Expoyed his Food—Mr D Davis, of this village killed a jug the other day that "p-rked" at an almost 2.9 speed. When Mr D purchased his pigship he was 4 weeks old, and weighed 9 pounds and at the age of 212 days, the term of his natural life, he weighed 31 pounds, thus howing that Mr Pjggy had increased in weight a trille over one pound and a half per day during his existence. If any body can best that we would like to baye a lump of the pork, even as the Datchman said, the end with the tail on.—Granby Gayelle.

How MUCH CORN IN SEVENTY POUNDS OF EARS.— It is customary for Western farmers to sell their corn in the cur, and they give seventy pounds for a bushel Seventy pounds of old corn on the cob makes sixty-five pounds and thirteen ounces. Certainly thus will more than pay any farmer for shelling his corn at home. On any prairie farm the cobs alone will pay for shelling, as they are worth nearly as much as coal, pound for pound. nound for nound.

#### THE HAVANA MARKET.

REVIEW of the Havana Market of the 14th instant says -

A instant says —
SUGAR —(I laned)—There is some demand for yellows of ordinary trains for which reason we believe that the first arrivals of the new crop will obtain high prices; some 16) boxes of the same have come to market, but the greater part are of low grades and centrifugal, with the exception of some 300 of whites For foreign markets, operations have been of small importance for want of the grades from Nos. 19 to 13, which are the most in request for the said ports, the small lots which are met with being paid on the basis of \$\frac{1}{2}\$ to \$\frac{1}{2}\$ rs. arrobe; \$\frac{4}{2}\$ boxes No. 8) at 7\frac{7}{2}\$ rs. arrobe, \$\frac{1}{2}\$ boxes No. 8) at 7\frac{7}{2}\$ rs. arrobe,

In sales on the spot we note the ionowing oso doace No 9 at 74 rs. arrobe.

We hear of the following contracts made for the new crop. viz 2000 boxes first to be received, of ordinary train at 77 rs. a for No 12 as a basis, and ranging from No 10 upwards, and another of the first 2 o boxes of the "Sta Lugarda" plantation, Derosne train on the basis of 73 rs. arrobe for No. 12 dry, with the condition of being all delivered before the 16th of March. Both lots with advances. We hear a'so of a contract made for sugars of Derosne train, but we have not been able to ascertam the price and conditions.

Muscovadoes.—Nothing has been done here for want of stock, and we must omit quotations altogether, until some sale of the new crop has established the rates for the different grades.

## The Chicago Provision Market.

Milvard's report says that the aspect of affairs in the Provision trade is of the most lowering character, and that sales of Mess Pork were made early in the week at \$17 for country, and \$17.5 for city packed, at which it rallied, closing dail at \$18. Prime Mess is reported nominal at \$16. The ralling off in the de-mand for Great Britain was expected to interfere with the manufacture of bulk and green meats.

#### ST. JOHN TRADE REPORT.

Dec. 20th, 1865.

Mhe business of the week has been of a quiet character, and the activity which has so far characterised the fall trade, is fast subsiding. The demand for discounts has sinckened, and money is considerably easier. On Monday the 17th, we were visited by the ant snow storm of the season, and have now capital sleighing. The shipping arrivals of the week have teen few, they comprise two new vessels from ports

oxperience of a short twelve months has proved to a greater extent even than could have been anticipated, that the balance of advantages secured by that treaty were largely in favor of the Americans themselves, and the feeling gains ground daily, that the ultimate result of its abrogation will be to improve our own position. It is quite certain that no new treaty will lind favor in the Maritima Provinces, which does not admit our shipping to registration, and to a fair and equal participation in the coasting trade. But we are perfectly satisfied to allow things to reman as they are, and if the Americans want a new treaty, to let them take the mitative.

It mere —There is very little change to report in this department, if we except the increased activity observable in the forwarding of West Indian cargoes. The clearances for the week comprise four vessels with deals for Great Britain, four for Havana with boardand shooks, four for Cardenas, and one for Matanzawith shooks, and the remainder for ports in Umted States. There is very little doing in the way of freights, and rates generally have a downward tendency the stock of lumber remaining on hand being quite small.

FLOUR.—The arrivals of flour since our last report have been very considerable, and quite in excess of the wants of the trade, which is now preity well restricted to city and local demand. The market is very quiet, and no advance in prices can be looked for while these large importations continue. We quote strong Superfine \$5.00 to \$8.25. Superfine \$7.50 to \$5.00.

Return of flour inspected at the port of St. John for the week ending Dec. 14:—

Wheat flour.——40.5 lbbs.

Previous week.——26.7 obls.

Wheat flour. 4005 hbls.
Previous week. 2607 obls. Increase ..... 2208 bbls.

This has been the largest importation of any week during the season, and since the above return was made up, the steamer "New England" has brought 1400 bbls., and four schooners from Portland have also

Provisions - Still continue dull and depressed and Provisions — Still continue dull and depressed and transactions are on a very limited scale. The country market is abundantly supplied with every description of produce, very much of which has in former years found a market in the United States. Country pork in particular is in large supply and prices rule very low.

low,
Mess Pork, \$21 to \$22. Prime Mess, \$23 to 23 50.
Prime, \$19 to \$19 50. Mess Beef, \$12 to \$16. Prime,
\$3 to \$12. Butter, choice, 17c. to 18c: for inferior
qualities there is no demand. Lard 14c to 18c.
Comparative statement of Revenue collected at the
Port of \$1. Andrews, for month of November.

1805. 1846 \$1 480 05 \$2,305.72. Increase in Nov 1866, \$325 67.

Included in the above return is the significant item of 813, received for fishing licences from the Americans Brigantine "Zebulon," of and from Windoor for New York with plaster, reported a total wreck at Littilier, crew sared.

Brigantine "Carrie", hence for Havana, reported totally lost at Mount Desert.

# BY TELEGRAPH.

St. John, N.B., Dec 26, 1868

Heavy rain here: it has broken up the roads, and Heavy rain here; it has broken up the roads, and husiness generally is very quiet. Flour continues arriving in large quantities, the market is overstocked Sales are quite small and prices have a downward tendency. Strong Superfine \$5. Superfine \$7.50 to \$7.50. No improvement to report in Provisions, which are dull, and slow of sale at former quotations living "Antino, C. C. Vanhorn" totally lost of Nantucket on the 24th inst. Crew saved.

#### HALIFAX TRADE REPORT.

HALIFAX, December 14, 1864.

We have no change of moment to note since our last report. Business has been very dull, and the stringency in the money market still continues, but we hope our monetary affairs will undergo a favorable change with the new year.

BREADSTUFFS .- The receipts for the week are small. Flour dull, with a downward tendency, buyers not disposed to operate at present quotations. We see no prospect of an advance, especially as the fall trade is about over, and the local demand will not be active. The large quantity of produce flow in the market will have the effect of checking prices. Cornmeal quiet at present quotations. The Imports are 611 barrels Flour from United States.

Fish -This week's imports are large and the demand teen few, they comprise two new vessels from ports in Nova Scotia, one from Barbadoes with sugar and makese; one from Barbadoes with sugar and makese; one from Balfax with coals, besides the practice. Makese:—Considerable quantilies have any framer "New England," and four schooners with 2 four from Portland.

The eccasional wallings of the American press, at the loss of husiness experienced by their people through the abrogation of the Reciprocity treaty, afford considerable answerment, not unmixed with afford during the past week, but the demand is not large quantities on hard. Co. Miney, No. 2. Miney,

casks, 502 drums and 70 boxes. Herring, 2128 barrels. Mewices, 237 do; Mackerel, 1632 do; Salmon, 163 do; Irout, 16 do; Sancketel, 1632 do; Salmon, 163 do; Irout, 16 do; Sancketel, 1632 do; Salmon, 163 do; Irout, 16 do; Sancket Herring, 216s boxes. Produce—We have very large arrivals to note this week. Potatoes have declined and are very dull. Sales hard to be effected at any price. Several cargoes have been sold at auction during the week, and realised prices varying from 16c. to 25c per bashel by the cargo, according to quality; the quantity affont being so large that holders will in all probability have to lose in order to realise. Outs are loss active, and the market being well stocked, we look for a slight decline; but present quotations, viz., 45c to 5 c., can be at present obtained. Butter dull and declining and prices must come down before any sales of consequence can be effected. The stock in market at present is greatly in excess of that on hand at any period of the present year, and the domand or export is very small. This article will in all probability rule low during the winter. The Imports are as follow—Potatoes 46,146 bushels; Outs, 13,771 do; Turning, 3956 do; Barley, 4,189 do; Butter, 1,613 packages; Lard, 181 do; Oatment, 426 burrels.

"West India Produce" remains unchanged. But small quantities have changed hands during the week by auction, and we have not heard of any private sales being effected. The following prices have been realized at auction. Cienfuegos Molasses, 35 to 35c per gal. (ant paid). "Yacuum pan" sugar, 8jc (duty paid). Bond. The receipts have been very small, only 77 puns molasses from Porto Rico, and that was

Grapes. \$7.50 \$4.25 \$2.25 Provisions dult, with little enquiry, holders not disposed to sell Messpork without an advance on \$2.3 We look for a decline as stock is increasing. Beefdult, and quotations merely nominal. Receipts are, Pork 1015 barrels; Beef 121 barrels; all from our own outports, and small lots from P.E.I. FREIGHTS.—There is "othing doing in shipping.

#### Large Arrivals at Halifax.

A recent Halifax paper says nearly one hundred vessels have arrived at this port within the last three days, from P. E. Island, Cape Breton, and various outports, fully laden with produce, coal, fish, &c. This large accession to the shipping already lying here imparts an animated appearance to our harbor. And the receipt of their cargoes may be expected to result in a reduction in the prices of the above indispensable commodities.

### MONEY MARKET.

[MIII] holidays have interfered with business in stocks and exchange, but prices on the whole have been well maintained. Sterling exchange on London is firm at 1 9; for 6; days sight drafts and banker's bills, and 8; to 9; for best private. Bank Exchange on New York, is at 231 to 231 discount, and Greenbacks at 231 to 24 discount. Silver is sold at 41 discount, the buying rate being 43. Money continues plentiful and rates are casy.

Gold opened at 1313 in New York this morning, and during the day experienced the following fluctuations -1313, 1313, 1313, 1323, 1323, 1323, closing at 1323. It stood at 1312 at the close last Thursday, and has consequently fallen 21 per cent.—the average price of the week being 152].
