The Scene of the Disaster

The Detroit Journal was located at Shelby and Larned-streets, occupying for its main offices a 70-foot front in Larned-street. Next east of its building and in part of the same block, were two 20-foot fronts, which con-stituted the scene of the disaster. One of these, No. 45, was wholly occupied by John Davis & Co., saleratus manufacturers and dealers in grocers' supplies, while in the basement of the

There were three stereotypers at work in The Journal's floor, about 30 girls in the bookbindery, besides the proprietor, a machinist and several others in the typograph shop, several engravers and assistants in the Kohlbrandt Co.'s rooms and a force of clerks on the ground floor in the main room. There were six persons in the Davis building. In the basement were the engineer, fireman and several press-

took place to-day in St. Thomas' Church. The hour set for the begin-Church. The hour set for the beginning of the ceremony was 12 o'clock. At that hour the church was thronged with the representatives of New York's smartest society, gathered to witness the ceremony. The church was gorgeously decorated for the occasion, the floral display being, without doubt, the most lavish that New York has ever known. From 10.15 o'clock, carriage after carriage rolled up, their occupants quickly passing into the church. As the hour for the ceremony drew nearer, the crowd became larger. The steps of houses and the sidewalks up and down the avenue were jammed until it was almost impossible for the pedestrians to obtain a passage through the crowd. Traffic in Fifth-avenue was practically at a standstill before noon.

Second Trial of the Notorious Twins Well Under Way.

or. Edmund E. King Tells of the Finding of the Body of Willie Wells in the Fatal Cellar-The Fearful Injuries Inflicted by the Cruel Weight-A Change in the Crown's Program Occasions a Falling Off in the Attendance.

A number of the witnesses for the

prosecution succeeded most admirably in delaying the proceedings in the Hyams trial yesterday morning. They seemingly failed to grasp the fact that the little blue documents commanding their presence are peremptory in their nature, and were far away from the busy scenes of the court room when their presence was essential to the uninterrupted success of the proceedings. It is doubtless more or less a matter of inconvenience to withesses sumnoned on a case of this importance to be compelled to remain away from their customary avocations and keep well within the beck and call of the gentlemen of the bar until they are finally excused, but it should be borne well in mind that such constant attendance is far more trying on the 12 jurymen who are removed from the sight even of their families and friends during the entire period of the trial day and night, and that the slightest unnecessary delay is an absolute injustice to them. The tardy witnesses of yesterday have occasion to congratulate themselves that they escaped without even a reprimand from the court, but if one may be permitted to read between the lines of His Lord-

til Monday, the 18th inst. William Clendinning & Son Assign With The twins came upon the scene dressed as on yesterday, though slightly paler, as if in expectancy of the able chief prosecutor's opening statement they had passed a sleepless night. The prisoners were accompanied to their dock by two burly constables with drawn clubs.
Why the Crowds Were Absent.

There was a visible falling off in the attendance during the morning, and many vacant seats were noticed on the ground floor, though as the day, grew on the curious commenced to flock towards the scene of expected sensations, and the constables were again called upon to exert themselves in holding the crowds in check. Later on again there was a falling off, occasioned probably by the action of the Crown in changing the order of the Crown in changing the order of things as pursued in the former trial. and proceeding to introduce its evidence in what appears to be a more regular order. The spectators expected Ebenezer Aylesworth, as the occupant of the witness box, and were disappointed when Mr. Osler called Dr. E. E. King, Undertaker B. D. Humpherey and Expressman John Fox. who E. E. King, Undertaker B. D. Humphrey and Expressman John Fox, who are to testify relative to the finding of the body and the condition of things generally in and about the Colbornestreet warehouse on the fatal morning. This testimony is, of course, very material to the Crown's case, but it lacks sensationalsm, and, therefore, cannot be expected to attract very much outside attention.

The Crown's Dumb Witnesses.

Prior to the convening of court this morning many of the articles which will figure so prominently in the prosecution of the case were brought into the court room. There were the ponderous weight, which played the principal part in the killing of Willie Wells, and the smaller weight, which had been cut in two. In another place were boxes full of addressed envelopes, said to be the result of the work done by Wells, Aylesworth and Miss Latimer, and sacks and baskets full of various and sundry things, all of which the and sundry things, all of which the Crown expect to find ample use for in making out a reasonable case against the accused. In a sealed hand-bag,lying on the barristers' table, rested the fractured skull of the dead rested the fractured skull of the dead boy. Yesterday it was employed by Mr. Osler in pointing out the nature of the injuries which had so unhappily terminated a young and promising life. As the gruesome object was brought from its hiding place, there was a craning of necks to see the cracked and distorted object, but it was shortly returned to its hiding place, and later in the day a little "play skull," from the shelves of a dealer in old bones, was employed when found necessary in the prosecution of the case. in the prosecution of the case.

Mr. Osler's Opening Address. The Crown prosecutor lost but little

me in presenting his statement to he jury. It was an able presentation f facts as the Crown expects to prove them during the progress of the trial, and was eagerly listened to until the last word had been spoken. Mr. Osler spoke for an hour and three-quarters, saying in substance as follows:

On Monday, Jan. 16, 1893, three years in the basement of a warehouse in Colborne-street in this city. Death was occasioned by injuries to the head. His head was crushed—the bones of the skull broken. The question to be tried by you is whether that death was by design or whether it was acciwas by design or whether it was accidental. If the death was the result of design, then that design was the act of the prisoners at the bar. If it was accidental no crime has been committed, and the prisoners are entitled to be discharged from the charge against them. The question for you to solve is different from the ordinary way in which such cases are present. to solve is different from the ordinary, way in which such cases are presented, namely, that a crime has been committed, and is it that the prisoners at the bar are guilty? The question here is, has a crime been committed? I think you will agree that if a crime has been committed the evidence will show that the responsibility of that crime is upon the prisoners and the prisoners alone.

The Forms of Crime.

Now, gentlemen, your task is a serious one. You have to bring to beaupon it all your patience and intelligence.
