

THINK!

How much it means to you to have good-fitting, stylish, good wearing clothes. You take no chances when you insist on

20th CENTURY BRAND

For years they have been recognized as the standard by which all others may be judged. The new Spring styles, just to hand, are the best this big concern has ever produced. They are made for men who positively will not wear ill-fitting, badly-tailored clothes. They are the clothes for you. Ready or to-your-measure.

A. BROWN & CO.

PATRIOTISM and PRODUCTION

"I would urge the farmers of Canada to do their share in preventing the people of Great Britain from suffering want or privation."

HON. MARTIN BURRELL, Minister of Agriculture.

The Empire Needs Many Foods

In the past Great Britain has imported immense quantities of these staple foods from Russia, France, Belgium, Germany and Austria-Hungary as shown by the following:-

Average Imports Years 1910-1913	Millions of bushels rather than millions of acres should be Canada's aim.	Average Possible
Wheat..... 28,439,609 bush.	That there is abundant reason to expect larger returns from the same area is conclusively shown when we compare the average production of the present time with the possible production. Note the following brief table which shows the average in 1914 and possible production per acre.	Fall Wheat..... 20.43 62
Oats..... 23,586,304 "		Spring Wheat..... 14.84 33
Barley..... 15,192,268 "		Barley..... 16.15 69
Corn..... 7,621,374 "		Oats..... 36.30 91
Peas..... 703,068 "		Corn, Grain..... 70 200
Beans..... 689,683 "		Corn Ensilage..... 12 19
Potatoes..... 4,721,690 "		Peas..... 15.33 37
Onions..... 271,569 "		Beans..... 12.73 50
Meat..... 26,509,766 lbs.		Potatoes..... 113.40 450
Butter..... 121,112,916 doz.		Turnips..... 421.81 1000
Cheese..... 91,765,233 lbs.		

The above mentioned sources of supply of staple foods are now, in the main, cut off as a result of the war. Great Britain is looking to Canada to supply a large share of the shortage. Every individual farmer has a duty to perform.

Increase Your Live Stock

Breeding stock are to-day Canada's most valuable asset. The one outstanding feature of the world's farming is that there will soon be a great shortage of meat supplies. Save your breeding stock. Plan to increase your live stock. Europe and the United States, as well as Canada, will pay higher prices for beef, mutton, and bacon in the very near future. Do not sacrifice now. Remember that live stock is the only basis for prosperous agriculture. You are farming, not speculating.

Canadian Department of Agriculture, Ottawa, Canada

For the First Time

The people of Watford have the opportunity of seeing the last word in Range making in the beautiful appearing and perfect working High Oven Range. This Range has many new features, all patented by the manufacturers, Clare Bros. & Co., of Preston, so they will not be on any Range termed "just as good." This Range is just so good that the Company have had enquiries from over sixty per cent. of the stove dealers in the Province who never handled their goods before. This certainly means something.

Call and inspect them. We are always pleased to show you.

T. Dodds & Son, coal oil..... 18
McKercher—Hawn, that accounts be passed and Reeve grant his order.—Carried.

Hawn—Doan, that we adjourn.—Carried.

W. S. FULLER, Clerk

The Latest Heard About

Rev. T. B. Westgate

The following extract from a letter written by Rev. E. W. Crawford in the January number of the Mombasa Diocesan Magazine describing his trip to German East Africa, makes reference to the Rev. T. B. Westgate, D.D., as follows: "I left Mombasa early in July for Darassalam shortly after arriving at Darassalam I started for Ugogo, and after a most comfortable train journey (the carriages on the German railway) not comparing in comfort with those on the Uganda railway) duly arrived at Dr. Westgate's station—Kongwa. I found him very busy completing the new Huron Training College, which, when finished, will be an inestimable boon and blessing to the whole Mission. The accommodation will be most ample for all the needs of the Principal and his students, and without wishing to make any invidious distinction, I must say that I even prefer it to our own beautiful Divinity building at Frere Town. Great credit is due Dr. Westgate for all he has accomplished in connection with the erection of such a magnificent structure in the wilds of Africa. Only those of us who have had experience in building in such places can fully realize the magnitude of such a work.

While at Kongwa I was much impressed to see the keenness of the Wagogo for the things of God. Huge crowds attend the Sunday and weekday services, while there are nearly 25 outstations and schools, worked by native teachers. The number of such outstations seems to be on the increase. The people appear to regard it as a privilege to build schools and chapels without calling upon the Mission for financial help towards the same. I was greatly interested when a chief, from some outlying part, came to Dr. Westgate and complained that some people who had moved into his district from another part of Ugogo, were wishing to build a school-chapel of their own in addition to his. The chief contended, and possibly rightly, that his school-chapel could suffice for all in his district.

Lambton Hydro Radials

We are indebted to Mr. R. Stirrett, of Petrolia, the County Council's representative to the Provincial Hydro Radial Union for the following report of the Hydro Radial situation in the County. His information was obtained by letter from the Chief Engineer of the Ontario Hydro Power Commission under date of February 20th, 1915, and by personal interview with the engineering staff of the Commission at Toronto last week.

The Commission has completed a number of surveys and prepared estimates of the cost of road-bed construction on the following lines through Lambton and adjacent counties:

- (1) From London, west through the townships of Adelaide, Warwick, Plympton and Sarnia (Tp.) to Sarnia.
- (2) From a junction in the above line, in Plympton Tp., through Petrolia and Dresden to Chatham.
- (3) From a junction on the first named line, through Strathroy, via Alvinston, through Brooke, Euphemia and Owen to a junction with the second named line near Rutherford.
- (4) A branch from Huron County survey will probably enter Lambton by way of Grand Bend, touch Theford and join with the Lambton system in the vicinity of Arkona.

Aske, if approved by the electors, will form the trunk lines of the County and from them subsidiary lines may radiate, where the traffic will warrant their construction. Traffic statistics for the County are soon to be collected and compiled and the complete report is expected to be ready in early summer. To ensure the greatest success of the Lambton system it is to be co-related with and form part of a wide-extending Hydro-Radial Transportation System, which will embrace the portions of Ontario indicated by these outline points: Windsor, Chatham, St. Thomas, Brantford, Hamilton, Toronto, Owen Sound, Goderich and Sarnia, touching London, Stratford, Berlin, Guelph, Galt, Woodstock, Milton and the numerous towns and villages en route.

All the estimates on these various lines are based on the expected federal subsidy of \$6,400 per mile, which is the same as granted to railroads when promoted and owned by private interests.

It is expected that the Dominion Government will sanction this subsidy, and thus help along the principle of public ownership of transportation lines, of which Sir Adam Beck is the popular apostle.

Mr. Stirrett further says it is desirable that every person interested in the advent of Hydro Radials and Hydro Light and Power for Lambton should see to it that their Federal representatives, Mr. F. F. Pardee and Mr. J. E. Armstrong are encouraged to support the granting of the subsidy when the matter comes up in the House of Commons. For them to become champions of the cause at Ottawa would give Lambton an honorable distinction, and even then they would not be running ahead of public opinion as it stands to-day, in every municipality in Lambton, on this live and important question.

With the assurance of this Federal grant, with financial conditions no more abnormal than at present, there is no reason why Lambton Radials should not be in operation in two years.

Jessie Hart, the beloved wife of Mr. David Skillen, Plympton, passed away on Friday last in her 33rd year, from the effects of child birth, the little infant also passed to the realms above with its mother. The funeral was held on Sunday last from the residence of her father, Mr. Robert Hart, lot 25, con. 5, and was largely attended. Service was held in the South Plympton Presbyterian Church, and interment made in Wyomington cemetery. Mr. Skillen has the sympathy of the community.

SICK HEADACHES PERMANENTLY CURED

Dr. Williams' Pink Pills Correct the Cause of This Trouble

There are few ailments that cause more genuine misery in the home than attacks which are generally termed sick headaches. The attacks are often periodical and when the mother of a family is prostrated at intervals there is not only her own suffering to consider, but the discomfort caused the other members of the household. Sick headaches arise from a variety of causes, and most of them can be relieved or cured through the tonic treatment with Dr. Williams' Pink Pills. Mrs. Hugh Docherty, Rocca-ville, Sask., says: "I suffered for years with what the doctors called nervous prostration and sick headache. When these spells came on I could not work nor walk, and the pains in the head were almost unbearable. At times the pain in my head was so dreadful that I feared it would drive me mad. I tried four different doctors at times, and not only took bottles of medicine, but quarts of it, but to no avail. Then I quit taking medicine altogether and tried dieting, but it made no difference, I was still an agonizing sufferer. Finally my husband urged me to try Dr. Williams' Pink Pills and got me a supply. After taking the Pills for some weeks I felt a little better and I gladly continued their use. My nerves began to feel stronger, the terrible headache came with less frequency, and after taking the Pills for some months disappeared altogether. From that day to this I have had no return of the trouble, and all who knew of my illness regarded my cure as marvellous. I cannot say too much in praise of the Pills as they certainly saved me from a life of almost constant agony."

It is by building up and enriching the blood and strengthening the nerves that Dr. Williams' Pink Pills work so seemingly marvellous cures, and what they have done for others they will do for all ailing people if given a fair trial. If you do not find these Pills at your medicine dealer you can get them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The farm of the late Wilfred Chambers lot 9, con. 2, Plympton, has been sold to R. C. Beelstone, Toronto, for \$4050.

Mr. David Smith, of 8th con., Bossanquet, narrowly escaped being killed Wednesday afternoon. While helping to cut feed in the barn, the fly-wheel of the cutting box burst and he was struck by a piece of the metal. Several pieces of the wheel went through the side of the barn and carried a distance of fifty yards. Mr. Smith was injured in the head and foot.
