

scription was asked for and obtained, which proved to be an accurate transcript of the prescription, bearing date and number corresponding to those upon the label of the bottle dispensed. Upon examination, the content of said bottle was found to be a fluid differing materially from Fairchild's Essence of Pepsine, so as to be obviously recognizable as a plain violation of the physician's prescription. Another written order for Fairchild's Essence of Pepsine was sent to Druggist . . . Upon examination, this proved likewise to have been filled with a different and inferior fluid. Subsequently, the same day, a messenger was sent to . . . and

asked verbally for four ounces of Fairchild's Essence of Pepsine. He received a wrapped vial, for which he paid 50 cents. This bottle was found without label, and the messenger returned and asked to have the bottle labeled. The druggist then simply labeled it "Essence of Pepsine." Thereupon, the messenger requested the druggist to put "all the name on the bottle." The druggist told the messenger that he "would not dare to put Fairchild's name on the label, although it was all the same." The druggist finally admitted to the messenger that he was "out of Fairchild's Essence," and then returned the 50 cents. There is one significant fact

Shows pelvis as it rests on Christy Saddle.

Christy Anatomical Saddle

The only saddle that is built on anatomical principles. Used, recommended and endorsed by physicians. Has thick cushion pads where pads are needed. If it is fitted to your bicycle there will be no chafing, stiffness, soreness, or injury, and riding will be made a pleasure. Especially adapted for woman cyclists. Price, \$5.00.

ENDORSED BY EVERYONE.

Free to Physicians.—Our booklet on the saddle question. A complete treatise from the standpoint of the cyclist and physician. Manufacturers and dealers are notified that the Christy Saddle is fully protected by mechanical and design patents and infringers will be prosecuted.

THE BABY'S DIGESTION

Is the source of most of its troubles. A little baby is mainly a small machine for the transformation of food into flesh. If the food is of the right sort there is usually no trouble. A doctor's chief concern is in getting a palatable food that will digest easily. It's easy to get if you start right. Start with

RIDGE'S FOOD

It is a complete diet in itself. It does not depend on milk to make it nutritious. It has to be prepared, but the results are always good. It has no effect on the bowels—neither laxative nor astringent. It is merely a food, but it is the best food. It digests easily, is readily assimilable and makes sound, healthy flesh. If you are not familiar with it we will be glad to send you a sample can with some literature.
