USINESS, generally, has continued inactive during the past week, and, except in a few lines, transactions have been of a rather limited nature.

TEAS.—The sale last week, for account of Messrs. D. Torrance & Co., did not attract a very large audience, but the bidding was tolerably spirited, and, as the sellers were more willing to accept the prices offered than at previous sales, a large proportion of the packages offered were disposed of. Several lots, however, were withdrawn, in consequence of prices reached falling short of the cost of importation. Since the sale there has been somewhat improved enquiry, and as holders seem disposed to meet views of buyers as far as possible, a good many lots have changed hands. Twankays are in demand, and selling freely at from 42jc to 45c. Japans are more wanted, but prices are rather lower than before the sale. Several round lots of high grade Imperials and Gunpowders have found purchasers at fair figures

COFFEE-Is in small demand at about quotations; holders, as the season advances, looking for higher figures

Sugar-Is in fair demand. Stocks of Raws are large, and holders have shewn more disposition to yield, until within a few days, when the market has become firmer, in consequence of more favorable European advices, and the shipment of large amounts from New York to England.

Molasses -Continues inactive, holders not pressing sales, under the expectation of obtaining higher prices later in the season. Syrups unchanged.

FRUIT-Is without much demand. Prices, however, are firmly maintained, latest advices confirming previous reports of deficient crops in several important truit districts, and there being uncertainty as to the extent to which the political troubles in Spain may affect the harvesting of the crop.

RICE-Has received better attention, and several round lots have changed hands-terms, however, not made public. Prices are firmer at a slight advance on previous quotations.

SALT-Has been arriving more slowly. We may quote; Liverpool Coarse 67c to 68c in round lots; Stoved, 75c.

Spices-But little enquired for. Prices are nominally unchanged. Holders, however, are auxious to

sell, and a good many round lots are offering on somewhat better terms, a'though without inducing transactions.

THE HARDWARE TRADE.

Crathern & Caverbill. Evans, John Henry. Ferrier & Co. Hall, Kay & Co.

Morland, Watson & Co. Mulholland & Baker. Robertson, Jas.

BUSINESS has been quiet during the week, few goods changing hands in the city, and orders from the West very limited. No transactions in Pig Iron reported, except a sale of 100 tons Summerlee at \$19.40 cash. Prices generally quite unchanged.

THE LEATHER TRADE.

Akin & Kirkpatrick.

Seymour, M. H. N. S. Whitney.

S yet but little animation in this branch of trade is noticeable, but strong hopes are entertained that when the cutting for the fall trade commences a good business will be done, and that prices for good stock will be much firmer than for some time past. There is no accumulation of leather in the market. and receipts have been limited.

THE BOOT AND SHOE TRADE.

COME transactions in fall goods to a considerable extent are reported, present low prices acting as an inducement to buyers. With present favorable reports of crop prospects, manufacturers are looking forward with hope to doing an improved business

MONTREAL PRODUCE MARKET.

Akın & Kirkpatrick. Dawes Brothers & Co.

Mitchell, Robt.

THERE has been considerable activity both in Grain and Flour during the past week, with prices fluctuating to some extent almost from day to day.

FLOUR.-The market has been more than ordinarily active, but variable, and much influenced by daily cable advices. Some few days ago, a strong speculative demand existed, and prices were suddenly forced up, strong Supers reaching \$5.50, and ordinary selling to a considerable extent at about \$5.25. Since then there has been some reaction, and a decline of 15c to 20c on the leading grades may be reported. Latest transactions have been of Welland Canal at \$5,00; Ordinary Canada Supers \$5 to \$5.10, and Strong ranging up to \$5 25 Casual sales of favorite brands as high as \$5 40. Western Supers held at the close at \$4.90 to \$5, most holders being firm at \$5. Western No. 2 has sold at \$4.50 to \$4.60, according to sample. Most holders of good Canada No. 2 ask \$4.60 to \$4.70. Fine and the Lower Grades are in excess and neglected, though relatively low; very few recent transactions. Extras and Fancies are neglected, and the recent advance has in a considerable degree been lost. Extras are freely offered at the close at \$5.20

to \$5.25, but not taken, \$5 10 to \$5.15 being about rates at which buyers are disposed to operate. Fancies are nominal at about \$5. The supply of Bags is mainly from the local mills, and prices are firm at \$2.50 to \$2.60 for best samples. Oatmal continues unchanged, with a demand still restricted to retain city wants.

GRAIN.-Wheat-During the recent excitement sales were made at prices ranging up to \$1.15, but these rates only lasted for the day. Latest sales have been at \$1.12; to \$1.13 for Western No. 2 and U.C. Spring; buyers at the close declining even these rates. No reported transactions in Red or White Winter: quoted rates nominal. Pease are scarce and enquired for. Good samples would be freely taken at 974c per 66 lbs., but \$1 in most instances is demanded. Oats-Stock has gradually worn down, and is in very small compass. Any good samples are firmly held at 45c. A few sales may be noted within the past few days of secondary qualities at 42c to 43c, but, excent samples in doubtful condition, no more available at the price. Nothing doing in other Grains.

PROVISIONS.—Pork may be reported generally unchanged: demand restricted to actual consumptive wants, but prices fully maintained by scarcity. Lard continues firm; consumptive demand at late rates. Butter-The supply of choice in stock is within the requirements of the trade, and 16c and upwards are obtained for good table sorts; no other meets enquiry and there is no shipping demand.

Ashes.-Pots continue steady, with fair demand. Pearls sparingly supplied, and all offered freely taken at quotations.
