#### FLOUR, GRAIN, Etc.

Flour .- Receipts during the past week were 11,622 bbls, against 27,097 bbls, for the week previous. The market during the past week although not characterized by any activity, has nevertheon local account; but at very irregular prices. It was reported that one of our large millers here put down his price for strong bakers' 10c per bbi. on Wednesday last; but as the price of wheat was firmer and higher on that day, the report was not credited. The prices at which strong bakers' sell at is more or less guess work outside of the principals to the deals, as millers are very reticent bout the terms of their transactions, and gener ally quote terms private. This is especially the ease with all export sales, so that really the report of a lot of straight rollers or patents for export, say 2,000 or 2,500 bbis. on p.t., is really no informa tion or guide to the market. Sales of straight rollers have been reported to us at \$3,70, \$3.75, \$3.77} and \$3.80 delivered here. Shipments of

Į	about 2,000 bbls, are being made to New! but they are on old orders. We quote:	
١	Spring Patent\$	4.25 - 4.40
ı	Winter Patent	4.10-4.35
1	Straight Roller	3.70 - 3.90
١	Extra	3.30 - 3.50
	Supertino	0.000.00
	Man. Strong Bakers, best brands	4.00-4.10
ı	Manitoba Strong Bakers	3.50-3.90
	Straight Rollers, bags	1.801.90

Outmont .- Receipts during the past week were 277 against 500 bbls, for the week previous. The market is steady at \$2.90 to \$3 per bbl. in round mantitles; but the domand is slow. In a jobbing way the market is about as last quoted and sales have been made at within the following range:— Rolled and granulated \$2.95 to \$3.15; standard \$2.85 to \$3. In bags rolled and granulated are quoted at \$1.40 to \$1.50, and standard at \$1.35 to \$1.40. Pot barloy \$3.25 to \$3.50 in bbls. and \$1.60 to \$1.75 in bage, and split peas \$3.25.

Bran, etc.—During the past week there has been a fair demand for Ontario bran and sales have been reported of 15 cars at prices ranging from \$9.50 to \$10.25, one car selling at the begin ning of the week at \$10.50. To-day \$9.75 is bid for a car; but holders ask \$10. Western millers write that they are getting \$10 to \$10.25 at the mills for New York account. Shorts are quoted at \$10,00

Wheat .- Receipts during the past week were 444,294 bus, against 332,143 bus, for the week pre-vious. The market has ruled quiet on spot with values nominal, No. 1 hard Manitoba being quot ed at 79c to 80c affoat and at 73c affoat Fort William. Red and white winter wheat at points west

of Toronto are quoted at 70c to 72c f.o.b. Corn.—Receipts during the past wook were 48,445 bus, against 179,558 bus, for the week provious. The market is quiet and steady at 30c

to 32e for American and Ontario yellow. Pens.—Receipts during the past week were 74,956 bushels against 67,245 bushels for the week provious. The market is quiet with sales of 10,000 bushels reported in the West on p.t., but said to be at a lower figure than quoted for some time

past, and we quote 49c to 50c affeat. Oats,-Receipts during the past wook were 87,575 bushels against 282,825 bushels for the week provious. The market is ensier in sympathy with the decline in England, where prices have dropped from 13s 6d to 12s 6d. Sales have been reported to us during the past few days at 25]c, 25]c and 25]c, in store for export, and a

hand sales are reported in store for local accoun nt 26c. Barley .- Receipts during the past week were 3,240 bus, against 47,898 for the week previous. The market is quiet at 31c to 32c for feed, and purely nominal for malting at 38c to 40c.

round lot was sold at 26]c affest. On the other

The weather has had a very bad effect on lemons; sales are reported as being very slow. Oranges are in better demand this week, Valencia oranges show a de-

#### Latest on Butter and Cheese.

As we go to press the sale of a lot of 50 pkgs of finest creamery was reported to us at 16c, comprising large tubs and boxes; another lot of nearly 50 boxes was sold this morning at 161c, said to be fancy, and yet one of our largest exporters cabled a lot of finest creamery to an English house yesterday on the basis of 16c here without getting a response. In dairy butter a lot of nice fresh dairy packed Western was sold

at 123c. The cheese market to-day closes quiet but steady at 81c for finest Western white and colored, although the cheese going out this week, which is believed to be about 50,000 boxes, cost 31c to 81c and over for finest Western, and 8 to to8 to for finest Eastern. Great complaints are heard of the poor folder class of cheese arriving from points in this province owing to the inteness of the season, Undergrades

are quoted at 71c 8c. At the Brockville Board to-day 49 factories offered 1,202 boxes white and 623 colored sold at 8 tc, 105 boxes colored 81c, all of which sold on the Board, the balance selling afterwards at 84c.

The cheese market closes strong in New York to-day and to higher at Stc for Fittings, Plumbers' and Buildfancy. Here the market is steady under better Liverpool cables. There is unquestionably a better feeling in this market; the closing prices being 81c finest Western
