earning and was the most learned country in the world: Just as she hall reached the highest point Romo fell and barbarians swept over Europe "They had done much to swamp are and Christiahity" to extinguish But now monuments and whole eities disappeared and ideas of civilized life vanished. There were no channels of art at that time had become so rich in learning that she was able to impart to Europe the rich inheritance she had received from St. Patrick. Then when darkness brooded over the earth she sent out her teachers over Europe men with their lives in their hands who retaught the darkened nations. Throughout Italy and Germany—yes, even in that Great Britain which affected to regard Ireland as an inferior nation, they would find courches dedicated to an Irish maint. This teaching mission lasted for cen-The darkness could not be enlighten-

ed in a day. Centuries were required, and they continued to send out her teachers. Germany and Switzerland were won for the Church. In Southern Europe tradition still s if lived, but throughout the West of Buwent to Iona and the Culdees' work was great. It was the same in England. He found that Dr. Lingard, an English priest and with English prejudice, was com elled to do justice to the Irish in this respect. After the coming of St. Augustine and the expulsion of the Britons by the Saxons, the Irish did much for the English, and here, he thought, that they might be satisfied, but this was not all. When Charlemagne saw that it was not only but that he must establish a great university, where did he look for teachers of art, Menture and the other requirements? To I've and and it was John Erigma, born in Ircland, he selected. (Gueers.) It was said also that Alfred the Great went over to the university to learn the chief part of his edudown on her shores and to England which they | kin-applause. A few years ago the Irish conquered without much difficulty. It was | were only a handful amongst the people of the no difficult thing for them to make their inroads into an undefended country. They destroyed and laid waste and threw the couniry back into a condition of barbarism. Churches and houses of learning were destroyed, but the Irish people have always been indestructible, thank God. (Cheers.) This of course was a perfectly natural one.

say, "that under God is the creation of the Irish people." (Applause.) The Irish were still struggling in mission work, and he be-lieved that theirs would be the mission to Men had to keep their weapons by their side, and they became gradually to love fighting yet convert their fellow-countrymen to Cuthfor its own sake. But it must be remembered olicism. Bishop Ireland the other day said that het ween the time Brian Born defeated that there never was such an opportunity the Danes at Clontari until Henry II. set his cursed foot on the shores of Ireland, civilization was springing up again. But from that day there was retrogression. No Parliament ever assembled again. There is no doubt that if the Irish people had at that time been one nation they would have driven the English out of the country. But they were unfortunately divided and quarreling with themselves. The English monarchs constantly poured fresh troops into the country and ultimately the Irish were the losers. The Irish then were not known much to the to see his people at home in a rest of Europe and the English calumniators had it all their own way. The Irish spoke a language which had fallen into disuse with the rest of the world. True, their deal, and they saw that for the last few years ecclesiastics were versed in Latin, but the a great deal more had been accomplished. difficulty of communicating with Rome was (Applause.) Irishmen were not now at all great. During that period the Irish race events as they had been, treated as aliens in maintained their own, but they did not do much for the civilization of Europe. Another time was at hand, when the Irish people were to obtain renown. The so-called Reformation found the Irish almost subdued by the Euglish. Only a few chieftains held their ground against the invader. It was no longer possi-ble for them to go to other countries to preach the faith, but they displayed at home an heroic attachment to that faith that taught a lesson to the whole of the world. (Applause.) They showed that they were willing to sacrifice life, property and their country for the love of truth, for the love of God and for the love of their old religion. (Applause.)Some said that I reland remained Cathelic because their old enemies the Saxons had introduced Protestantism. It was said the Irish would become Protestant only for the hatred they bore the English, and he would not say bitter Protestants like their cousing in Scotland. He would not deny this, for he wished it to be believed that Irish

and Catholic mean the same thing, and that

the Irish people were Irish because they were Catholics and they were Catholics

because they were Irish. (Applause). Then came the time when the Irish, went to Spain and where they ranked next to the sovereign himself. Atter that the period came

when the Irish were scattered over Europe,

and when they formed the glerious Irish Bri-

gade. The grand history of that Brigade would take an evening to describe, but he would say that the Irishmen showed them-

selves valiant soldiers from "Dunkirk to Bel-

was dying on the battlefield of Landen, it was said that he took a handful of his blood,

was struggling for rights against plunderers, formed a select association of the bravest and

pressor as well as the native Irish had felt it be-

"The Irish officer replied : "Well, sire,

Napper Trady and others of the at classificated out to England for justice, and for free trade, and when they were coppressed his connections and the state of the said that Washington's first Califort was almost centirally composed of those Protestant Irish rebels, for North of Ireland men could be come for land men could be come for land men could be come rebele too (appliuse). Dating ages in the history of Ireland, the greatest pains had been taken by England to render the Irila people illiterate, and they were rendered to some extent illiterate, but they were not ignorant. They retained the knowledge of the old faith and they were had a graded as done as they emoblement and truth left in the path of the they could not be degraded so long as they avading hordes of the barbariana. Ireland clung to the emobling principles of the Catholic religion. The Irish were scattered over America. They were here to-day holding their head high among their fellowmen; too proud to humble themselves ; too proud, ever if inferior, to acknowledge their inferiority, for they felt that, as Irishmen, they were in tellectually holding a place as high as that ever attained by any other country, and if the Irish were true to themselves, true to their country, true to their traditions, they must succeed to the highest places in the world. True, few Irishmen had come to Cauada. They felt the injustice of British government at home, and as they thought they would not suffer longer under English injustice, they cast their lot with the free people of the United States. Those who did come to Canada carried with them the grand Type the difficulty was great. Scotchmen—
their cousins (laughter), though they
affected to deride the Irish, owed
all their knowledge to them. Columbkill, one of the chief of Patrick's clergy,
the contrast to some of their degenerate countrytransfer to the control of their degenerate country. men at home. (Applause). To-day the Irish people stood up in the United States the sole barrier to the flood of immorality sweeping across that country. They were a poor people working in the drains, sending millions to their kith and kin at home (applause), and raising churches and crosses on every hill top in the country (ap plause). Everywhere the Irish were showing examples of religion and morality and the in warlike deeds that he could cam highest traits of civilization. There was not the highest order of human stability, a poor servant girl who went to Mass on a dark winter's morning, or who went to confession, but who showed a high, a pure, and a noble example to the rich and wealthy of that country. The other day the grand assembly of hishops at Baltimore proved that there existed a great authority, which was a proof of the promise of our Lord that He would be with the Church to the end university to learn the chief part of his such cation. In fact, Ireland gave the teachers at that time to all Europe. But then Ireland's work seemed done, and she was visited by an great body of its members were prelates of the Irish race—our own kith and our own the Irish race—our own

United States. They had every temptation

to leave their religion and their patriotic thoughts of country, but that assembly in Bal-

timore was itself a proof of what the Irish

people had done for civilization, and every

Irishman could point to those prelates and

as there was now for bringing the nations to the old faith. The young Irish generation might not be so fond of the old country as their fathers, but they would inherit it at least in some part, and the work of conversion would be left for them. A true Irishman would not be content to see that he had been instrumental in stemming the tide of immorality in the United States and Canada, or that he had served Catholicity, he would strive heir native land. It has been admitted by their conquerors that they had some little right to the soil that they culti vated and which they should own altogether. A great deal, no doubt, had been done, but a great deal more was yet to be done. (Applause.) A great deal more which should be done before the Irish people were fitted for that Home Rule which would be theirs inevitably in a short time. (Loud applause.) Progress and advance was now the lot of the Lishmen at home, and it was the duty of the Irishmen abroad to assist their relations and their countrymen. (Applause.) He remembered that at a St. Patrick's dinner, in Quebec, Mr. Joly compared the position of Ireland to the sunsets in those Alpina regions where the night seems to some on, and where suddenly some streams of light appear, and it looked as dawn were again succeeding the sunset, but shortly all was dark again. This was not exactly the kind of resurrection Irishmen had hoped for. They hoped for such a resurrection as would be permanent (applause), such a resurrection as would bring with it some of the past glories of the country, such a resurrection as described by the poet Moore :--

Other nations have fallen, but thou still art young;
Thy sun is but risen, while others have set;
And though darkest clouds o'er thy morning have

hung. The full moon of freedom shall blaze o'er thee, yet The lecturer then retired and was greeted

with loud applause.

vancement of its interest

Mr. J. J. Curran, M.P., moved a vote of thanks to the lecturer, whose efforts to give a grade." WHAT IS THIS DISEASE THAT IS COMING UPON US.

Like a thief at night it steals in upon us unawares. Many persons have pains about the chest wares. Many persons have pains about any clest and sides, and sometimes in the backer They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of wicky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach; sometimes a faint all-gone sensation the pit of the stomach which food does not

tisfy The eyes are sunken, the hands and feet become cold and feel clammy. After a while a cough sets in at first dry, but after a few m inths it is attended with a greenish coloured expectora-tion. The afflicted one feels tired all the while, tion. The afflicted one feels tired all the while; and sleep does not seem to afford any rest. After a time he becomes nervous irritable, gloomy, and has evil forebodings. There is, giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become costive; the akin dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow, the urine is scanty and high-coloured, depositing a sediment after standing. There is frequently a southing. after standing. There is frequently a apitting up of the food, sometimes with a sour taste, and sometimes with a sweetish taste: this is fre-quently attended with palpitation of the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-third of our population has this disease in some of its varied forms. It has been found that medical men have mistaken the nature of this disease. Some have treated it for a liver complaint, others for kidney disease, etc., etc., but none of the various kinds of treatment have been attended with success, because the remedy should be sucl as to act harmoniously upon each one of these organs, and upon the stomach as well; for in Dyspepsia (for this is really what the disease is) all of these organs partake of this disease and require a remedy that will act upon all at the same time. Seggel's Curative Syrup acts like a charm in this class of complaints, giving almost immediate relief. The following letters from chemists of standing in the community where they live show in what cetimation the article is held.

John Archer, Harthill, near Sheffield:—I can confidently recommend it to all who may be suffering from liver or stomach complaints, having the testimony of my customers, who have derived great benefit from the Syrup and Pills. The sale

Geo. A. Webb, 141, York Street, Belfast:—I have sold a large quantity, and the parties have testified to its being what you represent it.

J. S. Metoalfe' 55, Highgate, Kendal:—I have always great pleasure it. always great pleasure in recommending the Curative Syrup, for I have never known a case in which it has not relieved or cured, and I have sold many grosses.
Robt. G. Gould, 27, High Street, Andover:—

have always taken a great interest in your medi nines and I have recommended them, as I have found numerous cases of cure from their use. Thomas Chapman, West Auckland:— I find that the trade steadily increases. 1 sell more of your medicine than any other kind. N. Darroll, Clun, Salop:—All who buy it are

pleased, and recommend it.

Jos. Balkwill, A.P.S., Kingsbridge:—The public seem to appreciate their great value.

A. Armstead, Market Street, Dalton-in-Furness: -It is needless for me to say that your aluable medicines have great sale in this district -greater than any other I know of, giving great

Robt. Laine. Melksham :- I can well recommend the Curative Syrup from having proved its efficacy for indigestion myself. Friockheim, Arbroath, Forfarshire, Sept, 23, 1882

Dear Sir,—Last year I sent you a letter recom-mending Mother Seigel's Syrup. I have very much pleasure in still bearing testimony to the very satisfactory results of the famed Syrup and Pills. Most patent medicines die out with me, but Mother Seigel has had a steady sale ever since I commenced, and is still in as a great demand as when I first began to sell the medicine. The cures which have come under my notice are hiefly those of liver complaint and general

A certain minister in my neighborhood says it the only thing which has benefited him and restored him to his normal condition of health after being unable to preach for a considerable length of time. I could mention also a great many other cases, but space would not allow. A near friend of mine, who is very much addicted to costiveness, or constipation, finds that Mother Seigel's Pills are the only pills which suit his complaint. All other pills cause a reaction which is very annoying. Mother Seigel's Pills do not leave a bad after-effect. I have much do not leave a bad after-effect. I have much pleasure in commending again to suffering humanity Mother Seigel's medicines, which are no sham. If this letter is of any service you can publish it.

Yours very truly,

(Signed) William S. Glass, Chemist.

A. J. White, Esq.

15th August, 1883. Dear Sir.—I write to tell you that Mr. Henry Hillier, of Yatesbury, Wilte, informs me that he suffered from a severe form of indigestion for upwards of four years, and took no end of doctor' nedicine without the slightest benefit, and de-

medicine without the signtest benefit, and declares Mother Seigel's Syrup which he got from me has saved his life.

Yours truly,

(Signed) N. Webb,

Mr. White.

The beer hall is supplanting the cafe in the affections of Parisians.

MRS. A. NELSON, Brantford, writes: "I was a sufferer from Chronic Dyspepsia for eleven years. Always after eating, an intense burning sensation in the stomach, at times very distressing, caused a drooping and languid feeling, which would last for several hours after enting. I was recommended by Mr. Popplewell, Chemist, of our city, to try Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, and I am thankful to eay that I have not been better for years; that burning sensation and languid feeling has all gone, and food does not lie heavy on my stomuch. Others of my family have used it with best results.

THE SKY CROFTERS AND THE "NO RENT" POLICY.

LONDON, Dec. 4.—The Sky crofters are de-

MAURICE TYPO HOT THE SAXON; 'a novely by Judich McClirch and II. spublisher by Judich Montreal London, Dec. 4 Mr. Parnell, having con aulted, his colleagues and carefully studied the Government's new Ledistribution bill, has the Government's new Redistribution bill, has decided to vigorously support that measure. He is especially delighted with the plan by dation tog the reading public. Jesting the which the larger cities will be divided up in Carthy's is none of the most distinguished to Parliamentary districts, single members to writers of the day. The productions of the be elected from individual wards, instead of all the members to which the city is entitled being voted for on a general ticket for the city at large, as at present. Mr. Parnell Asia novelist Mr. McCarthy has few superiors. asys that this is quite in line with the Home Rule principles, for which he has always contended, and that is will in practice work very advantageously to his party. The Irish voters in the large cities are to a considerable extent concentrated in certain districts of those cities. The Home Rulers can afford, Mr. Parnell says, to canvass these districts, while they could not afford to can. vass whole cities. They will also have excellent prospects of success in districts which are largely peopled by the Irish vote which would be wholly swallowed in an election which was general throughout the city. Mr. Parnell nopes to carry at least eight seats for his party in the cities of England and Scot-land, at the next general election, in consequence of the division of those cities into voting districts. He also expresses himself as satisfied with the number of representatives allowed to Ireland, bucause although the number of representatives is not increased, his party expects to be able to elect a larger proportion of them through the division of the vote in the cities and the extension of the franchise to labouring men. The passage of the Redistribution full, almost without oppo-

York and Montreal. The pame of the author His works of liction are instructive, mora and entertaining; but,, in the opinion of many, "Maurice Tyrone" is his best novel, The hero is an Irishman, a true descendanc of the great Tyrones, one of the race famous for Aspar, the sensitive, high spirited hero-ine, with her unworldly ideals and intense capability of loving from the moment we find her dancing on the table until we hid her farewell interests the seader deeply. Felix Macan is a patriot of a type that is quite familiar, while the worldly scheming widow and her son Theodore are very fair aketches of certain types of American character. The style is clear and picturesque. The author's great power of observation enables him to portray men and women such as are met in every day life with consummate fidelity. The storon the whole is one of absorbing interest and the Messrs. Sadlier are to be congratulated on having added it to their select catalogue. The volume is a hundsome one; it is well printed and richly bound. The price is \$1.50 and is sold at D. & J. Sadlier & Co's., 1669 Notre Dame street, Montreal.

Life of Right Rev. John Nepomucene Neu mann, D.D., of the Congregation of the Most Holy Redeemer, tourth Bishop, of Philadelphia. Transloted from the German of Rev. John A. Berger, C.SS.R., by Rev. Eugene Grimm, C.SS.R. 12mo. cloth, \$1 50. Benziger Bros., New

The biography of this saintly and learned prelate of the Catholic Church in the United States is a welcome addition to our religious literature. The biographer brought to his work zeal and ability, which are stamped on every page. Bishop Neumann's life was a noble one, and it is treated according to its merits. The history of his early youth and of the long succeeding years of his apostolic labors is well told, and presents a most artistic picture of a life of highest sanctity and devotion. The book is one that contains instructive and edifying lessons for all Chris-

LESSONS IN ENGLISH, ELEMENTARY COURSE BY THE BROTHERS OF THE CHRISTIAN

This work is the result of the labors of a committee of Christian Brothers, which acts under the direction of Brother Tobias, the head of the order in Toronto. It is the first volume of a series of lessons in the English lauguage calculated to render the teaching and learning of English more practical and interesting than it has hitherto been. The elements of grammar, composition and literature are unfolded from a practical standpoint. The literary selections, as well as the exercises generally, are interspersed with religious passages, that the teacher may have an opportunity to give an occasional moral lesson. The volume is intended for elementary classes only. In point of mechanical execution the get up is very creditable The work has airendy met with high com-mendation. The Toronto Globe speaking of its merits says that not alone that portion teraity of this and the adjacent Province, owe a debt of gratitude to the members of the Order in Toronto who have prepared this educational manual.

The general plan which is to be carried on through the higher courses, is virtually identical with one already in use in a French series of language lessons designed originally for use in the schools carried on by the Brothers in Europe and recently adopted for use in those of Quebec. The method has thus undergone the test of some years' experience over a wide area, not to speak of its baving been originally devised to meet a want felt by a large body of practical teachers. In view of this fact it is well worthy of the attention of Canadian teachers generally, who cannot fail to get from it some useful hints as to the best methods of correcting the evi tendencies of purely formal grammur in the teaching of English. Altogether the treatise is a useful adjunct to the series of public school text-books in English, and will, no doubt, meet with general favor.

Scines and Incidents in Irish Life.

This is the title of a spicy and interesting work from the pen of the Rev. F. H. Clay ton, of Bolton Centre, in the Townships. The anthor styles himself an humble exile from Erin, but if he is to be judged by his work he is one of the patriotic stamp who does not fear to bear testimony to facts that have been so long a discredit to English rule in Ireland. The book is a stirring tale of some of the dark and bright sides of Irish life. There is very little pretence to method; it is largely made up of what must be persona reminiscences, giving rise to a unique combination of the gay and the grave, and to sudden changes from the grotesque to the sublime. The author attributes, from personal experience and knowledge, the wretchedness of the people to the system of landlordism and to the oppression of the British Government. He speaks in plain terms of Mr. Gladstone's want of nerve in prosecuting reform, and vigorous ly advocates home rule and peasant proprie-If your children are troubled with worms give them Mother Graves Worm Extermina wrong which Ireland is made to suffer. The chief characters are the D'Arcy family, the head of which is a resident and ideal landlord, who takes a kindly interest in the welfare of his tenants. A son brings home with him on a visit an Paglish Lieutenant named Claymore, who falls in love with Mary D'Arcy. Their true love runs smooth till the mild opposition of the eldest brother stands in the way of the lovers. A simple and not very remantic elopement, to which the rest of the family is privy, takes place. Lieutenant Claymore only lives a few years, and Mary D'Arcy is left, a widow with two sons to educate. Her brother who inherits the entailed property lives beyond his means and ends by hankrupting his brother and sisters. The other characters in the story are the rector, parish priest, some of the neighboring gentry, peasantry, police inspectors, barristors, physicians, etc. An Irish patriot named, Fitzgerald is hanged and afterward cut down are resolved to retain their grazings and to ignore landlord's writs. They maintain the island by right pelongs to them.
