RIPANS

ONE GIVES RELIEF.

NO MATTER WHAT'S THE MATTER ONE OF THEM WILL DO YOU GOOD.

Rev. Frederick R. Martin, long-time pastor of the First Congregational Church, of Great Barrington, Mass., and at one time a practicing physician, a graduate of the College of Physicians and Surgeons, New York, says of Ripans Tablets: "The formula has long been in favor with medical men, and the method of preparation in the present form is modern and a great convenience. I always keep a vial of the Tablets upon my dressing table, and use them with confidence whenever occasion arises. For a disturbed condition of the digestive organs I know of nothing so good, and for an 'all round' family remedy I do not believe there is anything better to be had."

HEALTH AND HOUSEHOLD HINTS.

Boiled water tastes flat and insipid because the gases it contained have been driven off by the heat.

Elderdown comforts are apt to lose their lightness after considerable use. To restore them beat well with a rattan beater, and hang on the line a few hours in a strong wind.

Ripe tomatoes will remove almost any kind of stain from the hands, and they can also be used to great advantage on white cloth, removing ink spots as well as many others.

Sour cherries stoned and served on lettuce leaves make an excellent hot-weather salad. Dress with a Mayonnaise colored a pale green or pink. Cherry currants are delicious served in the same way.

Trifles.—One well-beaten egg, one tablespoonful of sugar, a saltspoon of salt and flour enough for a stiff dough. Cut and fry them like trifles, and put jam or jelly on the centre of each.

Tumblers that have been used for milk should never be put into hot water until they have first been rinsed in cold water. The heat drives the milk in, and gives a cloudy appearance to the glass which cannot be removed.

Young carrots make an excellent salad sliced and served very cold on crisp lettuce with a French dressing, and served in cream sauce containing minced parsley, or in drawn butter seasoned with lemon juice, salt and white pepper.

An old physician's advice was "eat raw currants for breakfast as long as you can get them." They are appetizing when served with cracked ice around them and the sugar moistened with a little sherry; and this plan does not affect their medicinal properties.

It is said that water bugs dislike the cucumber, and if the peelings from cucumbers are kept in water, and at night scattered around the pipes and the places where the bugs are seen, after two or three nights the bugs will disappear. The plan is worth testing.

During the hot weather the bread box requires special attention to prevent bread from moulding. The box should be scalded twice a week and aired in the sun for an hour before fresh bread is put in it. A tin box is much better to use for holding bread than a stone crock.

Scrambled Eggs with Dried Beef.—Shave the beef very fine; put a tablespoonful of butter in a frying pan, set it over the fire, and when hot put in the beef; heat a few minutes, stirring constantly to prevent burning; beat up the required number of eggs, and stir in with hot beef; stir altogether until the eggs are cooked. Serve immediately.

Crab Apple Jelly.—Slice the apples, take out the cores and seeds, as they make the jelly bitter. Put them in a kettle, cover with water, and boil till quite soft, keeping it well skimmed. Pour the pulp in a jelly bag, and let it drip through. To each pint of juice add one pound and a half of sugar. Pour in the glasses while hot. Delicious with meat.

Candy Coating for Fruit.—Make a syrup of one cup of sugar, four tablespoonfuls water, two of vinegar; when boiling stir in a small pinch of soda. Dip into this sections of orange, Malaga grapes, citron, brandy cherries or almost any fruit. Lay upon greased paper till cool. They can be kept some time, and, while tasting good, are pretty to ornament with.

A very effectual way of toughening glass or china consists of placing the articles to be toughened in a large kettle of copper (of course, folding cloths, etc., around the things to keep them from knocking together), in enough cold water to cover them entirely; bring this water to a boil; let it boil for some time; then lift the pan off the fire and do not touch its contents till the water is perfectly cold.

Indian Pudding.—Heat to the boiling point one quart of milk; sift together in a dish seven even tablespoonfuls of Indian meal, one teaspoonful of ginger, and half a teaspoonful of salt; scald this with the hot milk, stir half a teacup of molasses, bake three hours in a slow oven and you have a pudding fit for a king. You may use any spices that you may prefer, with or instead of the ginger.
