Wheat at Duluth.

Wheat opened very weak at Duluth on April 6th at 80 below yesterday's close, both for May and July delivery. The market ruled fairly active with advancing tendencies up to noon, when May wheat was 3 and July 3 to above the opening quotations business was about equally divided between two months. Cash wheats were dull, but were firmly held at aded prices. The afternoon session here the verv vauced prices ruled dull, prices were 1 to 3c below the top figures of the morning. The market closed figures of the morning. The market closed firm and steady at 1c decline all around from

yesterday.

Cash No. 1 hard ruled very dull, without transactions it closed nominally he lower for

the session ot 667.

Cash No. I northern very dull, small sales of fresh receipts in store were reported at 664. Regular closed nominally 1c down at 611. Track wheats nothing doing, closed nominally ic lower at 661.

Cash No. 2 northern dull, nothing reported. Regular in store closed nominally ic lower at Track wheat closed 1c down at 62

Cash No. 3 wheat closed dull, nominally je, declined at 523.

Rejected wheat closed nominally unchanged

at 48.

April wheats nothing doing in them, both grades closed nominally is lower for the day. No. 1 hard at 663. No. 1 northern at 641.

May No. 1 hard entirely neglected, without transactions, closed nominally ic lower for the

May No. I nerthern opened very weak and ac below yesterday's close at 674, with fair trading early at that figure, ruled fairly active

with advancing tendencies up to noon, selling at 672, 673, 683 and to 683. Ruled very dull during the later session, without further sales closed ac lower and ac below yesterday at

July No. 1 hard, without trades, closed nom inally he lower for the day 733

July No. 1 northern opened very weak at &c below last night's close at 70%, with good business early at that figure. It ruled quite active at steadily attacting prices up to noon, selling up to the 'split' of 713 g. During the later session ruled strong and weak, broke to 71, with good sales at that, closed a shade lower at 702 bid.—Market Report, April 6.

Grain and Milling.

A small sample of wheat grown in the far northern Peace River country was exhibited at the Vinnipeg Grain Exchange Monday after "call," and attracted considerable attention from the members of the exchange. The grain grades No. 1 hard, is very large and plump, of a good color, and is as good for milling as anything grown in this province. The sample is from the exhibit which is being sent to the World's Fair, and was grown by the Rev. J. Gough Brick, of Shaftesbury Mission, which is situated at the confluence of Smoky and Peace The seed was sown on May 2nd, and in was harvested on August 29th. The the grain was harvested on August 29th. yield was thirty-four bushels per acre, and the weight, government test, sixty four lbs. per bushel, Shaftesbury Mission is just 200 miles north of Edmonton, Alberta.

It is now an assured fact that Glenboro, Man . is to have a roller mill this season, says the Gazette. Mr. Cochrane, of Crystal City, was in town on Thursday of last week, and arrangements were made for the erection of a 150 barrel mill, to be in operation by the 1st of September.

On Thursday afternoon last a meeting of far mers was held in the city hall, Brandon, to dis cuss the advisability of erecting or building a fermers' elevator. There was a good attendance of farmers A motion was passed stating it was desirable to build or purchase an elevator. A committee composed of Messrs. Postlethwaite, Middleton and Nicol were appointed to secure estimates and particulars re running an elevator.

The St. Jean Grist Mill & Elevator Co., St. Jean, Man., is applying for incorporation.

Reports from southern lake counties in Outario say fall wheat is badly damaged by frost and following rains, and the crop will probably

be much smaller than last year.

The Ogilvie Co.'s large mill at Winnipeg is closed down this week, and a lot of new machinery and improvements will be put in, costing about \$40,000, which amount is sufficient to build a new mill of considerable capa The output of the mill will be considerably enlarged by these improvements.

The Hudson Bay Co. Mill on the west side at Emerson, Man., is offered for sale at a great sacrifice says the Emerson Times.

The largest and most representative meeting of ratepayers ever held in Elkhorn, Man., says the Advocate, gathered in Broadley's hall last Siturday to discuss the advisability of granting a bonus of \$5,000 in aid of a flour mill at that point. The meeting was favorable to the bonus.

The work of hauling stone for the foundation of the new flour mill at Melita, Man, has been commenced. The bonus to the mill was carried by a large majority.
