CATARRH.
A New Home Treatment for the Cure of Catarrh, Catarrhal Deafness, and Hay Fever.
48/52

The microscope has proved that these diseases are contagious, and that they are due to the presence of living parasites in the lining membrane of the upper air passages and eustachian tubes. The eminent scientists—Tyndall, Huxley and Beale—endorse this, and these authorities cannot be disputed. The regular method of treating these diseases is to apply an irritant remedy weekly and even daily, thus keeping the delicate membrane in a constant state of irritation, accompanied by violent sneezing, allowing it no chance to heal and as a natural consequence of such treatment not one permanent cure has ever been recorded. It is an absolute fact that these diseases cannot be cured by an application made oftener than once in two weeks, for the membrane must get a chance to heal before any application is repeated. It is now seven years since Mr. Dixon discovered the parasite in catarrh and formulated his new treatment, and since then his remedy has become a household word in every country where the English language is spoken. Cures effected by him seven years ago are cures still, there having been no return of the disease. So high are these remedies valued, and so great is the demand for them, that ignorant imitators have started up every where, pretending to destroy a parasite, not knowing they know nothing—by remedying the results of the application of which they are equally ignorant. Mr. Dixon's remedy is applied only once in two weeks, and from one to three applications effect a permanent cure in the most aggravated cases. N.B.—For catarrhal troubles peculiar to females this remedy is a specific. Mr. Dixon sends a pamphlet describing his new treatment on the receipt of ten cents in stamps. The address is A. H. Dixon & Son, 303 King Street West, Toronto, Canada.—Scientific American.

Sufferers from catarrhal troubles should carefully read the above.

Household Hints.
ALWAYS HOT ROLLS.—Mrs. B. says she bakes only once a week, and does it herself, as the small family are used to her good bread and wants it hot every morning; so she takes as many of the cold rolls as required, dips them hastily into cold water, puts them between two pans and sets them in the hot stove oven. In a few minutes they become hot and soft, and she thinks them about equal to freshly baked bread; and delicate persons can also partake freely of them.

ALLEN'S Lung Balm is the standard cure for Coughs and Colds in the States and Canada.

Stir thoroughly and bake in layers.

SEYMOUR HATCHER, M.D., of Hermon, N. Y., says WISTAR'S BALM OF WILD CHERRY cures cough by loosening and clearing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

LEMON JELLY.—Cover a box of gelatine with cold water, and let it soak one hour, and pour over a quart of boiling water; add a pound of sugar, the juice of three lemons, and stir until the sugar dissolves. Strain and set on ice to harden. Serve with cake.

Mr. Williams. "Why is a drum without a head like a model wife?"
Mr. Cross (a henpecked husband). "Because she is mute."
Mr. Williams. "Right; now tell me why a musician wife is a drum without a head, a trumpet a plumber, and Imperial Cream Taper Baking Powder are similar?"
Mr. Cross (triumphantly). "Because they can't be beat."
