent. of the entire crop. Southern planters report improved financial condition except in North Carolina. Bad weather is causing delay in preparing for the next crop. The iron trade is duff, even stagnant, waiting for congress to do some thing, respecting the tariff or adjourn, Prices on good brands of pig are unchanged and firm, steel rails are a shade lower. Refined oil is higher and in better demand. Crude is dull. Petroleum certificates are duff at fraction over one dollar. Ocean freights are lower, tunnage supply large, demand less.

Pain, irritation, retention, incontience, deposits, gravel, etc., cured by Buchupaiba, \$1. Catarrh-A New Treatment. From the Weekly (Toronto) Mail, Aug. 21,

Perhaps the most extraordinary success that he been achieved in modern medicine has been attained by the Dixon treatment for catarrh. Out of two housand patients treated during the past six months fully ninety per cent have been cured of this stubborn malady. This is none the less start ling when it is remembered that not five per cent of patients presenting themselves to the regular practitioner are benefited, while the patent medicine and other advertised cures never record a cure all. Starting with the claim now generally belie by the most scientific men that the disease is due by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermination—this accomplished, he claims the catarrh is practically cured and the permanency is unquestioned, as cures effected by hint two years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at heme, and the present season of the yea, is the most favorable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Mr. A. H. Dixon, 395 and 307 King street west, Toronto, Canada, and enclose stamp for hi reatise on "starrh"

MEDICAL

WRIGHT'S DRUG STORE,

THE INTERNATIONAL THROAT AND LUNG Institute is gaining an enviable reputation on account of the many remarkable cures of Catarrh, Catarrhal Deafness, Bronchitis, Asthma and Consumption made daily by the diff-rent surgeons connected with the staff. We have lately engaged the services of five more eminent specialists, to enable us to attend to our daily increasing number of patients all over Canada and the United States. Our great success is owing to the fact that our united and undivided attention is paid to the above diseases, and that we use cold inhalations, conveved through the Spirometer, the wonderful invention of M. Souveille, of Paris, Ex-side Surgeon of the French Army, with proper constitutional treatment. Consultations and a trial of the Spirometer free. Those unable to come to the Institute, or see our surgeons, who visit all the principal towns and cities of Canada, can be successfully treated by writing, enclesing a stamp for a copy of our International Nets, published monthly, which will give you full particulars and references, which are genuine.
