

Here only \$1.50 per week per patient is received from the government. A philanthropic public must make up the deficit—or else suffering ones be without a place to go—for where else can they go?

The general hospitals of the country refuse the consumptives. The Muskoka Free Hospital for Consumptives is the only hospital in Canada that accepts patients from any part of the Dominion.

SURELY THIS IS  
THE PEOPLE'S BURDEN.
