(PETROLEO VIRTUS VALIDISSIMA.)

"The most efficacious virtue from Petroleum."

The Emollient and healing principle from Petroleum, highly purified and concentrated, without the use of chemicals. It has an absolute non-affinity for oxygen or moisture; a perfect bland, soothing, oleaginous substance, applicable to the most sensitive condition, even to the eye, without the slightest irritation, and yet so homogeneous and dense as to exclude atmospheric action and other malarious influence. IT IS A PERFECT APPLICATION.

WHEN USED AS SURGICAL DRESSING, and the bandages adhere to the wound, the subsequent applications may be made upon the exterior of the last fold, which it will penetrate at once, thus avoiding the danger of re-opening the wound.

FOR BURNS AND SCALDS it is INVALUABLE. It allays the acute inflammation almost immediately, and thoroughly protects the injured parts from the action of the atmosphere. If used promptly and ALONE, the wound heals rapidly, even in severe cases, without any sloughing, and usually without leaving any scars. For cuts, lacerated surfaces, all kinds of Inflammation, poisoning, and SKIN DISEASES GENERALLY. For Piles and diseases of the rectum, uterus and urethra, by injection. Hundreds of uses for it are suggested to the physician who knows its positive virtue. It is incapable of decomposition, fermentation, or becoming rancid on any sore, in any climate or temperature.

Cosmoline combines readily with White Wax for Ointments, Cerates, with Sulphur, Iodine, Bromine, etc., with Camphor, Gums, Resins, etc. It does not combine with proof spirits, Ammonia, or Caustic Alkalies. Coming from the same primitive source as Carbolic Acid, it has a peculiar affinity for that valuable remedy, and forms a superior vehicle for it: on account of its simple and positive character it is vastly superior to Olive Oil, Lard, etc., as a menstruum for other external applications. As an emollient, it is superior to Glycerine, especially the Rose perfumed. Its non-affinity for oxygen or moisture renders it a perfect protection against rust when applied to surgical instruments.
